PANAJI (GOA): Dempo Goa Challengers became the first team in the competition's history to remain unbeaten through the league phase after defeating UP Prometheans 10-5 in Butterfly UTT Season 7 Powered by ChatGPT on Wednesday.

The victory capped a remarkable league campaign for the two-time champions, who defeated all six of their opponents to finish atop the standings heading into the semifinals.

Alvaro Robles and Bernadette Szocs starred once again as Goa built an early advantage before Abhinandh PB and Szocs combined to clinch the mixed doubles and seal the tie. While UP fought back through Manav Thakkar and Yangzi Liu in the closing matches, Goa's commanding start ensured they created history as the competition's first unbeaten

league-stage side.

Staged under the aegis of the Table Tennis Federation of India (TTFI) and promoted by Niraj Bajaj and Vita Dani, Butterfly UTT Season 7 features 42 players from around the world, including 14 Olympians, while continuing to strengthen the Indian table tennis ecosystem through elite competition and year-round development initiatives.

The reigning champions then took complete control in the mixed doubles, with Szocs and Abhinandh edging Ricardo Walther and Swastika Ghosh in three tight games to secure the tie and maintain Goa's unbeaten record.

England, Australia to contest first-ever Mixed Disability Ashes

NEW DELHI: England and Australia will contest the first-ever Mixed Disability Ashes in 2027, with Australia's men's mixed disability team set to tour England for a T20I series in another major step forward for disability cricket.

The inaugural series, with the schedule and venues yet to be announced, will form part of England's 2027 Ashes summer alongside the men's and women's Ashes.

The announcement marks another milestone for the mixed disability format, which has grown rapidly in recent years. England have already played a mixed disability series against India and are set to host another later this year.

ECB Head of Disability Cricket Ian Martin said the introduction

of a Mixed Disability Ashes was a landmark moment for the sport.

"It really signals the next step of Mixed Disability Cricket to be able to introduce an Ashes, it's a hugely meaningful progression for the game. All cricket fans understand the importance of an Ashes series. England v Australia is for so many the peak of the game and I'm delighted that our Men's Mixed Disability squad will get a chance to compete in such a series," Martin said.

"We've had a fantastic series against India, with another one due this summer, and we're keen to continue growing this format. I'm delighted we'll be able to welcome Australia to the UK next summer, and I can't wait for our first Mixed Disability Ashes series," he added.

Foreign investment revival signals renewed confidence in Indian economy: RBI

NEW DELHI: A revival in foreign investment flows indicates that global investor confidence in the Indian economy is strengthening, according to an article published in the Reserve Bank of India's (RBI) July Bulletin.

The article said higher foreign direct investment (FDI), the return of foreign portfolio inflows and improving external sector indicators reflect India's resilience despite ongoing global uncertainties.

The article, State of the Economy clarified that the views expressed are those of the authors and do not necessarily represent the central bank's official position.

According to the article, both gross and net FDI inflows during April-May 2026 exceeded the levels recorded in the corresponding period last year. Net FDI rose to \$6.5 billion during the two-month period, compared with USD 2.5 billion a year ago.

The report also highlighted a turnaround in foreign portfolio in-

vestment (FPI) flows. After witnessing sustained outflows earlier in the financial year, FPIs turned net buyers in June and continued to invest in July, aided by supportive policy measures and easing geopolitical tensions.

Indian equity markets also reflected the improving investor mood. The bulletin noted that equities rallied during June and the early part of July following the ceasefire agreement between the US and Iran, moderation in crude oil prices and renewed foreign investor buying.

However, markets corrected after geopolitical tensions resurfaced in West Asia and oil prices climbed again, before settling into a range-bound movement.

Despite the recent recovery, overseas investors remain net sellers of Indian equities so far in the current financial year, having withdrawn USD 13.28 billion. In contrast, they have invested \$7.8 billion in the domestic debt market.

The article said recent policy ini-

tiatives by the RBI and the government have helped improve foreign investor sentiment. These included measures to expand overseas investors' access to government securities, relax investment norms for foreign portfolio investors and provide tax support for investments in sovereign bonds.

The RBI also pointed to strong inflows under its recently introduced foreign currency mobilisation measures. Non-Resident Indians (NRIs) invested USD 17.41 billion through Foreign Currency Non-Resident (Bank) [FCNR(B)] deposits under the special incentive scheme.

In addition, the central bank received USD 1.97 billion through overseas foreign currency borrowings and USD 1.34 billion via external commercial borrowings.

According to the article, the concessional swap facility introduced for fresh FCNR(B) deposits has played a key role in boosting foreign currency inflows and strengthening India's external position.
