MEDIA RELEASE

EBIX LIMITED WELCOMES RBI'S LANDMARK APPROVAL EXPANDING EBIXCASH WORLD MONEY'S TRADE REMITTANCE CAPABILITIES

EbixCash World Money becomes India's first non-bank institution to receive RBI approval to undertake trade remittances, further expanding the scope of its perpetual Authorised Dealer Category-II (AD-II) license.

New Delhi | 21 July 2026: Ebix Limited (formerly known as **Eraaya Lifespaces Limited**) is pleased to announced that its flagship subsidiary for payments business **EbixCash World Money Limited** has received approval from the **Reserve Bank of India (RBI)** to undertake **trade remittances**, becoming the **first non-bank institution in India** to receive such approval. The approval expands the scope of EbixCash World Money's existing perpetual Authorised Dealer Category-II (AD-II) licence and marks a significant milestone in the continued evolution of India's regulated cross-border payments ecosystem.

The approval enables EbixCash World Money to undertake trade remittances in accordance with the applicable regulatory framework prescribed under the Foreign Exchange Management Act (FEMA) and the directions issued by the Reserve Bank of India. It broadens the Company's regulated service portfolio by enabling participation in an important segment of cross-border payment services that has traditionally been serviced primarily through banking channels.

India's growing integration with global markets, expanding merchandise trade, increasing participation of MSMEs in international commerce and rising cross-border financial flows continue to create sustained demand for efficient, technology-enabled and fully compliant payment solutions. The expanded scope of EbixCash World Money's AD-II licence positions the business to support these evolving requirements through a broader range of regulated cross-border payment services.

EbixCash already operates a well-established foreign exchange and cross-border payments business supported by an extensive nationwide distribution network, technology-driven operating platform and long-standing customer relationships across retail and corporate segments. The addition of trade remittance capabilities builds upon these existing strengths, enabling the business to deliver a broader suite of integrated and regulated cross-border payment solutions through a single platform.

The approval represents another important step in the continued expansion of Ebix's regulated financial services platform. Together with its existing businesses across foreign exchange, remittances, payments, travel, insurance exchanges and financial technology, the additional capability further strengthens the Group's integrated financial services ecosystem and supports its long-term strategy of building a diversified technology-led platform serving customers across multiple markets.

Mr. T. C. Guruprasad, CEO & Managing Director – EbixCash World Money Ltd. said: *"This approval marks an important milestone for EbixCash World Money and expands the range of regulated solutions that we are able to provide to our customers. We remain committed to maintaining the highest standards of regulatory compliance, governance, operational excellence and customer service as we continue to strengthen our payments platform."*

"India's international trade and cross-border payments landscape is undergoing rapid transformation. Over the years, we have invested consistently in technology, compliance infrastructure, operational capabilities and nationwide distribution to build a scalable and resilient payments business. This approval enables us to extend those capabilities into an important new segment of the market and better serve businesses engaged in international trade with efficient, technology-driven and compliant payment solutions."

"We believe the long-term opportunity is significant. As cross-border commerce continues to expand, businesses increasingly require integrated payment solutions that combine technology, compliance and operational efficiency. Ebix is well positioned to participate in this evolving landscape, and we remain focused on delivering sustainable value to customers, partners and shareholders through disciplined execution and responsible growth."

The approval is expected to further strengthen EbixCash's ability to provide integrated foreign exchange and cross-border payment solutions by leveraging the Group's established payments infrastructure, technology platform and customer reach. It also complements the Company's ongoing efforts to broaden its regulated financial services offerings while maintaining a strong focus on compliance, operational discipline and customer-centric innovation.

As Ebix continues to expand its regulated payments platform, the Company remains focused on long-term value creation through responsible growth, technology-led innovation and disciplined execution. The addition of trade remittance capabilities further enhances the breadth of its regulated offerings and supports the Group's strategy of building one of the region's most comprehensive cross-border payments and financial technology platforms.

This also reflects the continued evolution of India's financial services ecosystem, where technology-enabled institutions operating within robust regulatory frameworks are playing an increasingly important role in supporting international trade, global commerce and cross-border financial connectivity. Ebix looks forward to working closely with customers, regulators and other participants in contributing to this next phase of India's cross-border payments journey.

About Ebix Limited

Ebix Limited (formerly known as Eraaya Lifespaces Ltd) is a global holding company of Ebix Inc. and its worldwide subsidiaries. Following a strategic transition in 2024, Ebix Limited has evolved from its conventional roots in lifestyle and hospitality into a diversified, technology-led holding platform with operations across 13 countries serving enterprise & consumer markets worldwide.

EBIX LIMITED

Through Ebix Inc. and its operating global subsidiaries, Ebix has built a strong global presence across four core business segments: Technology, Payments, Travel, and Emerging Businesses.

The technology platforms business delivers on-demand software, SaaS solutions, and digital exchanges that support insurance, reinsurance, financial services, healthcare, risk and compliance and many more software products catering to various service segments. The cash payments segment provides technology-enabled payment solutions and financial transaction platforms catering to diverse use cases across geographies. Ebix Travel is one of the group's key verticals, offering end-to-end travel with travel distribution solutions, including booking platforms, payments integration, and digital marketplaces that serve airlines, travel agencies, corporates, and consumers across international markets. In parallel, the company's emerging businesses include e-learning which focused on delivering digital education and training solutions designed to support skill development and professional learning at scale.

These businesses enable Ebix to operate across enterprise and consumer markets, supported by global delivery capabilities, long-standing client relationships, and process-driven platforms.
