Hotels fee at home even as foreign arrivals falter in Q1

Domestic demand helped hotel firms offset weak foreign tourist arrivals amid West Asia war

Varun Khosla
varunk@liveinmint.com
NEW DELHI

India's listed hotel companies entered fiscal year 2027 (FY27) facing disrupted international travel and weaker foreign tourist arrivals as the West Asia conflict escalated. Yet resilient domestic demand helped cushion the shock, with occupancy and revenue per available room (RevPAR) strengthening in May and June.

With high-paying foreign guests temporarily harder to attract, operators leaned more heavily on domestic corporate travel and MICE (meetings, incentives, conferences and exhibitions) to keep rooms filled.

HVS Anarock data show hotel occupancy at 63-65% in May, up 6-8 percentage points from a year earlier, and 64-66% in June, up 3-5 percentage points year-on-year. RevPAR rose 22-24% year-on-year in May, to 14,977-5,265, and 17-19% in June, to 15,056-5,346.

Prashant Biyani, vice-president, institutional equity at Elara Capital, told Mint the quarter marked a shift in how hotel companies drove revenue growth. Unlike the previous year, when RevPAR expansion was led largely by higher average room rates (ADR), most operators this quarter focused on boosting occupancy as geopolitical tensions and the disruption to international travel impacted the arrivals of high-paying foreign guests.

Biyani said the first half of FY27 will remain occupancy-led, with room rates likely to recover in the second half as international travel normalises during the peak season.

Ashish Jakhani, managing director and chief executive of SAMHI

Room rates are expected to recover in the second half of the current financial year as international travel normalises during the peak season.

Hotels Ltd. said the quarter witnessed some disruption to international travel due to the West Asia conflict. "However, the resilience of domestic demand, supported by sustained corporate travel and MICE activity, enabled us to deliver healthy growth and maintain strong operating performance across our portfolio."

Akash Datta, managing director (South Asia), HVS Anarock, said India's

hotel sector entered FY27 on a strong footing, with first-quarter results of listed hotel companies indicating healthy operating fundamentals. "Most companies reported revenue growth, ranging from approximately 7-28%,"

portfolio composition, new hotel additions, finance costs and one-off items. "This makes underlying operating indicators rather than headline growth alone increasingly important when assessing performance."

The resilience in operating performance is coinciding with a push to add rooms. HVS Anarock data show that 179 properties, comprising about 20,000 rooms, were signed between January and May, underscoring the pace of expansion. Several operators also acquired existing hotels, while others expanded through new brand tie-ups and management signings, allowing them to add inventory faster than through greenfield development.

Indian Hotels Co. Ltd (IHCL), for instance, expanded its pipeline to 255 properties. ITC Hotels acquired 130-room Welcomhotels Ahmedabad for an enterprise value of 1155 crore, while SAMHI Hotels bought a boutique luxury property Innemans Estate, with eight rooms and cottages, for 112 crore in Almor, Uttarakhand. Chalea Hotels completed the acquisition of Seasons Hotels Pvt. Ltd for 171 crore, taking over the 144-room Indira Residency Resort & Spa in Jaipur.

ITC Hotels said the June quarter was marked by uncertainty stemming from the West Asia conflict, which disrupted air travel and led to broad-based demand softness across key markets in April, reflected in weaker foreign tourist arrivals. Occupancy and room rates recovered in May and June as travel sentiment improved.

Room revenue increased 8% year-on-year, while food and beverage revenue increased 11% and management fee income grew 35%.
