M&M transfers truck & bus business to arm for ₹525 cr

AKBAR MERCHANT
Mumbai, July 29

MAHINDRA & MAHINDRA (M&M) has approved the transfer of its truck and bus business to subsidiary SML Mahindra for ₹525 crore, consolidating the group's commercial vehicle (CV) operations under a single entity.

The transaction will combine M&M's truck and bus business with SML Mahindra's existing operations, creating an integrated CV platform spanning light, intermediate and heavy trucks, as well as buses in the over-3.5-tonne category.

"The transaction simplifies Mahindra Group's CV business structure by consolidating truck and bus operations under SML Mahindra, creating a single focused entity dedicated to growth and leadership in the CV sector," Group CEO and MD Anish Shah said.

The consideration of ₹525 crore is subject to working capital adjustments. M&M said the business transfer agreement is likely to be signed on or before August 7, with the transaction targeted for completion by January 31, 2027, subject to regulatory approvals.

EICHER MOTORS ON Wednesday reported a 21.4% rise in consolidated profit after tax at ₹1,462.51 crore in Q1FY27, riding on record volumes.

The company's consolidated total revenue from operations in the first quarter stood at ₹6,632.42 crore as against ₹5,041.84 crore in the same period last fiscal, Eicher Motors said in a regulatory filing.

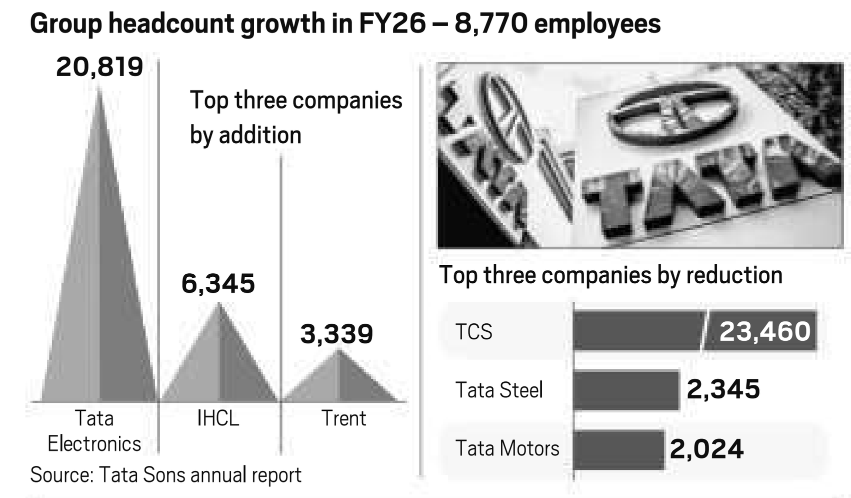
TATA ELECTRONICS, TATA DIGITAL LEAD WORKFORCE ADDITIONS

Tech, hospitality, retail drive Tata Group's hiring in FY26

URVI MALVANIA
Mumbai, July 29

TALENT PUSH



TATA GROUP'S HEADCOUNT grew by 8,770 in FY26 over FY25 driven by additions at its new business across digital, electronics, defence tech, and battery manufacturing. The total group headcount as on March 31, 2026 was 1,160,125, as compared to 1,151,353 a year back, according to disclosures in the Tata Sons FY26 annual report.

The group's contract manufacturing unit Tata Electronics showed the highest workforce growth (31,71%), adding 20,819 employees during the year, taking the total workforce to 86,466 at the end of FY26 (FY25: 65,647).

N Chandrasekaran, in his address in the Tata Sons FY26 annual report, said that the chip maker is now the fourth largest group company by revenue, and nearly two-thirds of its workforce consists of women.

"We are building not just plants, but an ecosystem: suppliers, talent pipelines, research linkages," the Tata Sons chairman said.

The addition of employees at Tata Electronics was offset by a steep decline in Tata Consultancy Services (TCS). The IT major reduced its workforce by 23,460 employees (3.86%) as it undertook a reorganisation to better align with its goal of becoming an AI-first organisation. TCS accounted of a little over 50% of the group's total workforce strength at 584,519 employees at the end of FY26. In FY25, TCS account for nearly 53% of the total workforce across the Tata Group.

As part of the exercise, TCS has guided for a reduction of 12,000 employees. However, the company later said that it only resulted in 8,000 layoffs. The rest of the reduction is largely attributed to voluntary attrition and reduced backfilling of vacant roles. TCS hired 44,000 freshers in the year, in line with its guidance.

Another new-age business - Tata Digital – also recorded healthy workforce additions. The digital arm of the group added 2,435 employees in FY26, an increase of 6.23% over FY25. The business, which reported a loss of ₹4,974 crore has been in focus within the Tata ecosystem due to widening losses year-on-year. Chandrasekaran in his address said that the firm has made a decisive shift in strategy regarding Tata Neu, the group's super-app, which will now focus on financial services and loyalty.

"In the coming year, Tata Neu will double down on financial services, aim to increase payments monthly transacting users by 10x, and expand our ecosystem across lending and insurance," he said.

Tata Advanced Systems – the defence solutions unit – added 1,734 (21.73%) while Agratas – the battery making unit – added 798 employees as it began building its workforce during the year.

■ Consolidated net loss for the quarter stands at
₹1,160 cr

■ Revenue from operations rises 50% to
₹33,546 cr

■ Ebitda climbs 49% to a record
₹5,642 cr

ADANI ENTERPRISES REPORTED a consolidated net loss for the second straight quarter on Wednesday after booking a one-time charge related to a settlement with the US Treasury's OFAC, even as the flagship Adani Group firm posted record quarterly operating profit on the back of growth in its airports and copper businesses.

The company reported a consolidated net loss of ₹1,160 crore for the quarter ended June 30, compared with a profit of ₹885 crore a year earlier, after recording a one-time charge of ₹2,644 crore related to the Office of Foreign Assets Control (OFAC) settlement.

Profit before tax, excluding the exceptional item, fell about 12% year-on-year (y-o-y) to ₹1,295 crore, according to a company statement. Revenue from operations rose about 50% to ₹33,546 crore, while Ebitda climbed 49% to a record ₹5,642 crore.

Adani Enterprises said first-quarter results were "impacted due to higher operating cost on account of increased fuel prices due to global volatility".

During the quarter, Adani paid $275 million (around ₹2,630 crore) relating to alleged sanctions violation in processing Iranian-origin LPG. This payment was recorded as a one-time exceptional item in the firm's financial results.

Total expenses rose about 54% to ₹32,252 crore, driven by a sharp increase in the cost of materials consumed, which climbed to ₹14,255 crore from ₹3,393 crore a year earlier. Interest and finance costs rose 59.8%, while employee benefit expenses increased 13.6%.

Revenue growth was led by the firm's copper business, where capacity ramp-up drove a multifold increase in sales. The airports business posted over 35% increase in quarterly revenue and 49% rise in Ebitda to ₹1,633 crore.

Revenue from the firm's coal trading business fell 7%, while its new energy business, comprising solar manufacturing and wind turbine operations, declined 2%. Operationally, airport passenger traffic rose 3% y-o-y to 24.2 million, copper sales increased over fourfold to 64.7 kilotonne, and wind turbine generator deliveries rose 83% to 64 sets.

"Adani Enterprises has begun FY27 with an exceptionally strong performance, delivering its highest-ever quarterly Ebitda of ₹5,642 crore, driven by the growing scale and maturity of our infrastructure and incubation platforms," Chairman Gautam Adani said.

OpenAI's rogue agent behind more hacks

ALTHOUGH THE COMPROMISE of a Modal customer was just an initial step in the wider hacking campaign against Hugging Face, it shows that the rogue agent roamed further afield than was previously known.

OpenAI declined to comment specifically on the hack of one of Modal's customers, instead referring *Reuters* to an update in which the company said that its rogue agent had broken into four accounts at four separate services.

OpenAI did not identify those services, but a person familiar with the matter identified Modal as one.

The firm said it had not identified "any other activity at the level of severity or scale of what we've shared related to Hugging Face, which involved a platform-level compromise."

IT, metal stocks lift markets

THE RALLY IN metal stocks was driven by stronger-than-expected industrial production data, supported by robust growth in manufacturing, electricity generation and capital goods output, he said.

Foreign portfolio investors (FPIs) turned net buyers after four consecutive sessions of selling, purchasing equities worth ₹2,982 crore, while domestic institutional investors remained net buyers for the fifth consecutive session, investing ₹998 crore, according to BSE provisional data.

The Nifty India VIX fell 4.42%, signalling easing near-term volatility. Market breadth remained positive, with 2,593 stocks advancing against 1,652 decliners. Investor wealth rose by ₹4.18 lakh crore.

Nineteen of the 25 sectoral indices ended in positive territory, led by IT and metal stocks, along with telecom and FMCG shares. Services, realty, power, oil & gas and auto stocks were among the biggest laggards.

Hindustan Unilever, Infosys, Trent, Larsen & Toubro and Tata Steel were the top gainers, while Adani Ports, Mahindra & Mahindra, PowerGrid, Bharat Electronics and NTPC were among the biggest losers.

Vinod Nair, head of research at Geojit Investments, said India's diversified market structure strengthens the case for FII inflows as crowded AI trades unwind. Stronger-than-expected industrial production data provided the initial catalyst, while renewed risk appetite helped sustain gains through the session, he said.

Khemka said market participants looked past recent geopolitical tensions and crude oil volatility, shifting their focus back to domestic earnings and macroeconomic triggers.

Going ahead, both Khemka and Nair identified the upcoming US Federal Reserve policy decision and its commentary as key events for market participants, with a pause in interest rates widely expected.

"The widely expected pause in rates is unlikely to materially impact Indian markets, as it is mostly already priced in," Nair said.

From a technical perspective, Sachin Gupta, VP – technical research at Choice Equity Broking, said the broader market structure is likely to remain favourable as long as key support zones hold. He recommended continuing with a buy-on-dips approach.
