Dear Sir/Madam,

Sub: Notice convening the 33rd Annual General Meeting (“AGM”) and Annual Report FY 2025-26

Pursuant to Regulation 34(1) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform you that the 33rd Annual General Meeting (AGM) of the Company is scheduled to be held on Saturday, August 29, 2026 at 9:30 a.m. (IST) through Video Conferencing (VC) / Other Audio Visual Means (OAVM).

In this regard we are submitting herewith 33rd Annual Report for FY 2025-26 including Notice convening the AGM which is being sent only through electronic mode to the Members, who have registered their e-mail addresses with the Company/ Depositories Participants/ Company’s Registrar and Share Transfer Agent viz. Kfin Technologies Limited (RTA’).

For Members who have not registered their e-mail address, a letter providing the web-link where the Annual Report of the Company is uploaded and QR Code to access digital copy of Annual Report is being sent at the address registered in the records of RTA/Company/Depositories Participants.

The Annual Report for the financial year 2025-26 containing the Notice is also uploaded on the Company’s website at www.zentechnologies.com/annual-reports.

The following are the details in connection with the e-voting:

Cut-off date for e-voting	Friday, August 21, 2026
E-voting start time and date	9:00 a.m. (IST) on Wednesday, August 26, 2026
E-voting end time and date	5:00 p.m. (IST) on Friday, August 28, 2026

This is for your kind information and records.

Thanking you

Yours faithfully,

For Zen Technologies Limited

SCRIPTING A NEW CHAPTER IN DEFENCE-TECH INNOVATION

India's defence sector is being reshaped by a national commitment to design, develop and manufacture at home. Zen Technologies Limited has followed this path since 1993, building indigenous, IP-owned technologies for the training and readiness of the armed forces.

FY26 was a year of measured progress on that journey. The Company broadened from a defence training and simulation specialist into a diversified defence technology company serving India's indigenous requirements across simulation, counter-drone systems, weapon platforms and robotics. This report sets out how that capability is taking shape and how it supports the country's self-reliance in defence.

Forward Looking Statement

This report contains forward-looking statements about the Company's strategy, operations and prospects. These are based on current expectations and assumptions and are subject to risks and uncertainties. Actual results may differ, and the Company undertakes no obligation to update these statements.

ABOUT THE COMPANY

OWNED BY INDIA, TRUSTED GLOBALLY

Zen Technologies Limited is one of India's leading indigenous defence technology companies. Its purpose is to keep those who defend the nation ready for modern conflict. The Company designs, develops and manufactures its own technologies and retains ownership of the underlying intellectual property.

Founded in 1993 in Hyderabad, the Company began by building simulators for the Indian Army. Over three decades it has grown into a diversified defence technology company, listed on the BSE and the NSE, with capabilities across training and simulation, counter-drone systems, weapon platforms, combat robotics and naval simulation. This

evolution has been built on sustained, self-funded research and a consistent focus on indigenous ownership.

The Company's technologies are used by the Indian armed forces, central and state police organisations and a growing number of customers abroad. Its counter-drone systems were

deployed during Operation Sindoor, and its training systems are in service across the country. This combination of indigenous ownership and combat-relevant technology has made the Company a trusted partner at home and a credible one in export markets across the Middle East, the CIS countries and South-East Asia.

Vision

To be the global leader in defence training solutions and anti-drone technologies, empowering armed forces worldwide with advanced simulation and security systems.

Mission

To enhance the combat readiness of armed forces through innovative, cost-effective and sustainable training solutions, and to advance technology continuously, creating indigenous products that set new benchmarks in defence training and security.

THE TRIUMPH OF OPERATION SINDOOR

THE TRIUMPH OF OPERATION SINDOOR

During Operation Sindoor, the armed forces faced large-scale drone and swarm attacks across the western and northern fronts. The Company's indigenous Counter-UAS system was among the equipment deployed, and it performed with distinction. This is the story of a technology built at home, proven in real combat.

The Capability We Built

The Company's Counter-UAS system was designed on a simple judgement, that a determined adversary would not confine its drones to the commercial frequency bands that most systems are built to jam. The system was therefore engineered to detect and jam a wide range of drone data links well beyond the commercial 2.4 GHz and 5.8 GHz spectrum.

- A multi-layer, multi-sensor architecture combining RF-based detection, radar and electro-optical sensors, capable of detecting even autonomous drones that fly without a link to a ground operator.
- Hawkeye, an AI-powered multi-sensor camera that lifts drone detection to 15 km, up from the earlier 7 to 8 km, with tracking accuracy of plus or minus 0.5 mrad.
- Hard-kill through in-service air defence guns, including the L-70, ZU-23 and Schilka, and AI-powered Remote Controlled Weapon Stations such as Barbarik and Parashu.
- VyomKavach, a hybrid Counter-UAS system combining AI, RF and rotary guns for swarm threats and high-end UAVs.

How It Was Deployed

The system is rugged and highly mobile. It operated across the full range of Indian terrain, from the high-altitude posts of the northern and north-eastern borders to the deserts of the western front.

During the operation it detected up to 100 drone threats at a time with a response time of under 0.1 seconds, and it identified and neutralised hundreds of drones and swarm drones. As the adversary shifted to non-commercial frequencies, the wide-band design allowed the system to detect and defeat threats that conventional solutions missed.

What It Achieved

The weapons the Company fielded were 100% indigenous and the result of self-funded research. They helped blunt the drone-based threat and protected forces and assets across both fronts. The operation also validated the Company's approach in the field and accelerated demand.

MESSAGE FROM THE CHAIRMAN AND MANAGING DIRECTOR

COMBAT PROVEN AND GLOBALLY READY

Dear Shareholders,

FY26 was a year of steady, deliberate progress for Zen Technologies Limited. Over the past two to three years we have broadened the Company from a leader in defence simulation to include counter drone systems and allied technologies include counter drone systems and allied technologies.

We can today offer the armed forces five capabilities, namely training simulation and systems, counter-drone solutions, automated weapon stations, combat robotics and drones. This has been built through sustained investment and a series of acquisitions and partnerships over several years, and FY26 was the year in which the breadth of that capability became clear.

The past year has reminded the world that preparedness is no longer a choice. Recent conflicts have changed the economics of warfare. When a low-cost drone can be met only by a far more expensive interceptor, the mathematics of defence breaks down. The lesson is clear. Layered anti-drone systems, combining software jamming with affordable hard-kill options, and well-trained, combat-ready forces are now central to national security. These are the two areas in which we have built deep capability over three decades.

Operation Sindoor and Indigenous Capability

The clearest validation of our owned-by-India philosophy came during Operation Sindoor. While conventional counter-drone solutions often struggle against non-standard frequency bands, our Counter-UAS system was engineered on the expectation that sophisticated adversaries would operate outside commercial spectrums. It detected and neutralised hundreds of hostile drones and swarm drones, and supported the armed forces at a decisive moment. The operation confirmed that fully indigenous intellectual property, created for the specific requirements of Bharat, is a reliable shield for our forces.

This experience has shaped our product roadmap. During the year we widened the frequency coverage of our anti-drone systems to stay ahead of adversaries who now operate at unconventional frequencies, strengthened our neutralisation options across RF and GNSS jamming, weapon stations and air defence gun integration, and developed an anti-drone simulator so that forces can rehearse against single drones and swarms in a realistic virtual environment.

A Broadening Product Portfolio

We launched a series of new platforms during the year and in the period that followed. Vrishabh, our unmanned ground vehicle, carries a payload of 150 kilograms over a range of up to 100 kilometres for combat, logistics and casualty evacuation, with indigenous content above 85%. Hyperstrike, our loitering strike platform, offers an affordable answer to the high-cost interceptor problem, with a speed of up to 400 kilometres per hour and a five-minute loiter-and-strike capability. Working with our associate AI Turing, we introduced a 30 mm programmable ammunition and a compact gun-and-missile system for naval forces. Each of these products addresses a capability gap that current operational realities have brought into focus.

A defining feature of the year was the contribution of our subsidiaries and associates. Companies such as Applied Research International, Vector Technics, Bhairav Robotics and AI Turing added to consolidated revenue and earnings and validated the capital allocation decisions we have made over the years. Our role has evolved into that of a platform for indigenous defence technology, bringing together a group of specialist companies and giving them the support to meet the country's requirements.

Recognition During the Year

Our work was recognised during the year with the CII Best Patent Portfolio Award 2025, and we achieved the highest Dun and Bradstreet rating of 5A1, reflecting our financial strength to handle large government contracts. The Company also received a government licence under the Arms Act for the

manufacture of specified weapon systems, together with an ammunition licence, marking an important step in our evolution towards counter-UAS technologies.

Financial Performance

FY26 presented a more measured profile than the exceptional growth of the previous year. Consolidated revenue was ₹687.69 crore, compared with ₹973.64 crore in FY25. Operational EBITDA was ₹247.24 crore, at a margin of 35.95%, and reported EBITDA was ₹332.66 crore. Profit after tax was ₹193.45 crore after adjusting for non-controlling interests, against a reported profit after tax of ₹217.93 crore. These results should be read within the context of the defence sector's procurement cycles. The strong revenue base of FY25 was driven by concentrated order execution, whereas FY26 saw order conversion timing extend beyond our expectations, with the bulk of recent orders scheduled for execution from FY27. Our long-term guidance of a 35% operational EBITDA margin and a 25% profit-after-tax margin remains intact.

A Strong Order Book

We closed the year with a consolidated order book of ₹1,336.04 crore, including new order inflows of ₹431.36 crore secured during the fourth quarter alone. The standalone order book stood at ₹1,222.6 crore. The majority of the order book is scheduled for execution from FY27, and about ₹1,000 crore is expected to convert into revenue during that year. We maintained a strong balance sheet, with cash and bank balances of ₹1,308 crore and a debt-free position. We remain confident of our guidance of ₹4,000 crore of cumulative turnover across FY27 and FY28.

Looking Ahead

The global defence environment is undergoing structural change, and India's continued emphasis on indigenisation and self-reliance provides a strong foundation for domestic companies focused on innovation and IP ownership. For innovators such as the Zen, the draft Defence Acquisition Procedure 2026 is a significant document. We expect it to compress the procurement cycle

considerably and to open new growth opportunities for companies that have built genuine indigenous capability and intellectual property. We also expect order wins to begin flowing through in the near term.

On behalf of the Board, I thank our armed forces, customers, shareholders, employees and partners for their continued trust. Their confidence inspires us to keep building technologies that contribute to India's long-term defence preparedness and security.

Swadeshi is not only manufacturing. It is design, develop and manufacture in Bharat. Bharat should aim to be the research laboratory of the world, not the factory of the world.

Warm regards,

Ashok Atluri

PRODUCT PORTFOLIO

ADVANCING DEFENCE PREPAREDNESS THROUGH TECHNOLOGY

The evolving character of modern warfare has increased the importance of technologies that strengthen operational preparedness, situational awareness and training effectiveness. Simulation-based training, integrated combat environments and counter-unmanned aerial technologies are now central to defence preparedness.

Training Solutions and Live Ranges

Our live ranges bridge the firing range and the battlefield, offering instrumented environments for precision marksmanship and tactical training. Troops practise marksmanship, tactical situations and missions with live ammunition under conditions close to real-world scenarios.

Smart Target System (Zen STS®) with LOMAH™, an electro-mechanical, software-driven acoustical projectile detection and reporting system for day and night firing.

Multi-Functional Target System (MFTS®), a portable, programmable system for versatile targets, for use at outdoor and indoor ranges.

Tank Targets, static and moving tank target systems for range and tactical firing practice.

Containerised Tubular Shooting Range (CTSR), a compact, secure indoor alternative to live firing that can be extended with additional containers.

Containerised Indoor Shooting Range (CISR), a self-contained, transportable live-fire facility built with acoustic and ricochet materials.

Containerised Small Arms Firing Range (CSAFR), a modular live-fire range offering realism, zero danger area and rapid deployment for military, police and paramilitary use.

Shoot House, a secure indoor facility for training security personnel to neutralise threats in a closed environment.

Air-to-Ground Firing Range Scoring System, which deploys targets, tracks their movement and records hit-and-miss scores for air-to-ground weapons delivery.

Live Simulation

Armour Combat Training System (Zen ACTS™), a programmable electro-mechanical system for versatile targets, for outdoor and indoor ranges.

TACSIM® Tactical Engagement Simulator, which trains soldiers in field craft, battle drills and live-fire practice, and suits commando units, special forces, training centres and law-enforcement agencies.

PRODUCT PORTFOLIO (CONTD.)

Simulators for Virtual Training

Virtual simulation is a key offering, providing controlled, cost-effective training that allows many personnel to train simultaneously without compromising quality.

Advanced Weapons Simulator (AWESIM®), which recreates a small-arms firing range indoors for recruits, special forces and commandos.

Infantry Weapons Training Simulator (IWTS®), a modular wireless system for marksmanship and battle handling of weapons, individually and up to a section.

Combat Weapons Training Simulator (CWTS), an indoor simulator that enhances firing skills across infantry weapons with future-ready upgrade capability.

Medium Machine Gun Simulator (MMG SIM), an interactive indoor aid for engagement techniques, fire control and tactical employment.

Automatic Grenade Launcher Simulator (AGL SIM), a complete training solution for automatic grenade launcher crews.

81mm Mortar Integrated Simulator, which builds proficiency in operating and firing the 81mm mortar.

Anti-Tank Guided Missile Simulator (ATGM SIM), which trains operators in handling and firing missiles, with real-time performance tracking.

Artillery Forward Observers' Simulator (ARTYFOS), which trains observers who direct long-range, indirect fire.

Anti-Aircraft Air Defence Simulator (3ADS), which trains operators on laying procedures in simulated and field conditions.

Integrated Air Defence Combat Simulator (Zen IADCS), which trains L-70 and ZU-23-2 gun crews with realistic weapon handling and battle scenarios.

Armoured Vehicle Simulators

Tank Driving Simulator, a containerised simulator offering progressive training for T-90 tank operations across diverse terrains.

Tank Crew Gunnery Simulator, a gunnery training simulator for T-90 tank gunner trainees.

IFV/APC Driving Simulator, a high-fidelity simulator with six-degrees-of-freedom motion, improving safety and reducing cost.

IFV/APC Crew Gunnery Simulator, which replicates actual controls to improve weapon handling and targeting for gunner and commander training.

Infantry Combat Vehicle Driving Simulator (BMP II DS), which trains recruits and drivers to operate the ICV or APC.

BMP II Integrated Missile Simulator (BMP II IMS), which trains gunners and commanders in handling and firing different weapon systems.

Vehicle Driving Simulators

Driving Training Simulator (Zen DTS®), a versatile indoor system for light, medium and heavy vehicle drivers, with a to-scale cabin and actual controls.

Driver Aptitude Testing System (Zen DATS), which tests alertness, depth perception, peripheral and night vision, and recovery from glare.

Combat Training Centres

Our Combat Training Centres bring together live, virtual, constructive and mixed-reality systems to develop and maintain combat-ready soldiers.

They can simulate offence, defence and stability operations, and support joint power projection, ground manoeuvre, air operations, fire support and logistics. The centres feature instrumented range areas, simulation facilities and a dedicated opposing force to provide a capable adversary for training.

INNOVATION

ENGINEERING THE UNASSAILABLE

At the Company, research and development is a core part of our identity. Our owned-by-India philosophy holds that the design of a product is a national strategic asset, and we work to keep ownership of that design in India.

The Science of Savings

To establish the environmental signatures of its simulators scientifically, the Company commissioned TERI, The Energy and Resources Institute, in March 2023 to carry out a joint study. The first study was launched on World Environment Day, 5 June 2023, and was well received. A second, deeper study has since been completed and is being prepared for launch. It examines a larger set of simulator types, assessing emissions, the net present value of environmental savings and the single-day cost of non-induction. NITI Aayog has also featured the subject of green training.

A Record of Self-Funded Innovation

The Company funds its research from its own resources and has invested consistently in developing indigenous technologies over many years. Its units hold accreditation from the Department of Scientific and Industrial Research (DSIR), Ministry of Science and Technology. Detailed R&D-intensity metrics are provided in the Key Performance Indicators section.

Expanding Our Innovation Footprint

The Company is expanding its research footprint to meet demand for autonomous and aerial defence solutions. A new R&D and manufacturing facility is being developed at the Electronic Manufacturing Cluster in Tuem, Goa, and the Company continues to build its software and AI development capability for combat robotics and autonomous systems.

INNOVATION (CONTD.)

Emerging Autonomous and Intelligent Defence Platforms

The future battlefield is being reshaped by autonomy, artificial intelligence, software-defined systems and rapid-response technologies. The Company is expanding its capabilities across autonomous robotics, advanced aerial systems and cyber-secure operational architectures.

Vrishabh Unmanned Ground Vehicle

Vrishabh is an unmanned ground vehicle supporting autonomous mobility, tactical logistics and remote deployment. It has a payload of 150 kg, a speed of up to 50 km per hour and a range of up to 100 km, and has been integrated with weapon systems including MMG and LMG. Indigenous content exceeds 85%, and commercial launch is planned for FY27.

Hyperstrike Loitering Platform

Hyperstrike is a loitering strike platform with a speed of up to 400 km per hour and a five-minute loiter-and-strike capability over a range beyond 20 km. It combines AI-enabled tracking and guidance with a manual override, carries a proximity payload of about 200 g on a 4 kg airframe, and is designed for scaled production. Its high-speed propulsion system is supplied by Vector Technics.

Cyber Security Suite

As warfare extends into cyber and network-centric domains, the Company is strengthening its defence-grade cyber security capabilities. Developed with our subsidiaries, the suite is an integrated solution that can be installed at command and control centres, on ships and in aircraft. It is built around six layers, namely awareness and training, monitoring and intelligence, protection and prevention, encryption and data sovereignty, threat perception and response, and post-quantum readiness, and is designed with zero foreign dependencies.

OUR INFRASTRUCTURE

THE FOUNDATION OF ATMANIRBHAR DEFENCE INNOVATION

The Company's infrastructure reflects a long-standing commitment to indigenous research and technology development, aligned with India's Atmanirbhar Bharat vision. Its facilities support the complete lifecycle of defence technology development, from concept design to testing, integration and manufacturing.

The following facilities support the Company's research, demonstration and manufacturing activities.

Research and Development Centre, Sanath Nagar, Hyderabad

Our R&D Centre at Sanath Nagar is at the core of our indigenous innovation. Recognised by the Ministry of Science and Technology, it is dedicated to continuous product evolution and the development of our patented technologies, including next-generation simulation platforms and anti-drone architectures.

Demo Centre cum Factory, near Shamshabad Airport

Our demo centre cum factory near Shamshabad Airport serves as a showcase of our capabilities, offering domestic and international clients a hands-on experience of our training ecosystems and counter-drone systems.

Software and AI Development Centre, Kondapur, Hyderabad

With artificial intelligence now central to our portfolio, this centre supports complex algorithmic innovation, including the deep-learning models for our Hawkeye platforms and the adaptive-learning models for our simulators. Recognising the importance of data sovereignty and cyber resilience, our systems are designed, developed and tested in secure, air-gapped environments.

Advanced R&D, EMC Tuem, Goa

Our upcoming facility at the Electronic Manufacturing Cluster in Tuem, Goa.

OUR JOURNEY

A LEGACY OF INNOVATION AND A FUTURE OF READINESS

Over three decades, the Company has evolved from a simulation focused enterprise into a diversified defence technology company.

Through sustained investment in research and IP-led product development, it has become a key participant in India's evolving defence technology ecosystem.

FY26 Highlights

FY26 marked the Company's transition into a diversified defence technology company with five capabilities offered to the armed forces.

The year brought battlefield validation of the Counter-UAS system during Operation Sindoor, a consolidated order book of ₹1,336.04 crore, the CII Best Patent Portfolio Award 2025, the highest Dun and Bradstreet rating of 5A1, and the launch of new autonomous and loitering platforms.

SIGNIFICANT EVENTS

ENGAGING ACROSS STRATEGIC DEFENCE PLATFORMS

During the year the Company participated in key defence conclaves, military conferences and international industry forums, showcasing its indigenous technologies and reinforcing its role in India's defence ecosystem.

01

10th Edition India Defence Conclave 2025

Delhi, November 2025. The Company showcased its training simulators and counter-drone technologies while engaging with stakeholders from India's defence and security ecosystem.

38th Infantry Commanders' Conference 2025

Infantry School, Mhow, December 2025. The Company demonstrated indoor and outdoor training solutions, including laser-based force-on-force simulation systems and integrated war-gaming environments featuring more than 50 simulators.

02

03

India-Kyrgyz Republic Defence Industry Seminar 2026

Bishkek, Kyrgyzstan, February 2026. The Company participated in this bilateral platform, reflecting the growing international interest in India's indigenous defence technologies.

2nd Edition Industry Interactive Conference and Mini Expo, CAPFs

India, March 2026. Focused on the indigenisation and modernisation requirements of the Central Armed Police Forces, the Company showcased its training systems and counter-drone technologies.

04

STRATEGIC FOCUS AREAS

POWERING THE FUTURE OF INDIGENOUS DEFENCE TECHNOLOGIES

Our mission is to build responsible readiness, ensuring that those who protect our nation are equipped with advanced, reliable and intelligent tools. We continue to invest in our core competencies of indigenous research, human capital, scalable infrastructure and global partnerships.

Enhancing Export Potential

The combat-proven status of our systems has increased interest from international markets. We are expanding our footprint across the Middle East, the CIS countries and South-East Asia, and our partnership with AVT Simulation supports entry into the United States defence market.

Capitalising on Regulatory Tailwinds

The Company is well positioned to benefit from Make in India, positive indigenisation lists and the growing policy focus on IDDM technologies. During the year the Company achieved the highest Dun and Bradstreet rating of 5A1, reflecting its financial strength to handle large-scale government contracts.

Focusing on Green Training and Simulation

Our simulation-based training reduces ammunition consumption, fuel use and environmental impact while maintaining training effectiveness. An independent study by TERI found that 15% penetration of our Infantry Weapon Training Simulator could save the armed forces ₹461.20 crore each year. During the year the Company secured a contract for India's first Combat Training Node at the Infantry School, Mhow.

Strengthening Research and Development Capabilities

We maintain a continuous cycle of innovation, with a current focus on AI-enabled simulation environments, autonomous detection and intelligent decision-support systems. During the year we strengthened our AI-enabled Remote Controlled Weapon Stations, which deliver precision fire without exposing soldiers, and our AI-powered Return Fire Module, which enables remote pose estimation and target gesture recognition in real time.

Expanding the Product Portfolio and Scope

We are expanding across land, air and maritime domains, diversifying beyond land simulation into autonomous robotics, aerospace components, naval simulation and UAV platforms. Our Zen FIST (Futuristic Integrated Solution for Training) digitally integrates tank driving and crew gunnery simulators into a single tactical entity. Prahasta marks our entry into high-risk mine-clearing and counter-insurgency operations.

Leveraging Intellectual Property

Our business model is built on the belief that India must own its intellectual property rather than assemble technology under licence. We safeguard our position by creating high entry barriers through a growing patent portfolio. During the year we secured patents for the Tank Containerised Crew Gunnery Simulator and the Infantry Virtual Training Simulation System.

Advancing Counter-Drone Solutions

Operation Sindoor reinforced the importance of layered counter-drone systems. The Company has developed Hawkeye, an AI-powered multi-sensor camera with detection ranges from 8 km to 15 km. Our hybrid C-UAS integrates AI, RF and rotary machine guns to neutralise swarming drone threats.

Integrating Strategic Acquisitions

The Company integrates new capabilities to compress development timelines. The acquisition of Applied Research International and its group entities has expanded our presence in marine and offshore simulation, while investments in Vector Technics and Bhairav Robotics have strengthened our capabilities in aerospace propulsion and autonomous robotics.

Pursuing Partnerships

Our strategy to build smart with the right partners supports our move to the next technological threshold. During the year the Company entered a memorandum of understanding with Italy-based TXT Group for advanced pilot training solutions, from part-task trainers to full-flight simulators.

SUSTAINABILITY

ADVANCING THE PARADIGM OF GREEN TRAINING

This spread reflects the Company’s Green Training programme. Zen has been at the forefront of spreading awareness on Green Training, an approach that reduces the environmental cost of military training.

Training that does not pollute the atmosphere is called green training, and simulator-based training is inherently green because it dwarfs the need to fire large quantities of live ammunition, the biggest single polluter in field exercises, while also cutting fuel use and greenhouse gas emissions.

The Science of Savings

To establish the environmental signatures of its simulators scientifically, the Company commissioned TERI, The Energy and Resources Institute, in March 2023 to carry out a joint study. The first study was launched on World Environment Day, 5 June 2023, and was well received. A second, deeper study has since been completed and is being prepared for launch. It examines a larger set of simulator types, assessing emissions, the net present value of environmental savings and the single-day cost of non-induction. NITI Aayog has also featured the subject of green training.

Evidence-led Environmental Gains

The studies show that even a small shift of field-mode training to simulation delivers environmental and economic gains worth hundreds of crores.

A representative finding is that a ₹15 crore investment in simulators saves ₹380 crore over 30 years, a return of about 2,500%. Simulator-based training also delivers significant savings in greenhouse gas emissions and reduces the consumption of fuel and live ammunition.

Recognised on a Global Index

The Company’s sustainability framework is externally benchmarked. In the S&P Global Corporate Sustainability Assessment for FY 2024-25, which underlies the Dow Jones Sustainability Index, Zen recorded an ESG score of 67, with 61 in Environmental, 72 in Social and 69 in Governance & Economic. The assessment measures performance against industry-specific criteria and against DJSI constituents, placing the Green Training programme within a verified global benchmark.

Building a Centre of Excellence

The Company is establishing a Centre of Excellence for Green Training and Environmental Sustainability. The platform will support specialised education on sustainable defence practices, technological advancement to refine simulation realism, and policy research as a collaborative forum on green technology in the defence sector.

Mr Ashok Atluri holds a post-graduate diploma in applied computer science.

He is credited with designing simulators on the Windows Intel platform that set industry standards for simplicity, and was named Small Scale Entrepreneur of the Year by the Hyderabad Management Association in 1998. Under his leadership, the Company has set benchmarks in defence simulation and training.

Mr Kishore Dutt Atluri
FOUNDER, PRESIDENT AND
JOINT MANAGING DIRECTOR

Mr Kishore Dutt Atluri is a post-graduate in Computer Application from the University of Hyderabad.

With over 21 patents to his name, he has been instrumental in developing the Company's range of virtual and live simulation systems for infantry, armoured corps, mechanised forces and air defence. His roles include technology direction and product development.

Ms Shilpa Choudari
WHOLE-TIME DIRECTOR

Ms Shilpa Choudari holds a bachelor's degree in technology from Jawaharlal Nehru Technological University and a master's degree in finance and foreign trade from the Badruka Institute of Foreign Trade.

She has worked at the Company as a research associate and later as AGM, Sales and Marketing, and has an in-depth understanding of the Company's products and processes.

Mr Sanjay Vijay Singh Jesrani
INDEPENDENT DIRECTOR

Mr Sanjay Vijay Singh Jesrani holds a bachelor's degree in commerce and is a Fellow member of the Institute of Chartered Accountants of India, with over 30 years of experience in finance and strategic leadership.

He is Founder and CEO of Go North Ventures and an active member of the Indian Angel Network.

Ms Sirisha Chintapalli
INDEPENDENT DIRECTOR

Ms Sirisha Chintapalli is an Associate Member of the Institute of Company Secretaries of India and the Institute of Cost and Management Accountants of India, and a registered insolvency professional.

With over 13 years of experience across legal, finance, secretarial and regulatory matters, she has worked with L&T Shipbuilding Limited, International Seaport Dredging Limited and CCL Products (India) Limited.

Mr Durga Prasad Kode
INDEPENDENT DIRECTOR

Mr Durga Prasad Kode is a commerce graduate and a retired Indian Police Service officer with a distinguished career in policing, intelligence and public administration.

He has served as Commissioner of Police, Visakhapatnam, Chief of Intelligence, Andhra Pradesh, and Chief of Greyhounds. He serves as an Independent Director on the boards of CCL Products (India) Limited and NAVA Limited.

Ms Uma Priyadarshini Kollareddy
ADDITIONAL DIRECTOR
(INDEPENDENT CATEGORY)

Ms Uma Priyadarshini Kollareddy holds a bachelor's degree in electronics and communication engineering and master's degrees in financial engineering and business administration from Columbia University, New York, with over 16 years of experience in corporate transformation and capital markets.

She is Executive Director of Midwest Limited, an Independent Director of Awaze Limited and a member of the Investment Committee of T-Fund.

Mr Jasthi Krishna Kishore
ADDITIONAL DIRECTOR
(INDEPENDENT CATEGORY)

He has served as CEO of the Andhra Pradesh Economic Development Board and Secretary to the Government of Andhra Pradesh, and is an Independent Director of various companies.

MANAGEMENT DISCUSSION AND ANALYSIS

MANAGEMENT DISCUSSION AND ANALYSIS

Global Economic Review

The global economy remained steady in 2025 despite elevated geopolitical uncertainty and fragmented trade dynamics. Global GDP growth is estimated at approximately 3.4% in 2025, supported by investment in artificial intelligence and technology infrastructure and by easing financial conditions across major economies. Advanced economies grew by about 1.9%, with the United States at 2.1% and the euro area at about 1.4%. Emerging markets continued to lead, with developing Asian economies growing by about 4.4%.

The outlook became more fragile towards early 2026 following escalation in the Middle East and continued disruption linked to the Russia-Ukraine conflict. The IMF projects world growth of 3.1% in 2026. Global inflation moderated to 4.1% in 2025 as supply-chain conditions improved, although energy-price and commodity risks remain elevated.

The Era of Multipolar Conflict

The geopolitical environment reflected a continued shift towards a fragmented, multipolar world order. Ongoing conflicts in Eastern Europe and the Middle East, rising Indo-Pacific tensions and strategic competition around critical technologies significantly altered security priorities. In 2025, global military expenditure reached approximately US\$2.63 trillion, up from US\$2.48 trillion in 2024, driven by increases in Europe and the Middle East. The United States spent about US\$954 billion on defence in 2025. Europe's contribution to global military expenditure rose above 22%, from 17% in 2022, with Germany a primary catalyst. The global defence-to-GDP ratio rose from 1.89% to 2.01%.

Catalysts for Defence Transformation

GEOPOLITICAL TENSIONS:

Countries are moving beyond stockpile replenishment towards comprehensive modernisation focused on agility, rapid response and technological superiority.

INDUSTRIAL SOVEREIGNTY:

Procurement is shifting from localised assembly towards technological independence, with nations prioritising sovereign IP so that critical systems are fully owned.

NATO SPEND:

At the 2025 Hague Summit, NATO allies committed to invest 5% of GDP a year in defence by 2035, of which 1.5% will be allocated to critical infrastructure and industrial base.

TECHNOLOGICAL ADVANCEMENT:

Spending is increasingly driven by asymmetric advantages, where low-cost autonomous drones and AI-integrated networks challenge high-value assets, raising research intensity and the priority on sovereign IP.

Global Defence Trends and Outlook

ARTIFICIAL INTELLIGENCE AND AUTONOMY:

Military-grade autonomy has become operational across unmanned aerial, ground and naval vehicles, and AI is embedded in command and surveillance systems.

THE ELECTROMAGNETIC AND CYBER FRONTIER:

Digital infrastructure is now a primary frontline concern, with rising investment to guard against electronic hijacking and spoofing.

GREEN DEFENCE AND RESOURCE OPTIMIZATION:

Militaries are aligning security goals with sustainability, with reduced fuel dependency also simplifying logistics.

IMMERSIVE TRAINING AND COMBAT READINESS:

Augmented and virtual reality tools simulate complex, multi-domain environments that are difficult to replicate in live training, improving performance while reducing cost.

AUTONOMOUS LOGISTICS AND PREDICTIVE MAINTENANCE:

Automation of the military supply chain keeps front-line assets operational with minimal downtime.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

Indian Economic Review

India remained the fastest-growing major economy for the fourth consecutive year, with real GDP growth of 7.4%, supported by strong domestic fundamentals and sustained investment. Growth was broad-based, supported by continued government capital expenditure on roads, railways, defence and logistics, rapid digitalisation, the Production Linked Incentive scheme supporting Make in India, strength in IT, financial services and tourism, and resilient domestic consumption following income-tax and GST relief.

The Indian Defence Industry

The Indian defence industry has undergone a paradigm shift, moving from a reactive procurement model towards a high-velocity, indigenous manufacturing base. Sustained policy support, rising private participation and a growing emphasis on sovereign intellectual property have combined to create one of the most supportive environments the sector has seen. For a company built on indigenous research and IP ownership, these tailwinds are directly relevant to the opportunity ahead.

Record Production and Exports

Indigenous defence production reached a historic high of approximately ₹1.54 lakh crore in FY25, and production in FY26 is projected to surpass the ₹1.75 lakh crore target. Defence exports for FY25 stood at a record ₹23,622 crore, with Indian-made systems reaching over 100 nations, including the United States and France. Exports are reported to have reached an all-time high of approximately ₹38,424 crore in FY26, an increase of about 62.66%, reaching over 80 countries.

The Year of Reforms and DAP 2026

The Ministry of Defence designated 2025 the Year of Reforms, leading to the release of the draft Defence Acquisition Procedure 2026. The new framework introduces Long-Term Bulk Acquisition, giving industry ten-year visibility on orders, and Low-Cost Capital Acquisition for fast-moving technologies such as drones and artificial intelligence. The draft places clear emphasis on indigenously designed, developed and manufactured technologies, an approach that rewards companies that self-fund genuine capability development rather than assemble technology under licence.

Streamlining Readiness through DPM 2025

Launched in October 2025, the Defence Procurement Manual 2025 overhauled revenue procurement worth approximately ₹1 lakh crore, simplifying procedures for spares and services so that the armed forces can maintain peak operational readiness with domestic support.

Source: Ministry of Defence, Government of India, 2025.

The Rise of the Private Defence Sector

The private sector's contribution to defence production has climbed to 23%, and order books for private firms are estimated to reach ₹55,000 crore by the end of FY26. Initiatives such as the ADITI scheme provide grants of up to ₹25 crore to start-ups for deep-tech innovation in areas including artificial intelligence, quantum technology and anti-drone systems. Beyond the established corridors in Uttar Pradesh and Tamil Nadu, new clusters in Maharashtra are operationalising, integrating over 16,000 MSMEs into the defence supply chain.

Source: Press Information Bureau, Government of India, 2026.

Budget Allocations and a Strong Indigenisation Push

The Union Budget for FY27 reinforced the Government of India's commitment to defence modernisation, indigenous capability development and long-term military preparedness, with a record allocation of approximately ₹7.85 lakh crore to the Ministry of Defence, an increase of about 15.19% over the previous year. Of this, ₹2.19 lakh crore was earmarked under the capital head for defence services, a growth of 21.84%, with approximately ₹1.85 lakh crore towards capital acquisitions of advanced platforms, weapon systems, drones and counter-drone technologies. About 75% of the capital acquisition budget was earmarked for domestic defence firms, reinforcing the policy emphasis on indigenisation. India's counter-drone market is projected to grow at a 24.4% compound annual rate to reach US\$1.39 billion by 2030.

Key Trends in the Indian Defence Sector

NETWORKED AND DATA-CENTRIC WARFARE:

The Indian Army has declared 2026 the year of Networking and Data Centricity, focused on connecting every soldier, sensor and weapon platform into a unified C4ISR framework for real-time information dominance.

A SOVEREIGN AI ROADMAP:

The Army's AI roadmap integrates artificial intelligence across intelligence, surveillance and reconnaissance, weapon platforms and autonomous systems, shortening the sensor-to-shooter loop.

UBIQUITY OF AUTONOMOUS SYSTEMS AND ROBOTICS:

Autonomy is becoming a standard capability, reflected in the vision of an eagle on the arm of every soldier and the setting up of 19 drone training centres and hubs.

AI-DRIVEN PERSONALISATION AND ANALYTICS:

Modern simulators use artificial intelligence and big data to provide millisecond-level feedback, adjusting each soldier's training to their performance.

COUNTER-UAS DEMAND:

In the wake of regional conflicts, demand for layered anti-drone systems has surged, with a shift towards wide-band electronic warfare solutions that can disrupt adversarial communication and navigation across non-standard frequencies.

MILITARISATION OF SPACE:

With Mission Sudarshan Chakra, there is intensified focus on space-based surveillance and secure satellite communication.

LIVE, VIRTUAL AND CONSTRUCTIVE TRAINING:

The military is moving towards Integrated Combat Training Nodes that combine live firing with virtual and constructive simulation for high-fidelity, force-on-force exercises while reducing wear on physical assets.

LAYERED COUNTER-DRONE DOMINANCE:

As drones become low-cost strike assets, India's counter-drone market is surging, with a shift towards Integrated Drone Detection and Interdiction Systems that combine soft-kill wide-band RF jamming and cyber takeover with hard-kill lasers and kinetic interceptors.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTD.)

Company Overview

Established in 1993, Zen Technologies Limited has grown from a specialised simulation firm into a diversified defence company. Headquartered in Hyderabad, with a presence across India, the UAE and the United States, the Company delivers high-fidelity combat environments and mission-critical defence hardware. Its operations are driven by three offerings, namely training solutions including live ranges and virtual simulation, counter-drone detection and neutralisation technologies, and advanced military hardware including robotic surveillance systems and remote weapon stations. The Company holds CMMI Maturity Level 5 and ISO/IEC 27001:2022 certifications. As at 31 March 2026 its consolidated order book stood at approximately ₹1,336 crore.

Financial Performance

The Company achieved revenue of ₹687.69 crore in FY26, compared with ₹973.64 crore in FY25. The moderation was largely attributable to delays in order finalisation, shifting procurement priorities and the milestone-based nature of defence contracts. Underlying momentum remained robust across simulation systems, counter-UAS technologies and emerging autonomous platforms.

The Company maintained strong profitability, supported by a differentiated technology portfolio and operational discipline. Reported EBITDA was ₹332.66 crore, at a margin of 48.37%, and operational EBITDA, which excludes other operating income, was ₹247.24 crore, at a margin of 35.95%. Profit after tax was ₹193.45 crore after adjusting for non-controlling interests, against a reported profit after tax of ₹217.93 crore. The Company maintained cash and bank balances of over ₹1,308 crore and a debt-free position. Its consolidated order book as at 31 March 2026 stood at approximately ₹1,336 crore, providing strong revenue visibility.

Key Financial Ratios

Particulars	FY26	FY25	% change
Current ratio (times)	8.86	7.39	19.78%

Return on investment	NA	NA	NA

(a) The Debt-Equity Ratio declined by 94.44% on account of repayment of borrowings during the year.
(b) DSCR improved by 409.80% due to reduction in debt service obligations following repayment of borrowings.
(c) Lower PAT in FY26 due to moderation in revenue order execution timing; equity base has expanded.
(d) The Inventory Turnover Ratio declined by 48.61% due to lower cost of goods sold in line with the decrease in revenue, while inventory levels remained at similar levels.
(e) Lower trade receivable due to lower revenue base during the year.
(f) EBIT reduced in line with lower revenue; capital employed grew on account of strong equity accretion.

Acquisitions during the Year

During FY26 the Company continued to build its integrated defence technology ecosystem. In June 2025 it acquired a majority stake in TISA Aerospace, strengthening its presence in loitering munitions, offensive UAV platforms and autonomous aerial systems. During the year the Company also completed the acquisition of the remaining 24% stake in Applied Research International Private Limited, making it a wholly owned subsidiary and strengthening its position in naval, marine and offshore simulation. In November 2025 the Company acquired a 76% equity stake in Anawave Systems & Solutions Private Limited, adding scenario-based naval training systems designed to integrate with existing naval command and control architecture. The Company continued to integrate investments made during the previous year, including Vector Technics, Bhairav Robotics and the ARI group entities.

Risks and Mitigation

The Company operates at the intersection of national security and rapid technological change. Its risk-management framework is designed to convert potential vulnerabilities into competitive strengths.

Risk	Mitigation
Competitive dynamics: Global players may use aggressive pricing to secure large contracts.	We focus on deep product customisation, superior technical performance and long-term service relationships that provide value beyond the initial purchase price.
Macroeconomic volatility: Slowdowns or fiscal tightening can reduce budgets and extend procurement timelines.	A diversified portfolio and a growing geographic footprint reduce our reliance on any single economy or budget cycle.
Order-book uncertainty: Developing bespoke systems without finalised orders can pressure cash flows.	We prioritise milestone-based agreements and maintain close collaboration with clients throughout design and development.
Procurement structure: Tender processes often favour the lowest bidder, which may not reflect lifecycle value.	We focus on cost optimisation and lean manufacturing while delivering the technological value required for mission success.
Supply-chain fragility: Geopolitical instability and component shortages can delay production.	We maintain a resilient, multi-tiered supplier network and robust contingency planning.
Technological obsolescence: Rapid innovation carries the risk of systems becoming outdated.	We invest continuously in next-generation research, agile development and strategic partnerships.
Cyber security and data integrity: A threat-sensitive environment makes the Company a target for digital incursion and IP theft.	We adhere to ISO/IEC 27001:2022 and conduct regular audits and staff training.
Human capital and talent retention: Specialised talent is in high global demand.	We foster a mission-driven culture, clear growth pathways and rigorous succession planning.

Human Resources and Industrial Relations

The Company regards its people as the primary architects of its success. In FY26 it accelerated investment in technical upskilling and leadership development, strengthening its capability base in a competitive market for specialised talent. As at 31 March 2026 its multidisciplinary team had grown to 421 professionals. The Company prioritises transparent and constructive engagement with all stakeholders.

Internal Control Systems and Their Adequacy

The Company has established an internal control framework matched to the scale and complexity of its operations, providing a foundation for financial integrity, operational accountability and regulatory compliance. The framework

rests on a structured governance hierarchy with clearly defined roles and reporting lines, documented policies and standard operating procedures, quarterly internal audits by an independent audit function, and direct oversight by the Audit Committee of the Board, which monitors the resolution of audit findings each quarter.

Cautionary Statement

This report contains forward-looking statements based on current expectations, assumptions and projections about future events. These statements involve risks and uncertainties that could cause actual results to differ materially. The Company is under no obligation to update any forward-looking statement publicly, whether as a result of new information, future developments or otherwise. External factors, such as global economic conditions, regulatory changes or technological disruption, may affect performance in ways that cannot be predicted.

Notes:

1. The Notice of 33rd AGM ("Notice") was approved by the Board of Directors at its meeting held on August 04, 2026 and the Company Secretary was authorised to issue the Notice.
2. The explanatory statement pursuant to Section 102 of the Companies Act, 2013 ('the Act') and the rules made thereunder setting out the material facts and reasons for the proposed resolutions is annexed to the Notice of the 33rd Annual General Meeting (AGM). Further, pursuant to Regulation 36(3) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") and Secretarial Standard-2 on General Meetings issued by the Institute of Company Secretaries of India the relevant details with respect to 'Director seeking appointment and re-appointment at this AGM' are also provided as **Annexure - I**.
3. The Ministry of Corporate Affairs, Government of India ("MCA") vide its General Circular Nos. 14/2020, 20/2020, 02/2021, 19/2021, 21/2021, 02/2022, 10/2022, 09/2023, 09/2024 and 03/2025 dated 8th April 2020, 5th May 2020, 13th January 2021, 8th December 2021, 14th December 2021, 5th May 2022, 28th December 2022, 25th September 2023, 19th September 2024 and September 22, 2025, respectively, and other circulars issued in this respect ("MCA Circulars") allowed, inter-alia, to conduct AGM through VC/OAVM facility. The Securities and Exchange Board of India ("SEBI") also vide its Circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2024/133 dated 3rd October 2024 has provided certain relaxations from compliance with certain regulations of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"). In compliance with aforesaid MCA Circulars, aforesaid SEBI Circular, provisions of the Act and the Listing Regulations, the 33rd AGM of the Company is being conducted through VC/OAVM facility, which does not require physical presence of members at a common venue. The deemed venue for the AGM shall be the Registered Office of the Company situated at B-42, Industrial Estate, Sanathnagar, Hyderabad -500018, Telangana, India.
4. The attendance of the members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Act.

Pursuant to the provisions of the Act, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a Member of the Company. Since this AGM is being held pursuant to the MCA Circulars through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxy by the Members will not be available for this AGM and hence the Proxy Form, Attendance Slip and route map of AGM are not annexed to this Notice.
5. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) the Secretarial Standard on General

Meetings (SS-2) issued by the ICSI and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and the Circulars issued by the Ministry of Corporate Affairs from time to time the Company is providing facility of remote e-Voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with KFin Technologies Limited (Kfintech) for facilitating voting through electronic means, as the authorized agency. The facility of casting votes by a member using remote e-Voting system as well as e-voting on the date of the AGM will be provided by Kfintech. The detailed instructions for e-voting and attending the 33rd AGM through VC/OAVM are given as an attachment to this Notice.

6. The statutory registers including Register of Directors and Key Managerial Personnel and their shareholding, the Register of Contracts or Arrangements in which Directors are interested, maintained under the Act and the Certificate from the Secretarial Auditors of the Company certifying that the ESOP Schemes of the Company are being implemented in accordance with the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, will be available for inspection by the members during the 33rd AGM. All documents referred to in the Notice and Explanatory Statement will be available for inspection in electronic mode from the date of circulation of this Notice up to the date of the 33rd AGM. Members who wish to inspect the register are requested to write to the Company by sending e-mail to cosec@zentechnologies.com.
7. In accordance with the aforesaid Circulars, the Notice of the 33rd AGM along with the Annual Report for the financial year 2025-26, has been sent only through electronic mode to the members who have registered their e-mail addresses with the Company/Depository Participants/Company's Registrar and Transfer Agent ("RTA"). The Notice of 33rd AGM and Annual Report are also available on the Company's website at www.zentechnologies.com, on the website of the Stock Exchanges, i.e. BSE Limited ("BSE") at www.bseindia.com and National Stock Exchange of India Limited ("NSE") at www.nseindia.com and on the website of KFin Technologies Limited at <https://evoting.kfintech.com>. Physical copy of the Notice of the 33rd AGM and the Annual Report for the year ended March 31, 2026 has not been sent to the members.

The Company shall send a physical copy of the Annual Report to those Members who request for the same at cosec@zentechnologies.com mentioning their Folio No./DP ID and Client ID.

A letter containing the web-link and QR code to access the Annual Report for financial year 2025-26 is being sent separately to the shareholders whose email addresses are not registered with the Company/Depository Participants(DPs)/Registrar and Share Transfer Agent.

8. To support the 'Green Initiative', members who have not yet registered their e-mail address are requested to register the same with their Depository Participants ('DP') in case the shares are held in dematerialized form and with the Company/KFintech in case the shares are held in physical form.
9. The Company has notified closure of Register of Members and Share Transfer Books from August 22, 2026 to August 29, 2026 (both days inclusive) for determining the names of member(s) eligible for dividend on Equity Shares, if declared at the Meeting.

DIVIDEND RELATED INFORMATION:

10. The Board has recommended the final dividend of ₹ 1/- per equity share of ₹ 1/- each if declared at the meeting, will be paid to those members whose names appear in the Company's register of members after effecting valid transfers received upto the close of business hours on August 21, 2026, subject to deduction of tax at source pursuant to Finance Act, 2020. In respect of shares held in electronic form, the dividend will be payable on the basis of beneficial ownership as per the details provided as at the close of business hours on August 21, 2026, by National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited ("CDSL") for this purpose. The dividend on equity shares, if declared at the meeting, will be credited/dispatched within 30 days from the date of this meeting.
11. Members holding shares in dematerialised form may please note that, in accordance with the direction of the Stock Exchanges, bank details as furnished by the respective depositories will be used for the purpose of distribution of dividend.
12. Members are request to note that, pursuant to Finance Act, 2020, dividend income will be taxable in the hands of the members of the Company w.e.f. April 1, 2020, and the Company is required to deduct tax at source ("TDS") on dividend to be paid to the members at rates prescribe in the Income Tax Act, 1961. For the prescribed TDS rates for various categories, please refer to the Income Tax Act, 2025 and the Finance Acts of the respective years. The shareholders are requested to update their PAN with the DPs (if shares held in dematerialized form) and the Company/RTA (if shares held in physical form).

Members are requested to register/update their residential status, PAN, category as per the IT Act, with their Depository Participants (DP) or in case shares are held in physical form, with the Company/Registrars and Transfer Agents (RTA) on or before August 21, 2026 to enable the Company to determine the appropriate TDS/ withholding tax rate applicable, verify the documents and provide exemption.

DIVIDEND IN CASE OF NON KYC COMPLIANT FOLIOS:

13. Shareholders are requested to note that pursuant to the SEBI circular dated November 03, 2021 (subsequently amended by circulars dated December 14, 2021, March 16, 2023, November 17, 2023 and June 10, 2024) mandated that the security holders (holding securities in physical form), whose folio(s) were not updated with

IEPF RELATED INFORMATION:

19. Pursuant to the provisions of Sections 124 and 125 of the Act and the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("IEPF Rules") dividends that remain unpaid or unclaimed for a period of seven year or more, are mandatorily required to be transferred to the Investor Education and Protection Fund ("IEPF"). Accordingly, unpaid or unclaimed dividends up to the financial year 2017-18 have been transferred to the IEPF.

As per the provisions of Section 124(6) of the Act read with the IEPF Rules as amended, all shares in respect of which dividends have remained unclaimed for seven consecutive years or more for the financial year ended 31st March, 2018 were transferred by the Company to the IEPF. The Company had sent individual communications to the concerned shareholders whose shares were liable to be transferred to the IEPF.

20. The unclaimed equity dividend for the year ended March 31, 2019, will be transferred in the month of November, 2026, to the "Investor Education and Protection Fund (IEPF)" on expiry of 7 years from the date of transfer to the Unpaid Dividend Account, pursuant to Section 124 of the Companies Act, 2013 (Section 205A of the Companies Act, 1956). Members who have not encashed their dividend warrants for the said financial year or subsequent year(s) are requested to send the same to the Company or its Registrars and Share Transfer Agents ("RTA") for issue of fresh demand drafts.
21. As per the provisions of Section 125 of the Act and the IEPF Rules, members whose unclaimed dividend and equity shares have been transferred to IEPF, may claim the refund by making an application to the IEPF Authority in web form IEPF-5 available on www.mca.gov.in.

VOTING RESULTS:

22. The Board of Directors has appointed Mr. D. S. Rao, Practicing Company Secretary (M.No: A12394) as the 'Scrutinizer' to scrutinize the remote e-voting process and voting during the AGM in a fair and transparent manner.
23. The Scrutinizer will submit his report to the Chairman of the Company or to any other person authorized by him after completion of scrutiny of the e-voting (votes cast during the AGM and votes cast through remote e-voting). The result declared along with the Scrutinizer's report shall be communicated to the stock exchanges, RTA, and will also be displayed on the Company's website, <https://www.zentechnologies.com>.
24. The Chairman authorised the Company Secretary and Compliance Officer to receive and countersign the scrutinizer's report and declare the results, along with the consolidated scrutinizer's report within the timeframe prescribed under the Act and the SEBI Listing Regulations. The resolutions will be deemed to be passed on the AGM

date subject to receipt of the requisite number of votes in favour of the resolutions.

OTHER INFORMATION:

25. Members can avail the facility of nomination in respect of securities held by them in physical form pursuant to the provision of Section 72 of the Act. Members desiring to avail this facility may send their nomination in the prescribed form duly filled-in to Kfin. Members holding shares in electronic mode may contact their respective Depository Participant (DP) for availing this facility.
26. Members holding shares in identical order of names in more than one folio are requested to write to the Company's Registrars and Share Transfer Agents enclosing their share certificates to enable consolidation of their shareholdings in one folio. A consolidated share certificate will be issued to such members after making requisite changes.
27. Pursuant to the directions/notifications of Securities and Exchange Board of India (SEBI) and Depositories, the demat account holders can operate their accounts if they had already provided Income Tax Permanent Account Number (PAN) either at the time of opening of the account or subsequently. In case they have not furnished the Income Tax Permanent Account Number to the Depository Participants, such demat account holders are requested to contact their DPs with a photocopy of the PAN Card (with original PAN Card for verification), so that the frozen demat accounts would be available for operation and further consequences of non-compliance with the aforesaid directives would be obviated. SEBI, vide Circular ref.no. MRD/Dop/Cir-05/2009 dated May 20, 2009 made it mandatory to have PAN particulars for registration of physical share transfer requests. Based on the directive contained in the said circulars, all share transfer requests are therefore to be accompanied with PAN details.
28. The Company is in compliance with the SEBI circular no. SEBI/HO/OIAE/OIAE_IAD-1/P/CIR/2023/145 dated August 11, 2023, read with other relevant circulars regarding Online Dispute Resolution ("ODR") and the web-link for the same is made available on the website of the Company at <https://www.zentechnologies.com/investors>.
29. SEBI, vide Circular No. HO/38/13/11(2)2026-MIRSDPOD/1/3750/2026 dated 30th January, 2026, has opened a special window to facilitate re-lodgement of transfer and dematerialisation of physical securities. The window will remain open for a period of one year, i.e., from 5th February, 2026 to 4th February, 2027.

This special facility will be available for transfer and dematerialisation of physical shares that were sold or purchased prior to 1st April, 2019. Additionally, the facility extends to transfer requests that were submitted earlier but were rejected, returned, or not attended to due to deficiencies in documents, process issues, or for any other reason.

Eligible shareholders who wish to avail the opportunity are requested to submit the requisite documents to KFin Technologies Limited, Registrar and Transfer Agent, Unit: Zen Technologies Limited, Selenium, Tower B, Plot No. 31 & 32, Gachibowli, Financial District, Nanakramguda, Serilingampally, Hyderabad, Telangana – 500032.

Investors are informed that the securities re-lodged for transfer pursuant to the above circular, shall only be issued in demat form. In case of any queries, shareholders are requested to raise a service request at inward.ris@kfintech.com or cosec@zentechologies.com.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 READ WITH THE RULES MADE THEREUNDER

Item No.5: Ratification of remuneration payable to Cost Auditors for the financial year 2026-27:

Pursuant to Section 148 of the Companies Act, 2013 read with the Companies (Cost Records and Audit) Rules, 2014, as amended from time to time, the Company is required to have the audit of its cost records conducted by a cost accountant in practice.

The Board, on the recommendation of the Audit Committee, at its meeting held on May 01, 2026, approved the appointment and remuneration payable to the cost auditors, M/s. M P R & Associates, Cost Accountants (Firm Reg. No: 000413), Hyderabad, to conduct the audit of the cost records of the Company for the financial year 2026-27, at a remuneration of ₹ 1,50,000/- (Rupees One Lakh Fifty Thousand Only) plus applicable taxes and out of pocket expenses, at actuals in connection with the aforesaid audit.

M/s. M P R & Associates, Cost Accountants (Firm Reg. No: 000413), Hyderabad, have furnished a certificate regarding their eligibility for appointment as Cost Auditors of the Company. They have vast experience in the field of cost audit.

In accordance with the provisions of Section 148 of the Companies Act, 2013 read with Rule 14 of the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors as recommended by the Audit Committee and approved by the Board of Directors needs to be ratified by the members of the Company. Accordingly, consent of the members is being sought for ratification of the remuneration payable to the Cost Auditors for the financial year 2026-27.

None of the Directors, Key Managerial Personnel of the Company and their relatives are in any way deemed to be interested or concerned in this Resolution.

The Board recommends the Ordinary Resolution, as set out at Item No. 5 of the notice, for approval by the members.

Item No. 6: Appointment of Mr. Jasthi Krishna Kishore (DIN: 08001625) as an Independent Director of the Company:

Based on the recommendation of the Nomination and Remuneration Committee, the Board of Directors at its meeting held on July 25, 2026, appointed Mr. Jasthi Krishna Kishore as an Additional Director of the Company with effect from July 25, 2026 pursuant to the provisions of Section 161(1) of the Companies Act, 2013 ("the Act") and Articles of Association of the Company. The Board of Directors also appointed Mr. Jasthi Krishna Kishore as an Independent Director of the Company not liable to retire by rotation, for a period of 3 (three) consecutive years commencing from July 25, 2026 upto July 24, 2029 (both days inclusive), subject to approval by the Members of the Company.

Brief Profile:

Mr. Jasthi Krishna Kishore, aged 62 years, is a Commerce Graduate with Distinction and a qualified Chartered Accountant. He joined the Indian Revenue Service in 1990 and retired in February 2024 as Chief Commissioner of Income Tax

after a distinguished career spanning more than three decades in government service.

Throughout his illustrious career, he held several senior positions in the Government of India and the Government of Andhra Pradesh and gained extensive experience in taxation, finance, economic development, investment promotion, civil aviation, infrastructure development and public administration. His notable assignments include Chief Commissioner of Income Tax, Karnataka; Principal Director of Income Tax (Investigation), Odisha; Principal Commissioner of Income Tax, New Delhi; Commissioner of Income Tax, Guntur and Vijayawada; and Additional Commissioner of Income Tax, Hyderabad and Faridabad.

He also served as Chief Executive Officer of the Andhra Pradesh Economic Development Board and Secretary to the Government of Andhra Pradesh from 2015 to 2019. During his tenure, he played a key role in establishing the Andhra Pradesh Economic Development Board and promoting the State as a leading investment destination. He was instrumental in facilitating investments exceeding ₹2,00,000 crore, including investments by prominent companies such as Kia Motors, Foxconn and Gamesa. Under his leadership, the Board received the SKOCH National Gold Award for Best Investment Promotion Agency, and Andhra Pradesh secured the first rank in the World Bank's Ease of Doing Business rankings.

Mr. Jasthi has also held important assignments in the Union Ministries of Civil Aviation, Urban Development, Rural Development and Agriculture. During his tenure with the Ministry of Civil Aviation, he contributed to several significant initiatives, including the revival of SpiceJet, restoration of flight operations at Visakhapatnam Airport following Cyclone Hudhud and the development of major airport projects.

He was awarded the Finance Minister's Gold Medal for Best All-Round Performance in the 45th Batch of the Indian Revenue Service. He has also received several awards and commendations from the Central Board of Direct Taxes and the Ministry of Finance for excellence in tax administration, assessments and infrastructure development. He has served on various important government committees, including those relating to IRS cadre restructuring, tax accounting standards and infrastructure development.

Mr. Jasthi has authored a book on income tax applicable to charitable and religious institutions and co-authored the book "Towards an Urban Revolution". He has delivered lectures at professional bodies, chambers of commerce and educational institutions on taxation, economy, management, leadership and motivation. He is also registered as an Arbitrator with the Indian Council of Arbitration and is actively engaged in mentoring start-ups and educational institutions.

Currently, he serves as an Independent Director on the Boards of Taj GVK Hotels & Resorts Limited, Prasadiya ARC Limited, Mohan Spintex India Limited, Sri Sarvaraya Sugars Limited and Hyderabad Institute of Oncology Private Limited. He also advises leading organisations on taxation and general management.

With his exceptionally distinguished record of accomplishments, background and expertise in the public administration, management, strategy, etc. the Board is of the opinion that Mr. Jasthi's appointment would be in the interest of the Company. Mr. Jasthi also fulfills the identified core skills/expertise/competencies, and the criteria laid down by the Board in the Company's Nomination Policy for appointment as a Director of the Company and as required in the context of the Company's business and the sector it operates in.

Mr. Jasthi has confirmed that he is not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact his ability to discharge his duties as an Independent Director of the Company. Mr. Jasthi has also confirmed that he is not debarred from holding the office of a Director by virtue of any Order passed by the Securities and Exchange Board of India or any such authority. Mr. Jasthi is not disqualified from being appointed as a Director in terms of Section 164 of the Act. Mr. Jasthi has confirmed that he is in compliance with Rules 6(1) and 6(2) of the Companies (Appointment and Qualifications of Directors) Rules, 2014, with respect to his registration with the data bank of Independent Directors maintained by the Indian Institute of Corporate Affairs.

Mr. Jasthi meets the criteria for independence under Section 149(6) of the Act and the Rules made thereunder and Regulation 16(1)(b) of the SEBI Listing Regulations and has submitted a declaration to that effect. In the opinion of the Board, Mr. Jasthi is independent of the management. The Company has received a notice in writing under Section 160(1) of the Act from a Member proposing candidature of Mr. Jasthi as a Director of the Company. Mr. Jasthi has conveyed his consent to act as a Director of the Company. The Company has also received other necessary disclosures and declarations from Mr. Jasthi.

As per Section 152 of the Act and the Rules made thereunder, a Director can be appointed with the approval of the Members and as per Regulation 17(1C) of the SEBI Listing Regulations, the Company is required to obtain the approval of the Members at the next General Meeting or within a period of three months from the date of appointment, whichever is earlier. Further, as per Regulation 25(2A) approval of the Members by way of a special resolution is required for the appointment of an Independent Director. Accordingly, the approval of the Members is being sought for the appointment of Mr. Jasthi as a Director and also as an Independent Director of the Company by way of a Special Resolution.

A copy of the draft letter of appointment as an Independent Director stating the terms and conditions, is available for inspection by Members on the website of the Company at the link <https://www.zentechnologies.com/investors>.

The required details in terms of Regulation 36(3) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations') and Secretarial Standard on General Meetings (SS-2) are provided in **Annexure I** to this Notice.

Except Mr. Jasthi and his relatives to the extent of their shareholding interest, if any, in the Company, none of the other Directors, Key Managerial Personnel of the Company and their relatives are in anyway concerned or interested, financially or otherwise, in the proposed Special Resolution.

The Board recommends the Special Resolution, as set out at Item No. 6 of the notice, for approval by the members.

Item No. 7: Appointment of Ms. Uma Priyadarshini Kollareddy (DIN: 02736184) as an Independent Director of the Company:

PARTICULARS OF CONTRACTS OR ARRANGEMENTS WITH RELATED PARTIES:

The Company has in place a robust process for approval of Related Party Transactions ("RPTs") and dealing with Related Parties. The Company demonstrates a structured approach to manage RPTs. Transparency and oversight is ensured by providing detailed justifications to the Audit Committee and adhering to regulatory requirements (SEBI Master Circulars and SEBI Listing Regulations).

All related-party transactions (RPT) entered during the financial year were conducted in the ordinary course of business and on an arms-length basis. The Company, during the year, has not entered into any materially significant related-party transactions with promoters, Directors, key managerial personnel, or other persons that may have had a potential conflict with the Company's interests. All related-party transactions are placed before the Audit Committee for review and approval. Prior omnibus approval is also obtained from the Audit Committee for repetitive related-party transactions that can be foreseen. The required disclosures are accordingly made to the Audit Committee every quarter regarding their omnibus approval.

Under Regulations 23(5) of SEBI Listing Regulations, as amended, approval of the Audit Committee is not applicable for the RPTs entered into between a holding Company and its wholly-owned subsidiary, and RPT entered into between two wholly owned subsidiaries of the listed holding Company, whose accounts are consolidated with such a holding Company and placed before the shareholders at the general meeting for approval. Since most Company transactions are with its subsidiaries, omnibus approval of the Audit Committee is obtained for such transactions and is reviewed quarterly as a measure of good corporate governance.

The policy on the materiality of related-party transactions and on dealing with related-party transactions is in line with SEBI Listing Regulations, as amended, and is uploaded on the website at <https://www.zentechnologies.com/policies-and-code-of-conduct>.

In accordance with Section 134(3)(h) of the Companies Act, 2013 and Rule 8(2) of the Companies (Accounts) Rules, 2014, the particulars of the contracts or arrangements with related parties referred to in Section 188(1) of the Companies Act, 2013, in **Form AOC-2** is attached as **Annexure III** to this Report. The Company has obtained approval of the Members for continuing/undertaking RPTs which may exceed the materiality threshold, and which are in the ordinary course of business and on arms' length. Detailed disclosure on related party transactions as per IND AS-24 containing name of the related party and details of the transactions entered with such related party have been provided under Notes to financial statements. Disclosure on RPTs on half year basis are also submitted to the stock exchanges i.e BSE Limited and National Stock Exchange of India Limited.

CORPORATE GOVERNANCE:

The Company is committed to maintaining the highest standards of corporate governance and adhering to the corporate governance requirements set out by the Securities and Exchange Board of India (SEBI). The report on corporate governance as stipulated under the SEBI Listing Regulations forms an integral part of this report. The requisite certificate from the secretarial auditor of the Company confirming compliance with the conditions of corporate governance is attached to the report on corporate governance.

BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT:

The Business Responsibility and Sustainability Report for the year under review, as stipulated under Regulation 34(2)(f) of the SEBI Listing Regulations, is presented in a separate section, forming part of the annual report.

PARTICULARS OF EMPLOYEES:

In terms of the provisions of Section 197(12) of the Companies Act, 2013 read with Rules 5(2) and 5(3) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, as amended thereof, a statement showing the names and other particulars of the employees drawing remuneration over the limits set out in the said

rules forms part of this report. Considering the first proviso to Section 136(1) of the Companies Act, 2013, the annual report excluding the aforesaid information is being sent to the members of the Company. The said information is available for inspection by the members at the registered office of the Company or through electronic mode during business hours on working days up to the date of the forthcoming 33rd AGM of the Company. Any member interested in obtaining a copy thereof may write to the Company Secretary at cosec@zentechnologies.com in this regard.

VIGIL MECHANISM/WHISTLE BLOWER POLICY:

The Company believes in upholding professional integrity and ethical behaviour in the conduct of its business. In terms of Section 177(9) of the Companies Act, 2013 and Regulation 22 of SEBI Listing Regulations and to uphold and promote these standards, the Company has a Whistle Blower Policy which serves as a mechanism for its Director(s) and employee(s) to report genuine concerns about unethical behaviour, actual or suspected fraud or violation of the Code of Conduct without fear of reprisal. The policy also provides employee(s) access to the Chairman of the Audit Committee under certain circumstances. The details of the procedures are also available on the Company's website at <https://www.zentechnologies.com/policies-and-code-of-conduct>.

ANNUAL RETURN:

Pursuant to Section 92(3) read with Section 134(3)(a) of the Companies Act, 2013, the Annual Return as on March 31, 2026 is made available on the Company's website at <https://www.zentechnologies.com/annual-returns>.

MANAGEMENT DISCUSSION AND ANALYSIS:

The Management Discussion and Analysis (MDA) for the year under review as stipulated under Regulation 34 of the SEBI Listing Regulations forms part of this Annual Report.

RISK MANAGEMENT POLICY:

The Board formulated and implemented Risk Management Policy for the Company which identifies various elements of risks which in its opinion may threaten the existence of the Company and measures to contain and mitigate risks. The Company has adequate internal control systems and procedures to combat the risk. The Risk Management procedures are reviewed by the Audit Committee, Risk Management Committee and the Board on periodical basis.

The Company has adopted a Risk Management Policy in accordance with the provisions of the Companies Act, 2013 and Regulation 21 of the SEBI Listing Regulations and the same is also made available on the Company's website at: <https://www.zentechnologies.com/policies-and-code-of-conduct>.

CORPORATE SOCIAL RESPONSIBILITY INITIATIVES:

Pursuant to the provisions of Section 135 of the Companies Act, 2013, read with the Companies (Corporate Social Responsibility Policy) Rules, 2014 ("CSR Rules"), as amended from time to time, the Company has constituted the CSR Committee of the Board which is chaired by an Independent Director. Secretarial Audit Report

For the financial year ended 31st March 2026

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Applied Research International Private Limited
46/13, E Block, Okhla Industrial Area, Phase - II,
New Delhi – 110020

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by M/s. **Applied Research International Private Limited** (hereinafter called 'the Company') having (CIN- U73100DL1998PTC097280). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2026 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2026 according to the provisions of:

- a) The Companies Act, 2013 (the Act) (including amendments made thereto) and the rules made there under;
- b) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings (The Company did not have any Foreign Direct Investment during the financial year);

The Company is not listed on any Stock Exchange in India hence the following Acts, Regulations, Guidelines etc. were not applicable to the Company:

- (i) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (ii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder; (not applicable pursuant to MCA notification no. G.S.R. 43(E) dated 22.01.2019)

- (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
- (d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;
- (e) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021;
- (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
- (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021; and
- (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018.

- iv) **The following are the other laws as specifically applicable to the Company:**

- (a). The Employees' State Insurance Act, 1948
- (b). The Employees' Provident Funds & Miscellaneous Provisions Act, 1952
- (c) The Payment of Gratuity Act, 1972
- (d) Central Goods and Services Tax Act, 2017
- (e) Sexual Harassment of Women at Workplace Act, 2013 (POSH Act, 2013)
- (f) The Factories Act, 1948

During the financial year ended on 31st March, 2026, the Company has complied with the applicable clauses of Secretarial Standard (SS-1 and SS-2) issued by the Institute of Company Secretaries of India and it was noted that the Company has complied with the same to the extent possible.

I have relied on the representation made by the Company and its Officers for systems and mechanism framed by the Company and on examination of the documents and records in test check basis.

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. as mentioned above.

I further report that:

For the year 2025-26, the Company was required to spent ₹ 26.00 Lac (₹ Twenty Six Lacs only) towards Corporate Social Responsibility ("CSR") and the Company has spent the same as per the CSR policy of the company as per the relevant records produced before me.

I further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors and Non-Executive Directors. Changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

During the year 2025-26, following changes took place in the composition of Board of Directors.

- i. Mr. Sanjay Kumar was appointed as Whole Time Director of the Company at the Extra ordinary General Meeting ("EGM") held on July, 31, 2025.
- ii. Mr. Shravan Rewari resigned from the directorship of the Company on October 16, 2025.

Adequate notices were given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board meetings were carried out unanimously as per the minutes as duly recorded and signed by the Chairman of the meeting of Board of Directors therefor there were no dissenting views required to be recorded as part of the minutes.

I further report that:

There are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that:

Annexure-VI

Statement of particulars of Conservation of Energy, Technology Absorption, Foreign Exchange Earnings and Outgo pursuant to the provisions of Section 134(3)(m) of the Companies Act, 2013 read with Rule 8 of Companies (Accounts) Rules, 2014

A. CONSERVATION OF ENERGY

- (i) The steps taken or impact on conservation of energy:

The Company does not use energy-intensive equipment for its operations. Besides, due to significant awareness campaigns within the Company, the employees are averse to wasting power. Consequently, power consumption is one of the lowest per employee. The computers, air-conditioners and other equipment being used by the Company are energy-efficient and environment-friendly.

- (ii) The steps taken by the company for utilizing alternate sources of energy:

- a. The Company is energy conscious. All types of driving simulators manufactured by the Company with high-rated, power-saving servo motors.
- b. The employees are disciplined on saving energy. Systems are switched on only when it is to be used and switched off as soon as the scheduled work is completed.
- c. The Company has made a policy decision of buying systems that are rated high in power saving. Employees work on LED monitors. Their energy consumption is less. They also release less heat compared to CRT and LCD monitors enabling the centralized air-conditioner maintain the temperature with ease. The air-conditioner too has a regulator to save power.
- d. Plans are afoot to buy eco-friendly vehicles for intra-office movement at the Hardware Park Plant and between the research wing and production wings.
- e. Also there is a move to harness solar energy for lighting and wire fencing. The roof of the plant is about 70 feet from ground and there are enough provisions for the day light to seep into the plant to enable technical hands to work without switching on electrical lights especially in day time.
- f. Air conditioners are fitted with controllers to cut off power at the set temperature. The present MH lamps and mercury lamps are replaced with LED lamps which consume only 40% of CFL and its minimum life is 50,000 burning hours.

- g. The street lights and the complete indoor lights at the Hardware Park are replaced with LED bulbs towards efficient energy consumption.

- h. The company has installed motion sensor based lights in the corporate & head office and the Hardware Park.

- i. We had also installed energy meters to our 40 Kva & 60 Kva UPS for monitoring Electric consumption for our IT infrastructure.

- (iii) The capital investment on energy conservation equipments: The capital investment was made on controllers used for air conditioners and LED bulbs.

B. TECHNOLOGY ABSORPTION

- (i) The efforts made towards technology absorption:

The Company has indigenously developed significant technologies that are useful in various products. The technologies nurtured within the Company have been incorporated into various products.

- (ii) The benefits derived like product improvement, cost reduction, product development or import substitution:

We expect such technologies will give us an unbeatable edge in evolving our products into advanced, reliable, and robust simulators.

- (iii) In case of imported technology (imported during the last three years reckoned from the beginning of the financial year):

The Company has not imported any technology during the past 3 years.

- (iv) The expenditure incurred on Research and Development:

The Company has incurred ₹ 3,689.60 Lakhs as R&D expenditure (capital and revenue) for the financial year 2025-26 for the development of various products. The Company has incurred 8.70% as R&D expenditure of Sales Turnover. The Company will continue to make big bets for long-term national interests which may impact short-term profitability of the Company.

Corporate Governance Report

[Pursuant to Schedule V (C) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015]

This report is prepared in accordance with the provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), and the report contains the details of Corporate Governance systems and processes at Zen Technologies Limited ('Zen' or 'the Company').

Corporate governance is the set of processes, customs, policies, laws and institutions affecting the way a Company is directed, administered or controlled. It is a system of structuring, operating and controlling a Company with a view to achieve long term strategic goals to satisfy shareholders, creditors, employees, customers and suppliers.

Corporate governance is based on principles such as conducting the business with all integrity and fairness, being transparent with regard to all transactions, making all the necessary disclosures and decisions, complying with all the laws of the land, accountability and responsibility towards the stakeholders and commitment to conducting business in an ethical manner.

The Company is in compliance with the requirements stipulated under Regulation 17 to 27 read with Schedule V and clauses (b) to (i) of sub-regulation (2) of Regulation 46 of the SEBI Listing Regulations as applicable, with regard to corporate governance and also the Guidance Note on Board Evaluation as prescribed by the Securities and Exchange Board of India ("SEBI").

1) COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE:

Zen is committed to good corporate governance. Zen aims to achieve the objective of enhancing the shareholders' value by ensuring effective relationship with stakeholders and protecting their interests. Zen believes that the Company's business strategy and plans should be consistent with the welfare of all its stakeholders which will bring sustained corporate growth and long term benefit to all.

Zen has been practicing the principles of good corporate governance with a great zeal of commitment and sincerity. Zen's principle of corporate governance comes from the belief that the

high standards of ethics, timely disclosures, accountability and transparency go a long way in preserving shareholders' trust and creating wealth.

ii) Meetings and Attendance:

The board/committee meetings are pre-scheduled well in advance to facilitate them to plan their schedule and to ensure meaningful participation in the meetings. However, in case of special and urgent business needs, the Board's approval is taken by passing resolutions by circulation, as permitted by law, which are noted and confirmed in the subsequent board meeting.

The Company follows the board processes in line with the relevant provisions of the Act read with Rules made thereunder, Secretarial Standards on Board Meetings and the requirements of the SEBI Listing Regulations.

The Board is apprised of all the key matters and there is a proper channel for flow of information between management and the Board.

Periodic presentations are made at the Board and Committee meetings on business and performance updates of the Company including Finance, Sales, overview of business operations of major subsidiaries, business strategy and risks involved to enable the Board to discharge its responsibilities effectively and take informed decisions. The Committee makes necessary recommendations to the Board which are relevant from the business, statutory and compliance standpoint and the Board takes into account such suggestions and recommendations before approving/noting the matter placed before them. The action items arising out of the Board and Committee meetings are duly acted upon and a report on the status of the same is placed before the subsequent meetings of the Committees and the Board.

Documents containing Unpublished Price Sensitive Information are submitted to the Board and Committee Members, at a shorter notice, as per the general consent taken from the Board, from time to time.

The Company Secretary is responsible for collation, review and distribution of all the papers and information to be presented to the Board and Committees thereof. The notice of the Board and Committee Meetings coupled with Agenda notes and relevant attachments is circulated well in advance. The Company Secretary also attends all the Board and Committee Meetings except the Independent Directors' meeting, and prepares and circulates the Minutes as per the statutory timelines and finalizes the same after incorporating the comments, if any, from the Directors.

The Board usually meets four times in a year after end of every quarter. In exceptional circumstances, additional meetings are being held, in case of necessity. During the financial year ended March 31, 2026, six (6) board meetings were held on May 17, 2025, June 21, 2025, July 26, 2025, October 25, 2025, November 05, 2025 and January 31, 2026. iii) Disclosure of relationship between Directors inter-se:

Mr. Ashok Atluri is the brother of Mr. Kishore Dutt Atluri and the spouse of Mrs. Shilpa Choudari. None of the other Directors are related to any other Director on the Board.

iv) Independent Directors:

Independent Directors play a significant role in the governance processes of the Board by enriching the Board's decision making and also preventing possible conflicts of interest that may emerge in such decision making. The Company has appointed Independent Directors as per the requirements of the Act and SEBI Listing Regulations. The Nomination and Remuneration committee identifies candidates based on certain laid-down criteria and considers the need for diversity of the Board before making its recommendation to the Board.

The Board is responsible for selecting new directors on the recommendations received from the Nomination and Remuneration Committee. After getting appointed, the directors receive a formal letter of appointment which, inter alia, explains the role, functions, duties and responsibilities expected from him/her as a director of the Company. The Director is also briefed in detail about the compliances required to be made under the Act and the SEBI Listing Regulations, and other relevant regulations. By way of an introduction to the Company, the director is presented with the Company profile, annual reports and an overview of the Company's manufacturing facilities.

The terms and conditions of such appointment as mentioned in the appointment letter are also made available on the website of the Company at https://www.zentechnologies.com/investor_relations/Terms_and_conditions_of_appointment_of_Independent_Directors.pdf.

The Company has received a declaration from the Independent Directors confirming that they meet the criteria of independence as prescribed under Section 149(6) of the Act read with Regulation 16(1)(b) of the SEBI Listing Regulations. In terms of Regulation 25(8) of the SEBI Listing Regulations, the Independent Directors have confirmed that they are not aware of any circumstances or situations which exist or may be reasonably anticipated that could impair or impact their ability to discharge their duties. In the opinion of the Board, the Independent Directors fulfil the conditions of independence specified in the Act and the SEBI Listing Regulations and are independent of the management.

Further, the Independent Directors have declared that they have complied with Rule 6(1) and (2) of the Companies (Appointment of Directors) Rules, 2014.

A separate meeting of Independent Directors was held on May 17, 2025, without the presence of executive directors and other members of management. During this meeting, the independent directors inter-alia review the performance of the Non-Independent Directors and the Board as a whole, review the performance of Chairman of the Company and assess the quality, quantity and timeliness of flow of information between the Company management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

No Independent Director has resigned from the Directorship of the Company before the expiry of their term of appointment during the financial year ended March 31, 2026. Dr. Ajay Kumar Singh ceased to be an Independent Director of the Company upon the completion of the tenure with effect from November 02, 2025.

v) Shares held by Non-Executive Directors:

The number of equity shares of the Company held by Non-Executive Directors, as of March 31, 2026 are as follows:

Certificate on Corporate Governance

To,
The Members
Zen Technologies Limited
B-42, Industrial Estate, Sanathnagar
Hyderabad- 500018

We have examined the compliance of the conditions of Corporate Governance by Zen Technologies Limited (hereinafter referred to as "the Company") for the year ended **March 31, 2026**, as stipulated in Chapter IV of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 (Listing Regulations).

The compliance of the conditions of Corporate Governance is the responsibility of the management. Our examination was limited to a review of the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

We conducted our examination of the Corporate Governance Report in accordance with the established systems and procedures selected by us depending on our judgement, including assessment of the risks associated in compliance of the Corporate Governance Report with the applicable criteria. The procedures include, but are not limited to, verification of secretarial records and other information of the Company, as we deem necessary to arrive at an opinion.

Based on the procedures performed by us as mentioned above and according to the information and explanations provided to us, we are in the opinion that the Company has complied with the conditions of Corporate Governance as stipulated in the Listing Regulations as applicable for the year ended **March 31, 2026**.

We further state that such compliance is neither an assurance as to the financial viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

26. Overview of the entity's material responsible business conduct issues:

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

Sr. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Technological Advancements and Innovation	Opportunity	Recognizing and leveraging technological advancements while promoting innovation can provide Zen Technologies Limited with a competitive advantage, resulting in the creation of state-of-the-art products and services, a larger market share, and enhanced customer satisfaction.	NA	Positive: Possible revenue expansion, cost reductions through enhanced efficiency, and greater profitability.
2	Government Regulations and Policies	Risk and Opportunity	Compliance with government regulations is essential to prevent penalties and sustain a positive business environment. Whereas supportive policies can create opportunities for Zen Technologies Limited to obtain government contracts and incentives.	Keep up to date with evolving regulations, ensure compliance, and proactively interact with policymakers to promote beneficial policies.	Negative: Failure to comply can result in fines and harm to reputation. Positive: Adherence to regulations can create more business opportunities and possible cost reductions.
3	Customer Satisfaction and Retention	Opportunity	Satisfied customers are more inclined to remain loyal and endorse Zen Technologies Limited's products and services to others, resulting in higher sales and an enhanced brand reputation.	NA	Positive: Improved customer retention can result in greater recurring revenue and lower marketing expenses for attracting new customers.

26. Overview of the entity's material responsible business conduct issues: (Contd.)

Sr. No.	Material issue identified	Indicate whether risk or opportunity	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
4	Cybersecurity and Data Privacy	Risk	As a defense sector organization entrusted with sensitive information, the risk of cybersecurity breaches and data privacy violations can lead to legal repercussions, reputational damage, and substantial financial losses.	The Company has established a robust Cyber Risk Management framework, performed regular security assessments, and adhered to data protection regulations. Data access is strictly controlled, and data encryption is employed to ensure security.	Negative: Data breaches can lead to financial losses, legal repercussions, and harm to the Company's reputation.
5	Talent Acquisition and Retention	Opportunity and Risk	Attracting and keeping skilled and talented employees is essential for the Company's growth and success. Whereas high employee turnover can result in higher recruitment expenses and the loss of valuable expertise.	Provide attractive compensation packages, opportunities for career advancement, and cultivate a positive workplace culture.	Positive: Efficient talent management can lead to enhanced productivity and decreased recruitment costs. Negative: High turnover can result in increased expenses and lower productivity.
6	Supply Chain Disruption	Risk	Recognizing the risk of supply chain disruptions is essential, as it can result in production delays, higher costs, and customer dissatisfaction.	The Company keeps a diverse supplier network, carries out regular risk assessments, and creates contingency plans to alleviate supply chain disruptions. Additionally, fostering collaborative relationships with suppliers and utilizing real-time monitoring helps ensure prompt responses to potential issues.	Negative: Effective risk management reduces financial losses linked to supply chain disruptions, including production downtime and rising operational costs.
7	Energy and Emissions	Risk	High energy consumption and associated emissions pose operational and regulatory risks, especially given the evolving defence procurement norms emphasizing sustainability.	The Company is investing in energy-efficient technologies and renewable energy integration across our manufacturing processes.	Negative: Energy and emissions-related risks may lead to increased operational costs due to rising energy prices, carbon taxes, and compliance expenditures.

We are actively engaging with relevant teams and stakeholders to ensure that our goals are measurable, achievable, and impactful. The entity has outlined its key commitments and objectives in line with its strategic priorities. These encompass initiatives to enhance operational efficiency, advance sustainability practices, accelerate digital adoption, strengthen customer-centric approaches, and ensure compliance with applicable laws and regulations. The timelines for achieving these objectives vary based on the scope and nature of each commitment and are generally categorised into short-term, medium-term, and long-term goals.								
6.		Performance of the entity against the specific commitments, goals and targets along-with reasons in case the same are not met.	The entity regularly monitors and evaluates its progress against defined goals through structured internal performance reviews. Most targets are either achieved or progressing in line with the prescribed timelines. In cases where targets remain unmet, the underlying reasons may include macroeconomic challenges, unforeseen operational constraints, or changes in regulatory and market conditions. The entity has established continuous improvement mechanisms to identify gaps, implement corrective measures, and realign efforts, wherever necessary.								
Governance, leadership and oversight											
7.		Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)	At Zen Technologies Limited, sustainability and responsible business conduct are integral to our operations and long-term value creation. During the year, the Company focused on key ESG priorities including technological innovation, regulatory compliance, customer satisfaction, cybersecurity and data privacy, talent retention, supply chain resilience, and energy and emissions management. We continued to strengthen governance through policies aligned with the NGRBC principles, grievance mechanisms, CSR applicability, and recognised systems such as ISO 9001:2015 and ISO/IEC 27001:2013, while investing in energy-efficient technologies, exploring renewable energy integration and enhancing cyber risk controls. Our framework is externally benchmarked through the S&P Global Corporate Sustainability Assessment, which underlies the Dow Jones Sustainability Index and measures performance against industry-specific criteria. Going forward, we remain committed to embedding responsible business practices across our operations and creating sustainable value for our stakeholders through innovation, operational excellence and strong governance.

10. Health and safety management system:**a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No). If yes, what is the coverage of such a system?**

Yes, Zen Technologies has implemented a robust Occupational Health and Safety Management System (OHSMS) across all units and is supported by its Health and Safety policy. The system includes safety manuals, procedures, emergency plans, and regular plant-level safety committee meetings. The company is committed to continuous improvement and international best practices to ensure employee well-being.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Zen Technologies follows a structured process to identify and assess work-related hazards on both routine and non-routine tasks. Regular meetings, safety drills and open communication with on-site personnel help evaluate risks and improve safety protocols. This proactive approach ensures continuous improvement and reflects the company's commitment to employee safety and well-being.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks.

Yes, Zen Technologies has systems in place for workers to report hazards and remove themselves from unsafe situations without fear of retaliation. The company actively monitors risks, values employee feedback, and takes prompt action to improve safety measures—reinforcing its commitment to a safe and productive workplace.

d. Do the employees/workers of the entity have access to non-occupational medical and healthcare services?

Yes, Zen Technologies places a high priority on providing non-occupational medical and healthcare services for its employees. The company ensures access to these services either on-site or through partnerships with reputable medical facilities nearby. Furthermore, Zen emphasizes the significance of training its staff to effectively respond to medical emergencies.

(iii) Third party water (Municipal water supplies)	0	0
(iv) Seawater/desalinated water	0	0
(v) Others (Water cans for drinking and cooking purposes)	401.62	507.16
Total volume of water withdrawal (in kiloliters) (i + ii + iii + iv + v)	11,267.23	6,594.96

3. Provide details of the following disclosures related to water, in the following format: (Contd.)

Parameter	FY 2025-26 Current Financial Year	FY 2024-25 Previous Financial Year
Total volume of water consumption (in kiloliters)	11,267.23	6,594.96
Water intensity per rupee of turnover (Total water consumption/Revenue from operations, KL/INR Cr)	26.59	7.09
Water intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total water consumption/Revenue from operations adjusted for PPP, KL/Million USD)	54.08	14.64
Water intensity in terms of physical output	-	-
Water intensity (optional) – the relevant metric may be selected by the entity	-	-

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

TUV India Private Limited has been carried out by an external agency for water data.

4. Provide the following details related to water discharged:

Parameter	FY 2025-26 Current Financial Year	FY 2024-25 Previous Financial Year
Water discharged by destination and level of treatment (in kiloliters)		
(i) To Surface water		
- No treatment	0	0
- With treatment – please specify level of treatment	0	0
(ii) To Groundwater		
- No treatment	0	0
- With treatment – please specify level of treatment	0	0
(iii) To Seawater		
- No treatment	0	0
- With treatment – please specify level of treatment	0	0
(iv) Sent to third parties (GHMC)		
- No treatment	0	60
- With treatment – please specify level of treatment	0	0
(v) Others		
- No treatment	0	0
- With treatment – Tertiary treatment	0	0
Total water discharged (in kiloliters)	0	60

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment/evaluation/assurance has been carried out by an external agency for water discharge data.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Though there is no specific mechanism for Zero Liquid Discharge, we have processes in place to ensure that water is utilized conservatively, economically and in an environmentally conscious manner.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Please specify unit	FY 2025-26 Current Financial Year	FY 2024-25 Previous Financial Year
NO _x	MT	0.0000125	Not Available

*In FY 2025-26 the food waste was handed over to the Municipal Corporation and the Scrap waste was sold to the local vendors.

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

TUV India Private Limited has been carried out by an external agency for waste data.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such waste.

As a simulation Company involved in the production of hardware products like printed circuit boards (PCBs), projectors, screens, and CPUs, Zen Technologies is mindful of the electronic waste (e-waste) generated by its operations. The Company takes responsibility for the disposal of this e-waste by handing over the waste to the authorized recyclers. This e-waste undergoes proper segregation to ensure that each component receives appropriate treatment. Unused batteries are returned to the supplier, who replaces them with new ones, facilitating safe and sustainable battery waste management.

Compliance with applicable regulations is of utmost importance to us, and we strictly adhere to safety measures such as proper storage, labelling, and segregation of chemicals to prevent accidents. Comprehensive employee training ensures the safe handling and disposal of waste materials.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/clearances are required, please specify details in the following format:

Is the entity compliant with the applicable environmental law/regulations/guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

S. No.	Specify the law/regulation/guidelines which was not complied with	Provide details of the non-compliance	Any fines/penalties/action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
Nil				

Leadership Indicators

1. Water withdrawal, consumption and discharge in areas of water stress (in kilo liters):

For each facility/plant located in areas of water stress, provide the following information:

- (i) Name of the area:
- (ii) Nature of operations:
- (iii) Water withdrawal, consumption, and discharge in the following format:

Not Applicable.

2. Please provide details of total Scope 3 emissions & its intensity:

Parameter	Unit	FY 2025-26 (Current Financial Year)	FY 2024-25 (Previous Financial Year)
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	1,433.45*	768.69*
Total Scope 3 emissions per Crore of turnover	MTCO ₂ e/ INR Cr	3.38	0.83

* Scope 3 emissions include from Business travel and Employee Commute.

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

TUV India Private Limited has been carried out by an external agency for Scope 3 emissions.

3. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not Applicable.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/effluent discharge/waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Energy Efficient Appliances	The Company procured five-star rated energy-efficient air conditioners to optimise electricity consumption and improve energy efficiency across relevant operational areas.	Reduction in energy consumption, improved operational efficiency and lower associated GHG emissions from electricity use.
2	Rainwater harvesting	The Company has implemented rainwater harvesting measures to collect and utilise rainwater, supporting efficient water.	Improved water conservation, reduced dependence on external water sources and strengthened environmental stewardship.

3. Describe the mechanisms to receive and redress grievances of the community.

Zen Technologies Limited has established the Veer Sammaan Foundation, a registered trust specifically constituted to carry out the Company's Corporate Social Responsibility (CSR) initiatives. Through this foundation, the Company actively engages with local communities to understand their concerns and address grievances in a structured and responsive manner.

The Foundation serves as a formal channel for receiving feedback and complaints from community members.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

Parameter	FY 2025-26 Current Financial Year	FY 2024-25 Previous Financial Year
Directly sourced from MSMEs/small producers	79.25%	56.76%
Directly from within India*	92.46%	94.00%

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent/on contract basis) in the following locations, as % of total wage cost:

Location	FY 2025-26 Current Financial Year	FY 2024-25* Previous Financial Year
Rural	0%	0%
Semi-urban	0%	0%
Urban	0%	0%
Metropolitan	100%	100%

* The FY 2024-25 data has been restated. The earlier classification was based on employee location; however, upon review, the Company's three locations fall within the Hyderabad region. As per RBI classification, Hyderabad is categorized as a metropolitan centre. Accordingly, the data has been updated and reported under the metropolitan category.

Principle 9: Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

Zen Technologies Limited prioritizes customer satisfaction and has implemented strong mechanisms to receive and address consumer complaints and feedback. Customers can express their concerns through various channels, including dedicated customer service hotlines, email, online portals, and in-person meetings. Each complaint or feedback is promptly acknowledged and assigned to the appropriate team for resolution.

Upon receiving a complaint, a thorough investigation is conducted to determine the root cause, followed by the development of a detailed action plan to resolve the issue. Throughout this process, we maintain regular communication with the customers to keep them updated on progress and ensure their concerns are adequately addressed.

Furthermore, Zen Technologies values customer feedback as a vital part of our continuous improvement efforts. We actively solicit feedback through surveys, follow-up calls, and customer meetings. This feedback is utilized to refine our processes, enhance our products and services, and ensure we meet and exceed customer expectations.

2. Turnover of products and/services as a percentage of turnover from all products/service that carry information about:

Parameter	As a percentage to total turnover
Environmental and social parameters relevant to the product	-
Safe and responsible usage	100%, All our products carry information about safe and responsible usage
Recycling and/or safe disposal	-

3. Number of consumer complaints in respect of the following:

Particulars	FY 2025-26 (Current Financial Year)			FY 2024-25 (Previous Financial Year)		
	Received during the year	Pending resolution at end of year	Remarks	Received during the year	Pending resolution at end of year	Remarks

4. Details of instances of product recalls on account of safety issues:

Particulars	Number	Reasons for recall
Voluntary recalls	0	NA
Forced recalls	0	NA

5. Does the entity have a framework/policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

Yes, Zen Technologies has established a thorough framework and policy for cybersecurity and data privacy. Our policy aims to protect our digital assets, information systems, and sensitive data from cyber threats and unauthorized access. It covers several essential areas, including network security, data protection, user access controls, incident response, and compliance with applicable legal and regulatory requirements. All personnel, including employees, contractors, and interns, are required to follow this policy to maintain a secure operational environment.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty/action taken by regulatory authorities on safety of products/services.

Zen Technologies Limited has not experienced any reported incidents concerning issues such as advertising and delivery of essential services, cybersecurity, customer data privacy, repeated product recalls, or penalties/actions imposed by regulatory authorities regarding product/service safety.

7. Provide the following information relating to data breaches:

a. Number of instances of data breaches

Nil

b. Percentage of data breaches involving personally identifiable information of customers

Not Applicable

c. Impact, if any, of the data breaches

Leadership Indicators

1. Channels/platforms where information on products and services of the entity can be accessed (provide web link, if available).

Details on products and services of the Company can be accessed on the website of the Company at <https://www.zentechnologies.com/products>.

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

We provide comprehensive training for our customers that emphasizes the safe handling and proper usage of our products. Before any product reaches our consumers, our dedicated team ensures that every aspect of its handling is thoroughly educated to consumers. This training includes detailed instructions on how to use the product effectively and safely, minimizing any potential risks. Furthermore, after the sale, our Zen team conducts follow-up training sessions to reinforce these principles, ensuring that consumers are well-equipped to utilize the product to its fullest potential.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

We have established mechanisms to promptly inform consumers about any potential risks of disruption or discontinuation of essential services. This includes proactive communication through various channels, ensuring that customers are kept informed and can make necessary adjustments in a timely manner.

4. Does the entity display product information on the product over & above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief? Did your entity carry out any survey with regard to consumer satisfaction relating to the major products/services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

Not Applicable. We manufacture the products specifically for the defence industry; hence we strictly adhere to the instructions provided by our clients in accordance with their requirements and regulations.

Yes, Zen Technologies conducted a survey with regards to consumer satisfaction relating to our products.

Independent Assurance Statement

To the Directors and Management,
Zen Technologies Limited,
B-42, Industrial Estate, Sanath Nagar,
Hyderabad – 500018, Telangana

Zen Technologies Limited (hereinafter referred to as "ZTL" or the "Reporting Organization") engaged TUV India Private Limited ("TUVI") to conduct independent external assurance of the Non-Financial Information disclosed in its Business Responsibility and Sustainability Report (hereinafter 'the BRSR' or 'the Report'), prepared in reference to the SEBI BRSR framework and the requirements of BRSR Core disclosures. The scope of assurance covers the BRSR Core disclosures (the 09 attributes). ZTL has prepared its BRSR for the period 01/04/2025 to 31/03/2026, which forms part of its Annual Report for FY 2025-26 and is also published as a standalone document. The BRSR contains the BRSR Core disclosures (the "09 attributes"), which constitute the subject matter of this assurance engagement (the "Sustainability Information"); the entity's responses to the nine BRSR principles (Essential and Leadership Indicators / non-Core BRSR disclosures) do not form part of the scope of this engagement. TUVI confirms that, prior to acceptance of the engagement, the preconditions for the assurance engagement were assessed in accordance with ISAE 3000 (Revised). TUVI determined that the subject matter is supported by suitable criteria (SEBI BRSR Core framework and GHG Protocol), management has acknowledged its responsibility for the preparation and presentation of the Sustainability Information and for providing access to relevant records, and that sufficient appropriate evidence was expected to be available to support the assurance conclusion. Accordingly, the engagement was accepted and performed in accordance with ISAE 3000 (Revised). The engagement was formally accepted in July 2026, prior to the commencement of assurance procedures, as recorded in the signed engagement letter (Project Reference No. 8125176919); the engagement acceptance date is maintained in the engagement letter and engagement working papers. The assurance process was conducted with reference to the following applicable frameworks and guidelines. The primary criteria for the BRSR Core reasonable assurance engagement is the SEBI BRSR Core framework (Annexure I KPIs, SEBI circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177 dated 20 December 2024). The secondary / supplementary criteria include the GHG Protocol, applicable to the greenhouse gas attribute:

- i. Regulation 34(2)(f) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, requiring disclosure of the Business Responsibility and Sustainability Report (BRSR);
- ii. The Industry Standards on Reporting of BRSR Core, as per SEBI circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177, dated 20 December 2024;
- iii. SEBI circular SEBI/HO/CFD/CMD-2/P/CIR/2021/562, dated 10 May 2021;
- iv. The SEBI notification SEBI/LAD-NRO/GN/2023/131, dated 14 June 2023, related to BRSR reporting requirements;
- v. The BRSR Core – Framework for Assurance and ESG Disclosures for the Value Chain, as stipulated by SEBI circular SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122, dated 12 July 2023;
- vi. World Resources Institute (WRI) / World Business Council for Sustainable Development (WBCSD) Greenhouse Gas (GHG) Protocol (A Corporate Accounting and Reporting Standard).

The assurance engagement comprised a reasonable assurance engagement over the BRSR Core indicators / nine attributes as per Annexure I – Format of BRSR Core, following the requirements of International Standard on Assurance Engagements ISAE 3000 (Revised).

Management's Responsibility

ZTL developed its sustainability information forming part of the Annual Report (based on the BRSR framework) and holds full responsibility for the collection, analysis, preparation, and disclosure of the information presented in the Annual Report, including its availability in both web-based and printed formats. This responsibility also extends to the maintenance and integrity of the website where the Annual Report is published. Management is responsible for ensuring the disclosed data is accurate, reliable, and free from material misstatements, for the BRSR Core requirements referenced in this statement. Additionally, ZTL is responsible for the archiving and reproduction of the disclosed information and for ensuring that such data is made available to relevant stakeholders and regulatory authorities upon request. The Reporting Organization is responsible for complying with applicable laws.

Scope and Boundary

The scope of this assurance engagement conducted by TUVI covered the verification of the BRSR Core disclosures (the 09 attributes) contained in the BRSR. The BRSR is prepared as mandated under Regulation 34(2)(f) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, which requires listed entities to include a BRSR as part of their Annual Report.

The assurance engagement included the following activities:

1. Review of the BRSR Core disclosures (09 attributes), together with the related contextual and management information necessary to verify these disclosures;
2. Review and evaluation of the nine attributes specified under Annexure I – Format of BRSR Core, as disclosed in the BRSR;
3. Assessment of the quality, clarity, and completeness of the reported information; and

4. Verification of supporting evidence on a sample basis to support reasonable assurance over the nine attributes as per the BRSR Core framework.

This approach ensured an assessment aligned with the principles of ISAE 3000 (Revised). Basis for Assurance Level Selection: Reasonable assurance was mandated by SEBI LODR Reg. 34(2)(f) and the SEBI circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177 (20 December 2024) for the BRSR Core nine attributes, providing an independent and objective evaluation of the reliability and accuracy of ZTL's BRSR Core disclosures.

TUVI has verified the below [09 attributes as per Annexure I - Format of BRSR Core](#) disclosed in the BRSR with reference to the Industry Standards on Reporting of BRSR Core (SEBI circular dated 20 December 2024) as part of the applicable assurance criteria.

Industry Standards Forum (ISF) Compliance Declaration: TUVI confirms that this assurance engagement has been conducted in compliance with the Industry Standards on Reporting of BRSR Core as specified in SEBI circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177 dated 20 December 2024. The nine BRSR Core attributes (Annexure I KPIs), scope of reasonable assurance, assurance methodology, and reporting format adopted in this engagement are fully aligned with the requirements of the said SEBI circular. The SEBI circulars dated 10 May 2021, 14 June 2023 and 12 July 2023 establish the BRSR reporting framework applicable to ZTL, whereas this engagement has been planned and performed under ISAE 3000 (Revised), with the Industry Standards on Reporting of BRSR Core (SEBI circular dated 20 December 2024) applied as the assurance criteria.

Boundary Reconciliation: The ESG reporting boundary is consistent with the operational control approach adopted by ZTL for financial reporting purposes, covering all entities and sites over which ZTL exercises operational control. No material differences were identified between the financial reporting boundary (as per the audited financial statements for FY 2025-26) and the ESG reporting boundary applied in the BRSR.

The reporting boundary comprises 02 sites of Zen Technologies Limited located in India: (i) the Registered Office and manufacturing operations at B-42, Industrial Estate, Sanath Nagar, Hyderabad – 500018, Telangana; and (ii) the manufacturing facility at Plot No. 35, 26 & 37, Kancha Imarath, Near Ravirala Village, Hardware Park, Ranga Reddy District, Telangana – 510510. ZTL has reported these 02 sites, covering its corporate function and manufacturing operations, within the reporting boundary in India.

The assessment was carried out in accordance with the following audit schedule:

Sr. No.	Site Location	Assessment Date	Audit Mode
1	Registered Office & Manufacturing Operations, B-42, Industrial Estate, Sanath Nagar, Hyderabad – 500018	23 July 2026	Onsite
2	Manufacturing Facility, Hardware Park, Ranga Reddy District, Telangana – 510510	24 July 2026	Onsite

The assurance activities were carried out together with a desk review of the reported data across the entire reporting boundary.

Limitations

TUV India Pvt. Ltd. (TUVI) did not perform assurance procedures on forward-looking or prospective information disclosed in the Annual Report or the BRSR, including targets, expectations, ambitions, ESG goals, or claims, and therefore expresses no conclusion on such information. Actual results may differ materially from those projected, and TUVI assumes no responsibility for any reliance placed on such statements. No limitations were encountered in relation to the agreed scope of the assurance engagement. TUVI has relied on financial figures from the audited financial statements of ZTL, and ZTL remains solely responsible for the appropriate application, authenticity, completeness, and accuracy of such data. The assurance procedures are subject to inherent limitations, including the use of estimates, assumptions, sampling, and reliance on internal controls and data systems maintained by ZTL; accordingly, material misstatements or omissions may not be detected, particularly where disclosures involve estimation uncertainty or management judgment. TUVI disclaims liability for any decisions or consequences arising from this assurance statement or inaccurate data provided by ZTL, and any reliance placed by third parties on disclosed KPIs is at their own risk. For the purposes of this engagement, a material misstatement is defined as a misstatement, individually or in aggregate, that could reasonably be expected to influence the economic decisions of users made on the basis of the sustainability information. TUVI applied a KPI-specific materiality approach comprising two tiers: (i) a 5% quantitative materiality threshold relative to the applicable KPI base value (e.g., total emissions, total energy, total water consumption) was applied to volume-based and aggregated KPIs, supplemented by qualitative considerations including the nature and context of the disclosure and the risk of error; and (ii) a qualitative zero-tolerance threshold was applied to high-risk ESG indicators – specifically fatalities, permanent disabilities, POSH complaints upheld, instances of regulatory non-compliance or material breaches of applicable law, and customer data breaches – where any single occurrence, misstatement, or omission is treated as material irrespective of its magnitude. For these high-risk indicators, qualitative judgment overrides the 5% quantitative threshold. This KPI-specific materiality framework ensures that qualitative issues of significant stakeholder or regulatory concern are not understated by the application of a uniform quantitative threshold. The application of this assurance statement is limited with respect to [SEBI circular SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122, dated Jul 12, 2023 and Industry Standards on Reporting of BRSR Core, circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177, dated 20/12/2024](#). This assurance statement does not endorse any environmental and social claims (related to the product, manufacturing process, packaging, disposal of product etc.) as well as advertisements by the Reporting Organization. TUVI does not permit use of this statement for Greenwashing or misleading claims. The Reporting Organization is responsible for ensuring adherence to relevant laws. This assurance statement should be read in its entirety to avoid

misinterpretation and does not cover value chain disclosures unless specifically included within the defined assurance scope.

Our Responsibility

TÜV's responsibility in relation to this engagement is to perform a reasonable level of assurance over the BRSR Core attributes and to express a conclusion based on the work performed. Our engagement did not include an assessment of the adequacy or the effectiveness of ZTL's strategy, management of ESG-related issues or the sufficiency of the BRSR against BRSR reporting principles, other than those mentioned in the scope of the assurance. TÜV's responsibility regarding this verification is in reference to the agreed scope of work, which includes assurance of the non-financial quantitative and qualitative information disclosed by ZTL. Reporting Organization is responsible for archiving the related data for a reasonable time period. The primary intended user of this assurance statement is ZTL (Board, shareholders, and regulators); however, the client may use it at their own discretion in accordance with their specific requirements. This assurance engagement is based on the assumption that the data and information provided to TÜV by ZTL are complete and true.

Written Representations and Subsequent Events: TÜV obtained a written representation letter from ZTL management confirming management's responsibility for the BRSR Core disclosures, the completeness and accuracy of the information provided, and that, between 31/03/2026 and the date of this statement, no events or matters occurred that would materially affect the assured BRSR Core KPIs. TÜV's procedures did not identify any subsequent events requiring adjustment to, or disclosure within, the assured information; accordingly, the conclusion is expressed in relation to the reporting period.

Assurance Methodology

During the assurance engagement, TÜV adopted a risk-based approach, focusing verification efforts on disclosures and issues of high material relevance to ZTL and its stakeholders. The objective was to assess the reliability and accuracy of the non-financial information disclosed, with emphasis on the robustness of data management systems, internal controls, and information flows. Fraud and error considerations: In planning and performing the engagement, TÜV considered the risk of material misstatement in the BRSR Core disclosures arising from fraud or error, including the risk of management override of controls and any incentives or pressures that could lead to misstatement of ESG performance data. Professional skepticism was maintained throughout, and KPI areas involving greater estimation uncertainty or management judgment received enhanced substantive testing. No indicators of fraud or intentional misstatement affecting the assured BRSR Core KPIs were identified during the engagement.

TÜV's assurance activities included:

1. Document and Data Review
 - i. Examination of documents, datasets and supporting evidence provided by ZTL in respect of the nine attributes listed in Annexure I – Format of BRSR Core (non-financial disclosures).
 - ii. Evaluation of disclosures related to Management Approach and performance indicators.
2. Stakeholder Interviews
 - i. Conducted interviews with key representatives, including data owners, process managers, and decision-makers across various departments.
 - ii. Reviewed ZTL's approach to stakeholder engagement and materiality determination to validate qualitative statements included in the Annual Report.
 - iii. Interviews were conducted through both onsite visits and remote assessments, as applicable.
3. Process and System Assessment
 - i. Review of systems and processes for:
 - a) Implementing ESG and sustainability-related policies, as described in the BRSR; and
 - b) Collecting, managing, and reporting both quantitative data and qualitative information for the reporting period.
 - ii. Assessment of data management systems and internal processes supporting the preparation of ESG disclosures, including review of data flows, aggregation procedures, and supporting records, to understand the context in which reported data was prepared. This review was undertaken as part of the substantive verification procedures and does not constitute an assessment of, or opinion on, the design adequacy or operating effectiveness of IT general controls or ESG application controls.
4. Substantive and Control Testing

TÜV performed walkthrough procedures to understand ESG data flows and processes, and substantive testing including document verification, recalculation, analytical review, and data traceability checks for selected KPIs and disclosures. The substantive procedures performed provided sufficient appropriate evidence in accordance with ISAE 3000 (Revised). Examples of KPI-category procedures applied: (a) GHG Emissions – recalculation of Scope 1 and Scope 2 emissions from primary fuel and energy consumption data using IPCC/GHG Protocol emission factors; reconciliation of Scope 1 combustion and fugitive emission records against source data; (b) Energy – cross-verification of meter readings against utility bills for the sites, and validation of renewable energy consumption; (c) Water – review of water intake records at site level, with traceability to supply invoices and applicable water-withdrawal permits; (d) Safety – verification of Lost Time Injury Frequency Rate (LTIFR) calculations against site-level incident registers and HR records; (e) Waste – reconciliation of hazardous and non-hazardous waste disposal records against statutory returns and authorised third party disposal manifests. Scope 2 GHG emissions were

quantified using the location-based method, being grid electricity consumption multiplied by the applicable published grid emission factor. The emission factors applied were sourced from the IPCC (Assessment Report global warming potential values and the 2006 IPCC Guidelines as updated), the Central Electricity Authority (CEA) CO₂ Baseline Database for the Indian power sector (Version 21), and the UK DEFRA greenhouse gas conversion factors, with the specific version and publication year of the IPCC and DEFRA factors applied for the reporting period recorded in the engagement working papers and ZTL's Data Collection and Reporting Protocol (DCRP). In evaluating evidence, TUVI placed primary reliance on source records (such as meter readings, utility invoices, statutory returns, HR and incident registers, and third-party disposal manifests) over secondary evidence (such as management-prepared schedules, internal summaries, and analytical corroboration). No unresolved contradictory or inconsistent evidence was identified during the engagement; where minor differences arose, they were resolved through recalculation, corroboration with source records, and clarification with management before the conclusion was finalised.

5. Sampling methodology

- i. TUVI applied a risk-based sampling methodology to select representative samples of ESG disclosures, considering materiality thresholds, risk of misstatement, data complexity, estimation uncertainty, nature and scale of operations, geographical spread of facilities, and site contribution to ESG impacts. Sample selection prioritised locations with significant operational impact and KPIs with higher inherent risk, being those relevant to the BRSR Core indicators / nine attributes.
- ii. **Site Verification Coverage:** TUVI conducted onsite verification at both sites within the reporting boundary – the Registered Office and manufacturing operations at Sanath Nagar, Hyderabad (23 July 2026) and the manufacturing facility at Hardware Park, Ranga Reddy District, Telangana (24 July 2026) – complemented by a desk review of the BRSR Core data for the entire reporting boundary. The quantitative coverage basis for the BRSR Core KPIs, combining onsite verification and desk review, is as follows: Scope 1 and Scope 2 GHG emissions – all sites covered; total energy consumption – all sites covered; total water consumption – all sites covered; total waste generated – all sites covered; workforce and HR KPIs (safety, POSH, wages, wellbeing spend) – 100%, verified through the corporate function and site-level HR records. The combined onsite verification of both sites and the desk review of BRSR Core data provide full coverage of all sites and entities within the reporting boundary for the key environmental, social, and safety BRSR Core KPIs, with the underlying transactions and records tested on a risk-based sample basis. Accordingly, the verification coverage provides a fully evidenced and representative basis for the reasonable assurance conclusion on the BRSR Core attributes. A KPI-wise sampling matrix, recording the sample coverage tested for each BRSR Core KPI, and a documented engagement risk-assessment matrix, recording inherent and control risk considerations by KPI category, are maintained in the engagement working papers.
- iii. **Estimation-based disclosures:** Where certain disclosures are derived using estimation methodologies, the associated estimation uncertainty has been acknowledged and factored into the assurance conclusion. Water discharge, reported on an estimated basis, was estimated from metered water intake less measured consumption in accordance with ZTL's estimation methodology documented in the DCRP, and was reviewed by TUVI for reasonableness. For PPP-adjusted intensity KPIs, revenue from operations was converted using the World Bank Purchasing Power Parity (PPP) conversion factor for India for the applicable year, as recorded in ZTL's DCRP, and verified by TUVI on a sample basis. The KPI-specific materiality thresholds applied to the sampled data are as described under 'Limitations' above.

6. Reporting Framework Adherence

- i. Verified adherence to reporting requirements under:
 - a) SEBI's BRSR guidelines.

Opportunities for Improvement

The following are the opportunities for improvement reported to ZTL. These align well with ZTL management's existing objectives and programs. ZTL has already identified these focus areas, and the assurance team endorses their continued implementation to advance the organization's sustainability goals:

- i. ZTL can further enhance reporting of its environmental performance by establishing an automated emissions accounting system for real-time tracking of monitoring parameters across its operations.
- ii. ZTL has established a strong base through its existing sustainable procurement policies and practices. ZTL may further strengthen this framework by progressively aligning it with the principles of ISO 20400.

ZTL is encouraged to establish measurable targets and track progress annually in its Annual Report.

Conflict of Interest

In the context of BRSR requirements set by SEBI, addressing conflict of interest is crucial to maintain high integrity and independence of assurance engagements. As per SEBI guidelines, assurance providers need to disclose any potential conflict of interest that could compromise the independence or neutrality of their assessments. TUVI diligently identifies any relationships, affiliations, or financial interests that could potentially cause conflict of interest. We proactively implement measures to mitigate or manage these conflicts, ensuring independence and impartiality in our assurance engagements. We provide clear and transparent disclosures about any identified conflicts of interest in our assurance statement. We recognize that failure to address conflict of interest adequately could undermine the credibility of the assurance process and the

reliability of the reported information. Therefore, we strictly adhere to SEBI guidelines and take necessary measures to avoid, disclose, or mitigate conflicts of interest effectively.

In addition, TUVI maintains organizational safeguards to ensure impartiality despite performing different conformity-assessment activities within the same organization. Independence is ensured through segregation of responsibilities, independent technical review, documented conflict-of-interest controls, and oversight mechanisms in accordance with ISO 17029:2019, consistent with TUVI's accreditation as a verification/validation body; this assurance engagement was, however, planned and performed in accordance with ISAE 3000 (Revised), which governs the conclusions expressed herein. TUVI confirms that the engagement was performed under a system of quality management consistent with quality control, independence, and ethical requirements, thereby addressing the requirements of ISAE 3000 (Revised).

Our Conclusion

Engagement Type: Independent reasonable assurance engagement over the BRSR Core indicators / nine attributes as per Annexure I. The engagement was conducted in accordance with ISAE 3000 (Revised). Applicable Criteria: Primary criteria – SEBI BRSR Core framework and Annexure I KPIs (SEBI circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177 dated 20 December 2024). Secondary criteria – GHG Protocol (WRI/WBCSD), applicable to the greenhouse gas attribute. The practitioner applied professional judgment and maintained professional skepticism throughout the engagement, consistent with the requirements of ISAE 3000 (Revised). No opinion is expressed on the effectiveness of internal controls. Internal controls and information systems were considered only to the extent necessary to plan and perform the assurance procedures over the BRSR Core KPIs, and this consideration does not constitute an opinion on the design adequacy or operating effectiveness of those controls.

Disclosures: The 09 attributes as per Annexure I – Format of BRSR Core have been verified within the defined scope of this engagement.

Reasonable Assurance Conclusion: Subject to the inherent limitations described in the 'Limitations' section above (including the use of estimates, sampling, and reliance on ZTL's internal controls and data systems, as a result of which not all misstatements, if any, may be detected); Based on the procedures performed and evidence obtained, in our opinion, the BRSR Core Key Performance Indicators (KPIs) presented in Zen Technologies Limited's Annual Report for the period 01/04/2025 to 31/03/2026 have been prepared, in all material respects, in accordance with the applicable BRSR Core criteria, including the requirements of the SEBI BRSR Core framework and Annexure I KPIs, and fairly represent the nine attributes within the defined scope without material misstatement. A detailed desk review and comprehensive verification of the reported data were conducted for the relevant parameters across both sites within the reporting boundary, in line with the requirements of a reasonable assurance engagement.

Contextual observations on the broader BRSR (reviewed for context only – not part of the reasonable assurance conclusion, which is limited to the nine BRSR Core attributes)

- Governance, leadership and oversight: The messages of top management, the business model to promote inclusive growth and equitable development, action and strategies, focus on services, risk management, protection and restoration of environment, and priorities are disclosed appropriately.
- Connectivity of information: ZTL discloses the 09 attributes as per Annexure I – Format of BRSR Core and their inter-relatedness and dependencies with factors that affect the organization's ability to create value over time.
- Stakeholder responsiveness: The Annual Report covers mechanisms of communication with key stakeholders to identify major concerns to derive and prioritize the short, medium and long-term strategies. The Annual Report provides insights into the organization's relationships (nature and quality) with its key stakeholders. In addition, the Annual Report provides a fair representation of the extent to which the organization understands, takes into account and responds to the legitimate needs and interests of key stakeholders.
- Materiality: The materiality assessment process has been carried out based on the requirements of the BRSR, considering topics that are internal and external to ZTL's range of businesses. Material issues within the 9 attributes and corresponding KPIs as per BRSR requirements are adequately identified and reported. In our view, the BRSR meets the requirements.
- Conciseness: The Report reproduces the requisite information and communicates clear information in as few words as possible. The disclosures are expressed briefly and to the point; sentences, graphs, and pictorial and tabular representations are used. At the same time, due care is taken to maintain continuity of information flow in the BRSR.
- Reliability and completeness: ZTL has established internal data aggregation and evaluation systems to derive the performance. ZTL confirms that all data provided to TUVI has been passed through the QA/QC function. The majority of the data and information was verified by TUVI's assurance team (on a sample basis) during the BRSR verification and found to be fairly accurate. All data is reported transparently, in a neutral tone, and without material error.
- Consistency and comparability: The information presented in the BRSR is on an annual basis and was found to be presented in a reliable and complete manner. Thus, the principle of consistency and comparability is established. Year-on-Year Comparability: TUVI reviewed the reported FY 2025-26 data in the context of prior year (FY 2024-25) disclosures for the key BRSR Core KPIs (GHG emissions, energy consumption, water consumption, and safety indicators). No material inconsistencies in methodology, boundary, or reporting approach were identified that would impair comparability between the two reporting periods. FY 2025-26 represents the first year in which the BRSR Core attributes have been subject to reasonable assurance. Restatement and recalculation policy: in subsequent periods, prior-period figures will be restated where a material error is identified, where there is a change in calculation methodology, emission factors, or reporting boundary, or where required by the applicable SEBI BRSR Core framework,

with the nature and impact of any such restatement disclosed. The assurance does not cover evaluation of any restated values from the previous reporting year.

Independence and Code of Conduct: TUVI follows IESBA (International Ethics Standards Board for Accountants) Code which, adopts a threats and safeguards approach to independence. We recognize the importance of maintaining independence in our engagements and actively manage threats such as self-interest, self-review, advocacy, and familiarity. The assessment team was safeguarded from any type of intimidation. By adhering to these principles, we uphold the trust and confidence of our clients and stakeholders. In line with the requirements of the SEBI [circular SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122, dated 12/07/2023 and Industry Standards on Reporting of BRSR Core, circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177, dated 20/12/2024](#).

TUVI solely focuses on delivering verification and assurance services and does not engage in the sale of service or the provision of any non-audit/non-assurance services, including consulting.

Quality control: The assurance team complies with quality control standards, ensuring that the engagement partner possesses requisite expertise and the assigned team collectively has the necessary competence to perform engagements in reference with standards and regulations. Assurance team follows the fundamental principles of integrity, objectivity, professional competence, due care, confidentiality and professional behavior. In accordance with International Standard on Quality Management (ISQM 1), TUVI maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our Assurance Team and Independence

Each member of the engagement team provided a written confirmation of independence, in accordance with TUVI's independence policy and the IESBA Code, prior to commencement of the engagement. TUV India Pvt. Ltd. (TUVI) is an independent and neutral third-party assurance provider with qualified environmental and social specialists and confirms its independence, impartiality, and objectivity in accordance with ISAE 3000 (Revised) through internal conflict-of-interest checks, adherence to a documented code of ethics, separation of assurance and advisory functions, reviewer oversight, and quality control procedures. TUVI confirms that no non-assurance services were provided to ZTL that could create self-review, advocacy, familiarity, self-interest, or other independence threats, including preparation of BRSR disclosures, ESG strategy development, target setting, ESG data system design, GHG inventory calculations, internal ESG audits, materiality assessments, or KPI improvement advisory services. TUVI further confirms that no engagements during the reporting year compromised its independence, and it was not involved in preparing report content or underlying data, except for this assurance statement, thereby ensuring an objective, unbiased, and transparent assurance process. Rotation and Tenure Policy: In line with best practice and the ISF Guidelines for independence, TUVI maintains a documented engagement partner rotation policy. The lead assurance practitioner for this engagement has not exceeded the maximum tenure threshold prescribed under TUVI's internal quality and independence framework (Maximum of 6 years as team leader, Three consecutive years' break after consequent 6 years of team leadership). TUVI's independence and quality control procedures are reviewed periodically by the internal technical review function. The assurance team comprised qualified professionals with multidisciplinary competencies, including: (i) GHG accounting and emissions verification; (ii) ESG and sustainability reporting frameworks; (iii) social compliance and human rights due diligence; and (iv) non-financial assurance methodology in accordance with ISAE 3000 (Revised). This cross-disciplinary composition ensured that the assurance conclusions are supported by adequate technical expertise.

Independent Auditor's Report

TO THE MEMBERS OF ZEN TECHNOLOGIES LIMITED

Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the accompanying standalone financial statements of ZEN TECHNOLOGIES LIMITED (the "Company"), which comprise the Standalone Balance Sheet as at 31 March 2026, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), Standalone Statement of Cash flows and the Standalone Statement of Changes in Equity for the year then ended, and Notes to the Standalone Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2026, its profit including total other comprehensive income, its cashflows and changes in equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant

to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

Key Audit Matters	How our audit addressed the key audit matter
Revenue from operations (As described in Note 26 & 42 of the standalone financial statements)	
During the year, the Company's revenue from operations decreased by 54.47%. Revenue is recognized when control of the underlying products has been transferred and the performance obligations have been satisfied.	Our audit procedures included but were not limited to, the following:
The terms of sales arrangements create complexity and require significant judgments relating to identification of distinct performance obligations, determination of transaction price of identified performance obligation, the appropriateness of revenue recognition on satisfaction of the performance obligations.	a) We have evaluated the appropriateness of the Company's accounting policies for revenue recognition and assessed compliance with relevant accounting standards.
Due to the judgment involved in determining whether transfer of control of goods or services have occurred for the revenue recognized, this matter is considered as Key Audit Matter	b) We have reviewed the terms of significant sales arrangements to understand the timing of transfer of control, distinct performance obligations in these contracts and delivery specifications.
	c) We have assessed the design and operating effectiveness of key controls over revenue recognition processes, including controls over the timing of transfer of control and the satisfaction of performance obligations.
	d) We have performed substantive testing on a sample of revenue transactions by inspecting supporting documentation, such as contracts, invoices, and delivery notes, to verify the timing of revenue recognition.
	e) We have tested on sample basis whether revenue transactions near to the reporting date have been recognised in the appropriate period by comparing the transactions selected with relevant underlying documentation as per the terms of delivery specified in the contract.

KEY AUDIT MATTERS (Contd.)

Key Audit Matters	How our audit addressed the key audit matter
	f) We have reviewed management's judgments and estimates in determining the transfer of control of goods or services for the satisfaction of performance obligations, including any contractual terms that could impact the timing of revenue recognition. g) We have tested on a sample basis Managements working for recognition and measurement of performance obligations and related variable considerations. h) We have evaluated the adequacy of disclosures provided under the revenue standard and assessed the completeness and mathematical accuracy to ensure they provide relevant information about the Company's revenue recognition policies and judgments.
Assessment of warranty provision (As described in Note 34 of the standalone financial statements)	
The Company provides warranties in terms of which it is obligated to provide repairs/ replacements of the products or components over the contractual warranty period where they have failed to perform as per the technical specifications. These assurance-type warranties are accounted for under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets. The company's management makes warranty estimation which are based on historical information on the nature, frequency and average cost of warranty claims and also management estimates regarding possible future outflow on servicing the customers for any corrective action in respect of product failure. Owing to past trend of reversal of excess provision resulting from high estimation uncertainty that requires significant management and auditor judgment, this matter is considered to be a key audit matter for the current year audit.	Our audit procedures included but were not limited to, the following: a) Evaluated any changes made to the provision policy and computation model. b) Assessed and challenged the assumptions and recomputed the inputs used in warranty provision computation considering business environment in which the company operates. c) Obtained understanding of the contract terms and possible future outflows to evaluate the adequacy of the provision estimated by the management. d) Evaluated the method used by management in making the accounting estimates by verifying source data for various input factors such as historical trend, average historical failure rate, estimation of expected pattern of future claims and estimated replacement cost. e) Verified the computation of provision for warranty costs including testing of completeness, arithmetical accuracy and validity of the data used in the warranty calculations. f) Evaluated the adequacy of disclosures relating to the estimation of Product warranty provisions.
Assessment of impairment of investments in and unsecured loans given to subsidiaries and associates (As described in Note 5 and 6 of the standalone financial statements)	
The carrying value of investments in and unsecured loans given to subsidiaries and associates is ₹29,192.94 Lakhs. During the year ended March 31, 2026, the Company has recognised an impairment allowance of ₹37.70 Lakhs in respect of investments given to Zen Medical Technologies Private Limited, as described in Note 34 to the standalone financial statements. The Company performs annual assessment to identify any indicators of impairment. Based on internal and external factors considered, where such evidence exists, impairment loss is determined and recognised in accordance with Ind AS 36.	Our audit procedures included but were not limited to, the following: a) Evaluated the design, tested the implementation and operating effectiveness of the internal controls over impairment assessment process, including those over the forecasts and the selection of the appropriate discount rate b) Evaluated the impairment indicator assessment performed by the Company considering quantitative and qualitative factors c) Performed sensitivity analysis around these key estimates to ascertain the extent of change in those assumptions that either individually or collectively would be required for the investments and loans tested were to be impaired d) Tested the mathematical accuracy of the model to conclude that the model is accurately calculating the value in use e) Evaluated the adequacy of disclosures made in the Standalone Financial Statements.

KEY AUDIT MATTERS (Contd.)**Key Audit Matters****How our audit addressed the key audit matter**

The Company's evaluation of impairment of its investments involves comparison of their recoverable value to their corresponding carrying values. The Company used the discounted cash flow model to estimate recoverable values, which requires management to make estimates and assumptions related to forecasts of future Revenues, operating margins, and discount rates. Changes in these assumptions could have a significant impact on either the recoverable value, the amount of any impairment charge, or both.

We have considered this as a Key Audit Matter due to the materiality of the investment and loans, and because the Company's assessment of the recoverable values involves judgements around the future results of the business and the discount rates applied to future cash flow forecasts.

OTHER INFORMATION

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and auditor's reports thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and

application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are also responsible for overseeing the Company's financial reporting process of the company.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive

to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended 31 March 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

We did not audit the financial statements and other financial information of a branch included in the accompanying

standalone financial statements of the Company whose financial statements reflect company's share of total assets of Nil as at March 31, 2026, Company's share of total revenue of Nil, Company's share of total net profit after tax/(loss) of ₹26.03 Lakhs and Company's share of total comprehensive income/(loss) of ₹36.35 Lakhs for the year ended on that date, as considered in the standalone financial statements. This financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the standalone financial statements, in so far as it relates to the amounts and disclosures included in respect of branch is based solely on the reports of the other auditors.

Two branches are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and one of which has been audited by other auditor under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such branches located outside India from accounting principles generally accepted in their respective country to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such branches located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

Our opinion above on the standalone financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of other auditors.

Our opinion is not modified in respect of these matters.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Annexure 'A'

Referred to in paragraph 2 under the heading 'Report on Other Legal and Regulatory Requirements' of our report to the Members of Zen Technologies Limited of even date

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- i. (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment, capital work-in-progress and relevant details of right-of-use assets.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a program of physical verification to cover all the items of Property, Plant and Equipment, capital work-in-progress and right-of-use assets in a phased manner over a period of every three years which, in our opinion is reasonable having regard to the size of the Company and the nature of its assets.
- (c) Based on our examination of the registered sale deed provided to us, we report that, the title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in property, plant and equipment are held in the name of the Company as at the balance sheet date.
- ii. a) The management has conducted physical verification of inventory at reasonable intervals during the year. In our opinion and based on the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.
- b) As disclosed in Note 51 to the standalone financial statements, the Company has been sanctioned working capital limits in excess of ₹ five crores from banks during the year on the basis of security of current assets of the Company. Based on the records examined by us in the normal course of audit of the financial statements, the quarterly returns/statements filed by the Company with such bank are in agreement with the unaudited books of accounts of the Company and no material discrepancies have been observed.

Annexure 'B'

Referred to in paragraph 1(g) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Zen Technologies Limited of even date

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of sub section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls with reference to standalone financial statements of ZEN TECHNOLOGIES LIMITED (the "Company") as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

The Management of the Company is responsible for establishing and maintaining Internal Financial Controls Over Financial Reporting based on the internal control with reference to Standalone Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's Internal Financial Controls Over Financial Reporting with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of Internal Financial Controls Over Financial Reporting with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls Over Financial Reporting with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of Internal Financial Controls Over Financial Reporting with reference to these standalone financial statements and their operating effectiveness. Our audit of Internal Financial Controls Over Financial Reporting with reference to standalone financial statements included

obtaining an understanding of Internal Financial Controls Over Financial Reporting with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's Internal Financial Controls Over Financial Reporting with reference to these standalone financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO THESE STANDALONE FINANCIAL STATEMENTS

A company's Internal Financial Controls Over Financial Reporting with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's Internal Financial Controls Over Financial Reporting with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

Because of the inherent limitations of Internal Financial Controls Over Financial Reporting with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements

due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls Over Financial Reporting with reference to standalone financial statements to future periods are subject to the risk that the Internal Financial Controls Over Financial Reporting with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, adequate Internal Financial Controls Over Financial Reporting with reference to standalone financial statements and such Internal Financial Controls Over Financial Reporting with reference to standalone financial statements were operating effectively as at 31 March 2026, based on the criteria for Internal Financial Controls Over Financial Reporting with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes to the Standalone Financial Statements

For the year ended March 31 2026

(All amounts in Indian Rupees in lakhs, unless otherwise stated)

1. CORPORATE INFORMATION

Zen Technologies Limited is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The address of its corporate office is at B-42, Industrial Estate, Sanathnagar, Hyderabad-500018, Telangana, India. The Equity Shares of the Company are listed on BSE Limited (BSE) and National Stock Exchange of India Limited (NSE) in India.

The company is principally engaged in design, development and manufacture of Training Simulators, Anti Drone Systems and operational equipment for Para-military Forces, Armed Forces, Security Forces, Police and Government Departments. The company caters to both domestic and international market. The Company's manufacturing unit is located at Hardware Park, Maheswaram Mandal, Telangana, India.

The standalone financial statements for the year ended 31 March 2026, were approved by the Board of Directors and authorised for issue in its meeting held on 01 May 2026.

2. MATERIAL ACCOUNTING POLICIES

(i) Statement of compliance & Basis for preparation

These standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (referred to as Ind AS) as notified under the Companies (Indian Accounting Standards Rules), 2015 read with Section 133 of the Companies Act, 2013 ("the Act") as amended from time to time.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(ii) Functional and presentation currency

These standalone financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All financial information presented in Indian rupees have been rounded-off to two decimal places to the nearest lakhs unless otherwise stated.

(iii) Basis of measurement

The standalone financial statements have been prepared on the historical cost basis except for the following assets and liabilities which have been measured at fair value:

- **Certain financial assets and liabilities:** Measured at fair value
- **Net defined benefit (asset)/liability:** Fair value of plan assets less present value of defined benefit obligations
- **Borrowings:** Amortised cost using effective interest rate method

(iv) Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and reported amounts of revenues and expenses during the period and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statement. Accounting estimates could change from period to period. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed by the Management on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

(v) Measurement of fair values

Accounting policies and disclosures require measurement of fair value for both financial and non-financial assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in the measuring fair values is included in the following notes:

- **Note 43:** Financial Instruments

(vi) Current and non-current classification

The Schedule III to the Act requires assets and liabilities to be classified as either current or non-current. The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

Assets

An asset is classified as current when:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is expected to be realised within twelve months from the reporting date;
- it is held primarily for the purposes of being traded; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non current.

Liabilities

A liability is classified as current when:

- it expects to settle the liability in its normal operating cycle;
- it is due to be settled within twelve months from the reporting date;
- it is held primarily for the purposes of being traded;
- the Company does not have an unconditional right to defer settlement of liability for at least twelve months from the reporting date.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

Operating Cycle

Operating cycle is the time between the acquisition of assets for processing and realisation in cash or cash equivalents. The Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

3. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION

A. Revenue from contracts with customers

Revenue from contracts with customers is recognised when the Company satisfies a performance obligation by transferring control of a promised goods or service to the customer. Control is transferred when the customer has the ability to direct the use of and obtain substantially all of the benefits from the goods or service.

Revenue from sale of products

Revenue from the sale of products is recognised at a point in time when control of the goods is transferred to the customer, which typically occurs upon delivery in accordance with the terms of the contract. Indicators of transfer of control include,. The indicators for transfer of control include:

- the Company has transferred the physical possession of the product
- the customer has a legal title to the product
- the customer has accepted the product
- when the Company has a present right to payment for the product
- the significant risks and rewards of ownership of the product has been transferred to the customer.

Revenue is measured at the transaction price, which is the amount of consideration the Company expects to be entitled to in exchange for transferring goods or services.

Multiple performance obligations

In case where the contracts involve multiple performance obligations, the Company allocates the transaction price to each performance obligation on the relative stand-alone selling price basis. In case of a contract, where separate fee for Annual Maintenance Contracts (AMC) or any other separately identifiable component is not stipulated, the Company applies the recognition criteria to separately identifiable components (sale of goods and AMC, etc.) of the transaction and allocates the revenue to those separate components based on stand-alone selling price.

In cases where the AMC or any other separately identifiable component is stipulated and price for the same agreed separately, the Company applies the recognition criteria to separately identified components (sale of goods and installation and commissioning, etc.) of the transaction and allocates the revenue to those separate components based on their stand-alone selling price.

If the stand-alone selling price is not available the Company estimates the stand alone selling price.

Revenue from rendering of services

As outlined above, in cases where contracts include multiple performance obligations, such as the sale of goods and Annual Maintenance Contracts (AMC), the transaction price is allocated to each component based on their relative stand-alone selling prices.

Revenue attributable to AMC services is recognised over time, as the customer simultaneously receives and consumes the benefits of the service throughout the contract period. The Company applies the output method to measure progress towards complete satisfaction of the performance obligation, as the passage of time provides a reliable basis for depicting the transfer of services to the customer.

Measurement of Trade Receivables

Trade receivables arising from such contracts are recognised at the transaction price as determined above, consistent with the Company's accounting policy on financial assets (refer Note 3 (E)– Financial Instruments).

B. Recognition of other income

i) Interest income

Interest income is recognized on a time proportion basis considering the carrying amount and the effective interest rate. Interest income is included under the head 'Other income' in the statement of profit and loss.

ii) Export Incentives

The company receives export incentives which do not fall under the scope of Ind AS 115 and are accounted for in accordance with the provisions of Ind AS 20 considering such incentives as Government Assistance. Accordingly government grant relating to Income is recognised on accrual basis when the relevant expense has been charged to statement of Profit and Loss .

iii) Other Income

Other income not specifically stated above is recognised on accrual basis.

C. Borrowing cost

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition, construction or production of an asset which necessarily take a substantial period of time to get ready for their intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

D. Foreign currency transactions and translation

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date (closing rate). Non-monetary items denominated in foreign currencies which are carried at historical cost are reported using the exchange rate at the date of the transaction. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in the statement of profit and loss in the period in which they arise.

The assets and liabilities of the foreign branch are translated into functional currency at the rate of exchange prevailing at the reporting date and their statements of profit and loss are

translated at average exchange rates. The exchange differences arising on translation for consolidation are recognised in other comprehensive income.

In case of an asset, expense or income where a monetary advance is paid/received, the date of transaction is the date on which the advance was initially recognized. If there were multiple payments or receipts in advance, multiple dates of transactions are determined for each payment or receipt of advance consideration.

E. Financial instruments

A financial instrument is any contract that gives rise to a Financial Asset of one entity and Financial Liability or Equity instrument of another entity.

Financial assets

i) Initial Recognition and measurement

The Company recognises a financial asset or a financial liability in its balance sheet when, and only when, it becomes party to the contractual provisions of the instrument. Financial assets are classified, at initial recognition, as measured at:

- Amortised Cost
- Fair Value through Other Comprehensive Income (FVTOCI), or
- Fair Value through Profit or Loss (FVTPL)

The classification of financial assets at initial recognition depends on:

- (a) The Company's business model for managing the financial assets, and
- (b) The contractual cash flow characteristics of the financial asset.

Except for trade receivables that do not contain a significant financing component, financial assets are initially measured at fair value, plus, in the case of financial assets not at FVTPL, transaction costs directly attributable to their acquisition. Trade receivables are initially recognised at the transaction price as determined in accordance with the Company's revenue recognition policy (refer Note 3A – Revenue from Contracts with Customers).

ii) Classification and subsequent measurement

The subsequent measurement of financial assets depends on their classification, as follows:

(i) Financial Assets at Amortised Cost

Financial assets are measured at amortised cost if both of the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- (b) The contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

These assets are subsequently measured at amortised cost using the effective interest rate (EIR) method, less any impairment loss. Interest income and impairment are recognised in profit or loss.

(ii) Financial Assets Measured at Fair Value through Other Comprehensive Income (FVTOCI) – Debt Instruments

Financial assets are classified at FVTOCI when they are held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets, and the SPPI test is met.

Subsequent to initial recognition, these financial assets are measured at fair value, with changes in fair value recognised in other comprehensive income (OCI). Upon derecognition, the cumulative gain or loss recognised in OCI is reclassified to profit or loss.

(iii) Financial Assets Measured at Fair Value through Other Comprehensive Income (FVTOCI) – Equity Instruments

For equity investments not held for trading, the Company may make an irrevocable election at initial recognition to present changes in fair value in OCI. This election is made on an instrument-by-instrument basis.

Subsequent changes in fair value are recognised in OCI. Unlike debt instruments, there is no recycling of cumulative gains or losses to profit or loss on derecognition. Dividends from such investments are recognised in profit or loss when the right to receive payment is established, provided they represent a return on investment and not a recovery of cost.

(iv) Financial Assets at Fair Value through Profit or Loss (FVTPL)

Financial assets are classified as FVTPL if they:

- (a) Do not meet the criteria for amortised cost or FVTOCI; or
- (b) Are designated at FVTPL at initial recognition to eliminate an accounting mismatch.

Subsequent changes in fair value are recognised in profit or loss.

Reclassification

Financial assets are not reclassified subsequent to their initial recognition, except when the Company changes its business model for managing the assets. Any such reclassification is applied prospectively from the reclassification date; prior periods are not restated.

SPPI Test

The SPPI test is performed at the instrument level to determine whether the contractual cash flows represent solely payments of principal and interest. For this purpose, “interest” is defined as consideration for the time value of money, credit risk, and other basic lending risks and costs, along with a profit margin.

Business Model Assessment

The Company’s business model refers to how financial assets are managed to generate cash flows—whether through collecting contractual cash flows, selling financial assets, or both. This assessment is determined at a portfolio level and reflects how groups of financial assets are collectively managed to achieve a specific business objective.

iii) De-recognition

A financial asset is derecognised when:

- (a) The contractual rights to receive the cash flows from the asset have expired, or
- (b) The Company has transferred its contractual rights to receive the cash flows from the asset, and either:
 - (i) it has transferred substantially all the risks and rewards of ownership of the asset; or
 - (ii) it has neither transferred nor retained substantially all the risks and rewards of ownership, but has relinquished control of the asset.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the asset continues to be recognised on the balance sheet.

Where the Company neither transfers nor retains substantially all the risks and rewards of ownership but retains control of the transferred asset, the asset is recognised to the extent of the Company’s continuing involvement.

Financial Liabilities

i) Initial Recognition and measurement

Financial liabilities are classified at initial recognition as:

- Financial liabilities at fair value through profit or loss (FVTPL),
- Financial liabilities measured at amortised cost (e.g., loans and borrowings, trade and other payables), or
- Derivatives designated as hedging instruments in an effective hedge, where applicable.

All financial liabilities are initially recognised at fair value. In the case of financial liabilities measured at amortised cost, initial recognition includes transaction costs that are directly attributable to the issue. The Company’s financial liabilities primarily include trade and other payables, loans and borrowings, including bank overdrafts.

ii) Subsequent measurement:

Subsequent to initial recognition, financial liabilities are measured as follows:

(a) Financial Liabilities at Fair Value through Profit or Loss (FVTPL)

This category includes:

- Financial liabilities held for trading (e.g., derivatives not designated as hedging instruments); and
- Financial liabilities designated as FVTPL at initial recognition to eliminate or significantly reduce an accounting mismatch.

Gains and losses on financial liabilities held for trading are recognised in the statement of profit and loss. For designated liabilities, changes in fair value attributable to the Company’s own credit risk are recognised in OCI. These amounts are not subsequently reclassified to profit or loss. All other changes in fair value are recognised in profit or loss. The Company has not designated any financial liability as measured at FVTPL.

(b) Financial Liabilities at Amortised Cost

This category includes interest-bearing loans and borrowings that are subsequently measured using the effective interest rate (EIR) method. Gains and losses are recognised in profit or loss upon derecognition or through the amortization process. Amortised cost is calculated by considering any premium or discount on acquisition and fees or costs that are an integral part of the EIR. The amortization is recognised under finance costs in the statement of profit and loss.

iii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged, cancelled, or expires. If an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is accounted for as a derecognition of the original liability and recognition of a new one. The difference in the carrying amounts is recognised in profit or loss.

iv) Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if there is a currently and legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v) Compulsorily Convertible Debentures

Compulsorily Convertible Debentures are separated into liability and equity components based on the terms of the instrument in accordance with Ind AS 32. At initial recognition:

- The liability component is measured at the fair value of a comparable instrument without a conversion option and classified as a financial liability measured at amortised cost.
- The residual amount is allocated to the equity component and recognised in equity, provided it meets the "fixed-for-fixed" conversion criterion.

Transaction costs are allocated to liability and equity components in proportion to their respective initial carrying amounts. The conversion option is not remeasured subsequently.

vi) Reclassification of financial Instruments

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. If the Company reclassifies financial assets, it applies the reclassification prospectively.

F. Property, plant and equipment**i) Recognition and initial measurement**

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses, if any. Historical cost includes:

- Purchase price (net of trade discounts and rebates),
- Import duties and non-refundable taxes,
- Directly attributable costs necessary to bring the asset to its intended working condition for its intended use, and

- Estimated costs of dismantling, removing the item, and restoring the site, where an obligation exists (measured at present value in accordance with Ind AS 37).

Freehold land is not depreciated and is carried at historical cost. Where significant components of an item of property, plant and equipment have different useful lives, they are accounted for separately. If an item of PPE is acquired on deferred credit terms (i.e. with a significant financing benefit), it is recognised at its cash price equivalent. The difference between the total payment and cash price is recognised as interest over the deferred period.

ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost can be measured reliably. All other repairs and maintenance are charged to profit or loss as incurred. If a component accounted for separately is replaced, the carrying amount of the replaced component is derecognised.

iii) Depreciation

Depreciation is provided on a straight-line basis over the estimated useful lives of the respective assets. The useful lives are determined in accordance with the manner prescribed under Schedule II to the Companies Act, 2013. Depreciation is charged from the date the asset is available for use and is calculated on a pro-rata basis for assets acquired or disposed of during the year.

The Company, based on technical evaluation and management judgement, has determined useful lives for certain assets that are different from those prescribed in Schedule II. These useful lives reflect the period over which the assets are expected to be used and are reviewed at least annually. Depreciation is not provided on freehold land.

Depreciation on buildings constructed on leasehold land is charged over the shorter of the lease term or the estimated useful life of the building. For leasehold improvements, depreciation is charged over the shorter of the useful life, typically 10 years, or the lease term including expected renewals.

Asset category	Useful life as per Schedule II	Management estimate of useful life
Buildings (other than factory buildings)	60 years	60 years
Factory buildings	30 years	30 years
Plant and equipment	15 years	10-15 years
Furniture and fixtures	10 years	5-10 years
Motor vehicles	10 years	10 years
Electrically operated vehicles	8 years	8 years
Testing equipment	10 years	10 years
Office equipment	5 years	5 years
Demo equipment	5 years	5 years
Computers		
- Servers and networks	6 years	6 years
- End user devices such as laptops, etc.	3 years	3-5 years

iv) Capital Work in Progress (CWIP) and Capital advances

Capital Work-in-Progress includes tangible assets that are under construction or development and are not yet ready for their intended use at the balance sheet date. These include expenditure incurred on assets that are in the course of construction, installation, testing, or commissioning. CWIP is carried at cost, which comprises:

- directly attributable acquisition and construction costs,
- borrowing costs eligible for capitalisation under Ind AS 23, and
- other expenses directly attributable to bringing the asset to its intended use.

No depreciation is charged on such assets until they are available for use. Once the asset is ready for its intended use, the accumulated cost is transferred to the appropriate category of property, plant and equipment and depreciation commences from the date the asset is available for use.

v) Impairment of assets

The Company assesses at each reporting date whether there is any indication that an asset, or a group of assets (cash-generating unit), may be impaired in accordance with Ind AS 36. If such indication exists, the recoverable amount of the asset is estimated. An impairment loss is recognised when the carrying amount exceeds the recoverable amount. The recoverable amount is the higher of:

- Fair value less costs of disposal, and
- Value in use (present value of future expected cash flows).

Impairment losses are recognised in the Profit and Loss Account. Reversal of impairment losses is recognised only if there has been a change in the estimates used to determine the recoverable amount.

vi) Derecognition

An item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising on derecognition is recognised in the Profit and Loss Account in the period of derecognition. The gain or loss is measured as the difference between the net disposal proceeds and the carrying amount of the asset.

G. Intangible assets

i) Recognition and initial measurement

Intangible assets are recognised only if:

- it is probable that the expected future economic benefits attributable to the asset will flow to the Company, and
- the cost of the asset can be measured reliably.

Intangible assets that are acquired separately are initially measured at cost. The cost comprises the purchase price and any directly attributable cost of preparing the asset for its intended use. Internally generated intangible assets, including research costs, are expensed as incurred, except for development costs which are capitalised if the recognition criteria under Ind AS 38 are met.

Intangible Assets that are not yet ready for their intended use as at the Balance Sheet date are classified as "Intangible Assets under Development"

ii) Subsequent measurement

After initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Subsequent expenditure is capitalised only when it enhances the future economic benefits embodied in the specific asset. All other expenditure is expensed as incurred.

iii) Amortization

Amortization of intangible assets is recognised in the Profit and Loss Account on a straight-line basis over the asset's estimated useful life. The method and useful life are reviewed at each financial year-end and adjusted if necessary.

The estimated useful lives are as follows:

- Software - 3 years

Amortization begins when the asset is available for use and continues until the asset is derecognised or fully amortised, whichever is earlier.

iv) Derecognition

An intangible asset is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset is recognised in the Profit and Loss account in the period the asset is derecognised.

H. Inventories

Inventories consist of raw materials, stores and spares, work-in-progress, and finished goods, and are measured at the lower of cost or net realisable value. However, raw materials that are used in the production process are not written down below cost if the finished goods resulting from their use are expected to be sold at or above cost.

The cost of all categories of inventories is determined using the weighted average method. Cost includes expenditures incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing the inventories to their existing location and condition. In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads, allocated based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

I. Impairment of assets

i) Impairment of financial instruments

The Company recognises loss allowances for expected credit losses (ECLs) on financial assets measured at amortised cost, including trade receivables, in accordance with Ind AS 109 – Financial Instruments. At each reporting date, the Company assesses whether a financial asset is credit-impaired, which is defined as a situation where one or more events have a detrimental impact on the estimated future cash flows of the asset.

Objective evidence of credit impairment includes:

- significant financial difficulty of the borrower or issuer,
- breach of contract (e.g., default or delay in payments),
- high probability of bankruptcy or financial reorganisation of the borrower,
- disappearance of an active market due to financial distress.

ECL measurement

The Company measures expected credit losses (ECLs) on financial assets based on the extent of credit risk at the reporting date. For trade receivables, the Company always recognises loss allowances based on lifetime expected credit losses. This approach does not require tracking changes in credit risk after initial recognition. For other financial assets measured at amortised cost, the Company assesses credit risk at each reporting date and recognises loss allowances based on either:

- 12-month expected credit losses, if there has not been a significant increase in credit risk since initial recognition, or
- Lifetime expected credit losses, if credit risk has increased significantly or if the asset is credit-impaired.

The Company evaluates whether credit risk has increased significantly using reasonable and supportable information, including forward-looking indicators, historic loss patterns, and internal risk ratings.

Measurement of expected credit losses

ECLs are probability-weighted estimates of credit losses, calculated as the present value of expected shortfalls between contractual cash flows and those the Company expects to receive.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Presentation in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

ii) Impairment of non-financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the Company operates, or for the market in which the asset is used.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

The Company's corporate assets (e.g., central office building for providing support to various CGUs) do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss.

In respect of assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss has been recognised.

J. Employee benefits

(i) Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured on an undiscounted basis at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme and other funds. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in statement of profit and loss in the periods during which the related services are rendered by employees.

(iii) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The liability or asset recognised in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by a qualified actuary using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

The Company recognizes actuarial gains/(losses) on defined benefit plans in the balance sheet with a corresponding debit or credit to other comprehensive income in the period in which they occur.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(iv) Termination benefits

Termination benefits are recognized as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

(v) Other long-term employee benefits

The Company's net obligation in respect of other long term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognized in the statement of profit and loss in the period in which they arise.

(vi) Employee share based payments

Equity settled transactions

The Company provides share-based payment benefits to employees through stock option plans governed by employee stock option schemes.

Equity-settled share-based payments are accounted for in accordance with Ind AS 102 – Share-Based Payment. The fair value of stock options granted is determined on the grant date using an appropriate option pricing model (such as the Black-Scholes model) and is recognised as an employee benefit expense in the Statement of Profit and Loss over the vesting period, with a corresponding credit to Share-Based Payment Reserve under equity.

The expense is recognised based on the Company's estimate of the number of equity instruments that will ultimately vest. This estimate is revised at each reporting date, and any impact of the revision is recognised in the Statement of Profit and Loss, with a corresponding adjustment to equity.

If the terms of an equity-settled award are modified, the incremental fair value, if any, is recognised over the remaining vesting period. In case of forfeiture (i.e., if the employee leaves before vesting), the cumulative expense recognised is reversed in the Statement of Profit and Loss. If the options lapse or expire unexercised after vesting, the corresponding balance in Share-Based Payment Reserve is transferred within equity (e.g., to Retained Earnings or General Reserve).

ESOP trust and treasury shares

The Company administers its employee share-based payment schemes through an Employee Welfare Trust (EWT) for providing share-based payment to employees. The Company uses EWT as vehicle for distributing shares to employees under the Employee Stock Option Plan-2021. The EWT purchase shares of the company from the secondary market, for giving shares to employees.

The Company treats EWT as its extension and shares held by EWT are treated as treasury shares. Own equity instruments that are held by the trust are recognised at cost and deducted from equity. No gain or loss is recognised in the statement of profit and loss on the purchase, sale, issue, or cancellation of the Company's own equity instruments. Share options whenever exercised, would be settled from such treasury shares.

K. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

The company recognises lease payments from operating leases as income on either a straight-line basis or another systematic basis, if required.

Lease modifications, if any are accounted as a separate lease if the recognition criteria specified in the standard are met.

Company as a Lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the

Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

Right of use asset

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Leasehold Land	30 to 33 years
Office Building and Guest House	2 to 10 years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (v) Impairment of Assets.

The Company's lease arrangements do not contain an obligation to dismantle and remove the underlying asset, restore the site on which it is located or restore the underlying asset to a specified condition.

Lease Liability

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments).

In the Balance Sheet, the ROU and lease liabilities are presented separately. In the Statement of Profit and Loss, interest expense on lease liabilities are presented separately from the depreciation charge for the ROU. Interest expense on the lease liability is a component of finance costs, which are presented separately in the Statement of Profit or Loss.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of vehicles, and office buildings (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term or another systematic basis, if required.

L. Income Taxes

Taxes comprises Current Tax, Deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

(i) Current tax

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess/ (shortfall) of the Company's income tax obligation for the period are recognised in the Balance Sheet under assets as income tax assets/under current liabilities as current tax liabilities.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and considers whether it is probable that a taxation authority will accept an uncertain tax treatment.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

(ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; and
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future;

Deferred tax assets are recognised for deductible temporary differences, the carryforwards of unused tax credits and unused tax losses. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/reduced to the extent that

it is probable/no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Company offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

M. Provision, contingent liabilities and contingent assets

Provision

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined based on the best estimate required to settle the obligation at the reporting date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate the risks specific to the liability. The unwinding of the discount is recognised under finance costs. Expected future operating losses are not provided for. Provision in respect of loss contingencies relating to claims, litigations, assessments, fines and penalties are recognised when it is probable that a liability has been incurred and the amount can be estimated reliably.

Contingent liabilities and contingent assets

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are not recognised in financial statement. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

Contingent Liabilities/Assets to the extent the Management is aware, are disclosed by way of notes to the financial statements.

N. Government grants

Recognition and measurement

Grants & Subsidies received from the Governments are recognised only when there is reasonable assurance that:

- The company will comply with the conditions attached to the grant.
- There is a reasonable certainty that the grant will be received.

Government grants related to assets are treated as deferred income and are recognized in net profit in the statement of Profit & Loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in net profit in the Statement of Profit & Loss over the periods necessary to match them with the related costs which they are intended to compensate.

When loans or similar assistance are provided by Governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a Government grant. The loan or assistance is initially recognized and measured at fair value and the Government grant is measured as the difference between the fair value of the loan and the proceeds received. It is recognized as deferred income and released to statement of Profit & Loss in proportionate over the loan tenure and presented within other income. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

O. Earnings per share

Basic Earnings Per Share ('EPS') is computed by dividing the net profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period excluding the treasury shares in accordance with Ind AS 33 Earnings per share.

Diluted earnings per share is computed by dividing the net profit by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and that either reduces earnings per share or increases loss per share are included. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for the share splits.

P. Statement of cash flow

Cash flows are reported using the indirect method, whereby net profit/(loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

Q. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts and Cash Credit that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows. Whereas they are classified as borrowings under current liabilities in the balance sheet.

R. Investments in subsidiaries and associates

In the standalone financial statements, investments in subsidiaries and associates are carried at cost, less any accumulated impairment losses.

These investments are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If such indications exist, the investments are tested for impairment in accordance with Ind AS 36 – Impairment of Assets. Any impairment loss is recognised in the Statement of Profit and Loss.

Upon disposal of an investment, the difference between the net disposal proceeds and the carrying amount of the investment is recognised in the Statement of Profit and Loss.

S. Research and development costs (product development)

Research expenditure is recognized as an expense when it is incurred. Development expenditure on an individual project are recognised as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale.
- Its intention to complete and its ability and intention to use or sell the product.
- How the asset will generate future economic benefits.
- The availability of resources to complete the asset.
- The ability to measure reliably the expenditure during development.

Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognized as an expense when it is incurred.

Items of property, plant and equipment and acquired Intangible Assets utilized for Research and Development are capitalized and depreciated in accordance with the policies stated for Property, Plant and Equipment and Intangible Assets.

T. Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

U. Cash dividend to equity holders

The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is

authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in other equity.

V. Errors and Estimates

The Company revises its accounting policies if the change is required due to a change in Ind AS or if the change will provide more relevant and reliable information to the users of the financial statements. Changes in accounting policies are applied retrospectively, unless it is impracticable to apply.

A change in an accounting estimate that results in changes in the carrying amounts of recognised assets or liabilities or to statement of profit and loss is applied prospectively in the period(s) of change.

W. Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31 March, 2026, the amendments to the standards that are notified by the MCA, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company will adopt these amendments to the standards, when they become effective.

Standards notified but not yet effective

The new and amended standards that are notified by the MCA, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company will adopt these new and amended standards, when they become effective.

Amendments to Ind AS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants and Ind AS 10 - Events after the Reporting Period.

Ind AS 10 has been amended to remove the previous treatment under which a lender's post reporting date waiver - granted before the financial statements were approved for issue — of a breach of a material covenant in a long-term loan arrangement that occurred on or before the end of the reporting period, resulting in the liability becoming payable on demand at the reporting date, was regarded as an adjusting event.

For annual reporting periods beginning on or after 1 April, 2026, any breach of a covenant — whether material or immaterial — occurring on or before the reporting date will, in accordance with Ind AS 1, require the related liability to be classified as current, unless the lender has granted a waiver of the breach on or before the reporting date and has agreed not to demand repayment for at least 12 months after the reporting date as a consequence of the breach. Such a waiver shall be treated as an adjusting event.

Profit or loss section		
Contribution to provident fund recognised as expense (Note 31)	93.80	85.99

(b) Defined benefit plan

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of continuous service is eligible to receive gratuity calculated at 15 days of last drawn basic salary for each completed year of service. The scheme is funded through a qualifying insurance policy.

Effective 21 November 2025, The Government of India has consolidated multiple existing labour legislations into a unified framework comprising four Labour codes collectively referred to as the 'New Labour Codes'. Under Ind AS 19, changes to employee benefit plans arising from legislative amendments constitute a plan amendment, requiring recognition of past service cost immediately in the statement of profit and loss.

The company has assessed the impact of the labour codes on its employee benefit obligations based on the provisions notified and the current employee compensation structure. Based on such assessment, the company has concluded that the implementation of the labour codes does not result in any material impact on the employee benefit obligations or the financial statements for the current reporting period. The company will continue to evaluate the impact of any future amendments, notifications or rules issued under the labour codes and account for the same, if any, in the period in which such changes become effective.

The following table provides the components of net defined benefit expense recognised in the Statement of Profit and Loss and the funded status and amounts recognised in the balance sheet towards the gratuity plan:

A. Satisfaction of performance obligation

- Revenue from the sale of products is recognised at a point in time when control of the goods is transferred to the customer, which typically occurs upon delivery in accordance with the terms of the contract.
Revenue attributable to AMC services is recognised over time, as the customer simultaneously receives and consumes the benefits of the service throughout the contract period.
- Company's Contract normally do not contain significant financial component and any advance payment received and/or amount retained by customer is with intention of protecting either parties to the contract.
- Variable consideration primarily consist of liquidated damages. The amount of revenue recognised in respect of the same is determined based on the methodology specified in the contract. The amount is recognised as revenue based on contractual terms.
- The company's turnover mainly includes supply of training & counter drone solutions and other operational equipment including Annual Maintenance Contracts (AMC).
- Warranties provided are primarily in the nature of performance warranties. If the terms of contract require the company to provide the customer with a service in addition to the assurance that the product complies with agreed-upon specification, the Company accounts for the promised warranty as a performance obligation.
- In case of AMC contracts, output method is used to recognise revenue where passage of time is the criteria for satisfaction of performance obligation.

43. FINANCIAL INSTRUMENTS

A. Measurement of fair values

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company has established the following fair value hierarchy that categorises the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on Company specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

B. Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

Particulars	Note no.	31 Mar 2026		31 Mar 2025		Fair value level

The fair value of trade receivables, other financial assets, cash and cash equivalents, other bank balances, loans, borrowings, trade payables and other financial liabilities approximate their carrying amount largely due to short-term nature of these instruments.

Investment in subsidiaries & associates have been accounted at historical cost. Since, these are scoped out of Ind AS 109 for the purpose of measurement, the same are not disclosed in the table above.

There have been no transfers among Level 1, Level 2 and Level 3 during the years ended 31 March 2026 and 31 March 2025.

44. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's primary financial liabilities consist of borrowings, trade and other payables. These liabilities are primarily used to finance the Company's operations. The Company's principal financial assets include trade receivables, other receivables, investments, and cash and cash equivalents, all of which arise directly from its operating activities.

The Company has an integrated financial risk management system that proactively identifies and monitors key risks, while implementing precautionary and mitigatory measures to address them effectively.

The Company is exposed to market risk, credit risk, and liquidity risk. These risks are managed under the supervision of the Board of Directors, which independently evaluates and controls the overall financial risk management framework. The Board of Directors reviews and approves the risk management policies for each category of risk, as summarized below.

i) Market risk

Market risk refers to the potential impact of fluctuations in market prices on the fair value or future cash flows of financial instruments. It encompasses interest rate risk, foreign currency

risk and other price risks. Financial instruments subject to market risk include trade receivables and other receivables, borrowings and trade payables. The Company's management is responsible for managing market risk through active oversight of cash positions, foreign currency risk mitigation strategies, borrowing arrangements, and adherence to internal market risk thresholds.

a. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

The Company is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings.

The Company holds deposits with banks and hence is exposed to interest rate sensitivity. 1% changes in interest rate will increase/ decrease interest income by Rs. 1,144.48 Lakhs (31 March 2025: Rs.1,017.81 Lakhs).

b. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows from an asset/liability will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency).

Any movement in the functional currency of the various operations of the Company against major foreign currencies may impact the Company's revenue in international geographies. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

Exchange gain of ₹859.53 lakhs and ₹239.46 lakhs has been recognised in the standalone statement of profit and loss for the years ended 31 March 2026 and 31 March 2025 respectively.

ii) Credit Risk

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from credit exposures from trade receivables, advances given to suppliers (for procurement of goods, services and capital goods), cash and cash equivalent with banks, security deposits and loans.

Trade Receivables and Other Receivables

The credit risk of the Company is managed at a corporate level by the risk management committee which has established the credit policy norms for its customers. The Company expects to continue to derive most of its revenue from the Indian Defence forces, consequent to which the Company has a negligible credit risk associated with such receivables.

As the Company's debtors are predominantly the Indian Defense Forces where the counter-parties has sufficient capacity to meet the obligations, the risk of default is considered negligible. Accordingly, impairment on account of expected credit losses is being assessed on a case to case basis in respect of dues outstanding for significant period of time as per the accounting policy. Further, the management believes that the unimpaired amounts that are due is collectable in full, based on historical payment behaviour and extensive analysis of customer credit risk.

In a few cases credit is extended to customers based on market conditions after assessing the solvency of the customer and the necessary due diligence to determine credit worthiness. Advance payments are made against bank guarantee which safeguards the credit risk associated with such payments. Impairment losses on financial assets have been made after factoring contractual terms and other indicators.

The cash and cash equivalent with banks are in the form of short term deposits with maturity period of up to 1 year. The Company has a well structured Risk Mitigation Policy whereby there are present limits for each bank based on its net worth and earning capacity which is reviewed on a periodic basis. The Company has not incurred any losses on account of default from banks on deposits.

Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the top management on an annual basis, and may be updated throughout the year subject to approval of the Company's Board of Directors.

The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Refer Note 10 for ageing for Trade Receivables.

iii) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price.

The Company has an established liquidity risk management framework for managing its short term, medium term and long term funding and liquidity management requirements. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities/recovery of financial assets and liabilities. The Company manages the liquidity risk by maintaining adequate funds in cash and cash equivalents. The Company also has adequate credit facilities agreed with banks to ensure that there is sufficient cash to meet all its normal operating commitments in a timely manner.

45. CAPITAL MANAGEMENT

For the purposes of managing capital, the Company considers its equity share capital, securities premium, and other equity reserves attributable to shareholders as components of capital. The key objective of capital management is to enhance long-term shareholder value. The Company actively reviews and adjusts its capital structure in response to evolving economic conditions and compliance with financial covenants. This may involve modifying dividend payouts, returning capital to shareholders, or issuing additional equity. Capital adequacy is monitored through the gearing ratio, calculated as net debt divided by the sum of net debt and total equity. Net debt comprises interest-bearing borrowings, net of cash, cash equivalents, and bank balances.

Particulars	31 March 2026	31 March 2025
Gearing ratio:		
Borrowings (non-current and current, including current maturities of non-current borrowings, interest accrued and due, Interest accrued but not due)	-	5,220.36
Less: Cash and cash equivalents (including balances at bank other than cash and cash equivalents and margin money deposits with banks)	(22,284.71)	(27,406.45)
Net debt (A)	(22,284.71)	(22,186.09)
Equity (B)	1,82,196.05	1,68,898.58
Gearing ratio (%) $\{A/(A+B)\}^*$	-	-

Gearing ratio:

The company monitors capital using gearing ratio, which is net debt divided by total capital plus net debt. The company's policy is to keep the gearing ratio within 50%. In order to achieve this overall objective, the Company makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company aims to ensure that it meets the financial covenants attached to the interest bearing loans and borrowings that define the capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowings in the current year.

*Net Gearing Ratio for 31 March 2026 and 31 March 2025 not calculated since net debt is negative

*No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2026 and 31 March 2025.

46. EMPLOYEE STOCK OPTION SCHEME

The objective of the Employee Stock Option Scheme is to attract and retain talent and align the interest of employees with the Zen Technologies Limited as well as to motivate them to contribute to its growth and profitability. The Company adopts Senior Executive Plan in granting Stock options to its Senior Employees. (Employee Stock Option Plan-2021).

During the Annual General Meeting held on 28th August 2021, Zen Technologies Limited introduced the Employee Stock Option Plan-2021, which was subsequently ratified by the shareholders on 29th September 2022, in accordance with the earlier SEBI (Share Based Employee Benefits) Regulations, 2014. The plan received in-principle approval from the National Stock Exchange of India Limited and BSE Limited to issue a maximum of 40,00,000 equity shares with a face value of Re.1/- each, under the Zen Technologies Limited Employee Stock Option Plan-2021.

To facilitate the implementation of the ESOP scheme, the ESOS Trust had purchased 4,81,524 shares from the secondary market, for allocation to eligible employees under the ESOS

(All amounts in Indian Rupees in lakhs, unless otherwise stated)

scheme. During the year ended 31 March 2024, ESOS trust borrowed funds of ₹5.75 Crores and utilised such funds to purchase additional 1,59,876 shares from secondary Market .

As at 31 March 2025, the ESOP Trust purchased in aggregate 6,41,400 shares from secondary market at consideration of ₹1,567.66 lakhs.

During the year ended 31 March 25 the Nomination and Remuneration Committee had further granted 5,000 options on 4 May 2024 at an exercise price of ₹100 per option; 10,500 options on 28 July 2024 at an exercise price of ₹500 per option; 47,000 options on 14 February 2025 at an exercise price of

₹500 per option; and 1,37,000 options on 28 March 2025 at an exercise price of ₹500 per option. During the year ended 31 March 26 the Nomination and Remuneration Committee had granted 37,750 options on 25 October 2025 at an exercise price of ₹250 per option and 1,27,500 options on 30 March 2026 at an exercise price of ₹250 per option.

In the standalone financial statements, the Company had adopted the policy of consolidating the ESOP Trust, the related loan and advances appearing in the standalone financial statements of the Company were eliminated and investment in own shares the Company held by the trust is shown as treasury shares in "other equity".

The nature and extent of share-based payment arrangements that existed during the period.

Independent Auditor's Report

TO THE MEMBERS OF ZEN TECHNOLOGIES LIMITED

Report on the Audit of the Consolidated financial statements

OPINION

We have audited the accompanying consolidated financial statements of ZEN TECHNOLOGIES LIMITED (hereinafter referred to as the "Holding Company") and its subsidiaries (the Holding Company, its subsidiaries together referred to as "the Group"), its associates and joint venture comprising of the consolidated Balance Sheet as at 31 March 2026, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate/consolidated financial statements of such subsidiaries referred to in the Other Matters section below the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates, joint ventures as at 31 March 2026, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditors' responsibilities for the audit of the consolidated financial statements" section of our report. We are independent of the Group, its associates and its joint venture in accordance

with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of reports of the other auditors referred to in the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment and based on the consideration of reports of other auditors on separate/consolidated financial statements of components audited by them, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures performed by us, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key Audit Matters	How our audit addressed the key audit matter
Revenue from operations (As described in Note 25 & 41 of the Consolidated financial statements)	
During the year, the Group's revenue from operations decreased by 29.37%. Revenue is recognized when control of the underlying products has been transferred and the performance obligations have been satisfied. The terms of sales arrangements create complexity and require significant judgments relating to identification of distinct performance obligations, determination of transaction price of identified performance obligation, the appropriateness of revenue recognition on satisfaction of the performance obligations.	Our audit procedures included the following: - We have evaluated the appropriateness of the Company's accounting policies for revenue recognition and assessed compliance with relevant accounting standards. - We have reviewed the terms of significant sales arrangements to understand the timing of transfer of control, distinct performance obligations in these contracts and delivery specifications. - We have assessed the design and operating effectiveness of key controls over revenue recognition processes, including controls over the timing of transfer of control and the satisfaction of performance obligations. - We have performed substantive testing on a sample of revenue transactions by inspecting supporting documentation, such as contracts, invoices, and delivery notes, to verify the timing of revenue recognition.
Due to the judgment involved in determining whether transfer of control of goods or services have occurred for the revenue recognized, this matter is considered as Key Audit Matter	

KEY AUDIT MATTERS (Contd.)

Key Audit Matters	How our audit addressed the key audit matter
	e) Tested on sample basis whether revenue transactions near to the reporting data have been recognised in the appropriate period by comparing the transactions selected with relevant underlying documentation as per the terms of delivery specified in the contract. f) We have reviewed management's judgments and estimates in determining the transfer of control of goods or services for the satisfaction of performance obligations, including any contractual terms that could impact the timing of revenue recognition. g) We have tested on a sample basis Managements working for recognition and measurement of performance obligations and related variable considerations if any. h) We have evaluated the adequacy of disclosures provided under the revenue standard and assessed the completeness and mathematical accuracy to ensure they provide relevant information about the Company's revenue recognition policies and judgments.
Business Combination (As described in Note 52 of the consolidated financial statements)	
During the year, the parent has investments of ₹ 6,576.48 Lakhs in TISA Aerospace Private Limited, Anawave Systems and Solutions Private Limited, Applied Research International Private Limited and Vector Technics Private Limited. The Group accounted for the acquisitions under the acquisition method of accounting for business combinations. Accordingly, the purchase price was allocated to the assets acquired and liabilities assumed based on their fair values on their respective acquisition dates. The determination of such fair values for the purpose of purchase price allocation was considered to be a key focus area of our audit as the fair valuation process involves judgments and estimates such as appropriateness of the valuation methodology applied and the discount rates applied to future Cashflows forecasts.	We tested the Design, Implementation and Operating effectiveness of controls over the purchase price allocation process. We evaluated the appropriateness of the valuation methodologies for identified intangibles and reasonableness of the key valuation assumptions viz. discount rate/contributory asset charge, including testing the source information underlying the determination of the discount rate, testing the mathematical accuracy of the calculation, and developing a range of independent estimates and comparing those to the discount rate selected by independent valuers and relied upon by the management. We evaluated the competencies, capabilities and objectivity of the independent valuers engaged by the management for value analysis of tangible and intangible assets.

OTHER INFORMATION

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and auditor's reports thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its associates and joint venture in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act

read with Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group including its associates and Joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group including its associates and Joint venture are responsible for assessing the ability of the Group respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Companies included in the Group and of its associates and Joint venture are responsible for overseeing the financial reporting process of the respective entities.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)

(i) of the Act, we are also responsible for expressing our opinion on the internal financial controls with reference to the consolidated financial statements and the operating effectiveness of such controls.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and joint venture, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in the section titled "Other Matters" in this audit report.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended 31 March 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

We did not audit the financial statements and other financial information of eleven subsidiaries, an associate and a Joint venture, included in the accompanying consolidated financial statements of the Group whose financial statements reflect Group's share of total assets of ₹48,828.71 Lakhs (before consolidation adjustments) as at March 31, 2026, Group's share of total revenue of ₹35,698.89 Lakhs (before consolidation adjustments), Group's share of total net profit after tax/(loss) of ₹8,238.52 Lakhs (before consolidation adjustments) and Group's share of total comprehensive income/(loss) of

₹9,008.58 Lakhs (before consolidation adjustments) for the year ended on that date, as considered in the consolidated financial statements. This financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of branch, trust and subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid branch, trust and subsidiaries is based solely on the reports of the other auditors.

Two of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditor under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective country to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of other auditors.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Annexure 'A'

Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Zen Technologies Limited of even date

Report on the Internal Financial Controls under Clause (i) of sub section 3 of Section 143 of the Companies Act, 2013 (the "Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2026, we have audited the internal financial controls with reference to financial statements of ZEN TECHNOLOGIES LIMITED (hereinafter referred to as "the Holding Company") and its subsidiaries and associates, which are companies incorporated in India, as of that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company, its subsidiary companies and associate companies, to whom reporting under clause (i) of sub-section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to financial statements is applicable, which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls over financial reporting with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated

financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the relevant subsidiary companies in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to consolidated financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THESE CONSOLIDATED FINANCIAL STATEMENTS

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion and based on the consideration of reports of the other auditors on separate/consolidated financial statements of such subsidiaries which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at 31 March 2026, based on the criteria for internal financial control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

OTHER MATTERS

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to separate/consolidated financial statements insofar as it relates to seven subsidiary companies, and an associate company which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of these matters.

Notes to the Consolidated Financial Statements

For the year ended March 31 2026

(All amounts in Indian Rupees in lakhs, unless otherwise stated)

1. CORPORATE INFORMATION

The consolidated financial statements (CFS) comprise of the financial statements of Zen Technologies Limited (the Holding Company) and its subsidiaries and associate companies (collectively, the Group) for the year ended 31 March 2026.

The Holding company is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act, 1956 having corporate office at B-42, Industrial Estate, Sanathnagar, Hyderabad-500018, Telangana, India. The Equity Shares of the Holding Company are listed on the Bombay Stock Exchange Ltd. (BSE) and National Stock Exchange of India Ltd. (NSE) in India.

The group is primarily engaged in design, development and manufacture of Training Simulators and Anti Drone Systems for Para-military Forces, Armed Forces, Naval Forces, Security Forces, Police and Government Departments like Transport, Mining, Marine and Infrastructure. The group caters to both domestic and international market. Information on the Group's structure is provided in Note 2(i).

The consolidated financial statements for the year ended 31 March 2026, were approved by the Board of Directors and authorised for issue on 01 May 2026.

2. BASIS OF PREPARATION AND MEASUREMENT

(i) Statement of compliance & basis for preparation

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of Companies Act, 2013, (the 'Act') read with Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, as applicable to the financial statements and other relevant provisions of the Act.

The consolidated financial statements have been prepared on a going concern basis. The accounting policies are applied consistently to all the periods presented in the consolidated financial statements except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires change in accounting policy hitherto in use.

Basis of consolidation

The Consolidated financial statements comprise the financial statements of the Holding Company and its subsidiaries as at 31 March 2026. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over investee.

Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e, existing rights that give it the current ability to direct the relevant activities of the investee),
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent Group, i.e., year ended on 31 March 2026. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation

purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidation procedure

- a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- d) Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- a) Derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost;
- b) Derecognises the carrying amount of any noncontrolling interests;
- c) Derecognises the cumulative translation differences recorded in equity;
- d) Recognises the fair value of the consideration received;
- e) Recognises the fair value of any investment retained;
- f) Recognises any surplus or deficit in profit or loss; and
- g) Recognises the distribution of shares of subsidiary to Group in Group's capacity as owners.

Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

(ii) Functional and presentation currency

These consolidated financial statements are presented in Indian Rupees (INR), which is also the Holding Company's functional currency. All financial information presented in Indian rupees have been rounded-off to two decimal places to the nearest lakhs unless otherwise stated.

(iii) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following assets and liabilities which have been measured at fair value:

- **Certain financial assets and liabilities:** Measured at fair value
- **Net defined benefit (asset)/liability:** Fair value of plan assets less present value of defined benefit obligations
- **Borrowings:** Amortised cost using effective interest rate method

(iv) Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and reported amounts of revenues and expenses during the period and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statement. Accounting estimates could change from period to period. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed by the Management on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

(v) Measurement of fair values

Accounting policies and disclosures require measurement of fair value for both financial and non-financial assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in the measuring fair values is included in the following notes:

- **Note 42:** Financial instruments

(vi) Current and non-current classification

The Schedule III to the Act requires assets and liabilities to be classified as either current or non-current. The Group presents assets and liabilities in the balance sheet based on current/non-current classification.

Assets

An asset is classified as a current when it is:

- it is expected to be realised in, or is intended for sale or consumption in normal operating cycle;
- it is expected to be realised within twelve months from the reporting date;
- it is held primarily for the purposes of being traded; or
- is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non current.

Liabilities

A liability is classified as a current when:

- it expects to settle the liability in its normal operating cycle;
- it is due to be settled within twelve months from the reporting date;
- it is held primarily for the purposes of being traded;
- there is no unconditional right to defer settlement of liability for atleast twelve months from the reporting date.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

Operating Cycle

Operating cycle is the time between the acquisition of assets for processing and realisation in cash or cash equivalents. The group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES

A. Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in

the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- a) Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Taxes and Ind AS 19 Employee Benefits respectively.
- b) Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- c) Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- d) Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.
- e) Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the

amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

B. Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a Lessor

Leases for which the Group is a lessor are classified as a finance or operating lease. When ever the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. Rental income from operating leases are recognised on straight line basis over the term of relevant lease.

Group as a Lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease.

Right of use asset

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Leasehold Land	30 to 33 years
Office Buildings and Guest House	2 to 10 year

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (G) Impairment of Property, Plant and Equipment, Intangible assets and Right-of-use Assets.

The Group's lease arrangements do not contain an obligation to dismantle and remove the underlying asset, restore the site on which it is located or restore the underlying asset to a specified condition.

Lease Liability

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments).

In the Balance Sheet, the ROU and lease liabilities are presented separately. In the Statement of Profit and Loss, interest expense on lease liabilities are presented separately from the depreciation charge for the ROU. Interest expense on the lease liability is a component of finance costs, which are presented separately in the Statement of Profit or Loss.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of vehicles, and office buildings (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term or another systematic basis, if required.

C. Financial instruments

A financial instrument is any contract that gives rise to a Financial Asset of one entity and Financial Liability or Equity instrument of another entity.

Financial assets

i) Initial Recognition and measurement

The Group recognises a financial asset or a financial liability in its balance sheet when, and only when, it becomes party to the contractual provisions of the instrument. Financial assets are classified, at initial recognition, as measured at:

- Amortised Cost
- Fair Value through Other Comprehensive Income (FVTOCI), or
- Fair Value through Profit or Loss (FVTPL)

The classification of financial assets at initial recognition depends on:

- (a) The Group's business model for managing the financial assets, and
- (b) The contractual cash flow characteristics of the financial asset.

Except for trade receivables that do not contain a significant financing component, financial assets are initially measured at fair value, plus, in the case of financial assets not at FVTPL, transaction costs directly attributable to their acquisition. Trade receivables are initially recognised at the transaction price as determined in accordance with the Group's revenue recognition policy (refer 3 [H] – Revenue from Contracts with Customers).

ii) Classification and subsequent measurement

The subsequent measurement of financial assets depends on their classification, as follows:

(i) Financial Assets at Amortised Cost

Financial assets are measured at amortised cost if both of the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- (b) The contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

These assets are subsequently measured at amortised cost using the effective interest rate (EIR) method, less any impairment loss. Interest income and impairment are recognised in profit or loss.

(ii) Financial Assets Measured at Fair Value through Other Comprehensive Income (FVTOCI) – Debt Instruments

Financial assets are classified at FVTOCI when they are held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets, and the SPPI test is met.

Subsequent to initial recognition, these financial assets are measured at fair value, with changes in fair value recognised in other comprehensive income (OCI). Upon derecognition, the cumulative gain or loss recognised in OCI is reclassified to profit or loss.

(iii) Financial Assets Measured at Fair Value through Other Comprehensive Income (FVTOCI) – Equity Instruments

For equity investments not held for trading, the Group may make an irrevocable election at initial recognition to present changes in fair value in OCI. This election is made on an instrument-by-instrument basis.

Subsequent changes in fair value are recognised in OCI. Unlike debt instruments, there is no recycling of cumulative gains or losses to profit or loss on derecognition. Dividends from such

investments are recognised in profit or loss when the right to receive payment is established, provided they represent a return on investment and not a recovery of cost.

(iv) Financial Assets at Fair Value through Profit or Loss (FVTPL)

Financial assets are classified as FVTPL if they:

- (a) Do not meet the criteria for amortised cost or FVTOCI; or
- (b) Are designated at FVTPL at initial recognition to eliminate an accounting mismatch.

Subsequent changes in fair value are recognised in profit or loss.

Reclassification

Financial assets are not reclassified subsequent to their initial recognition, except when the Group changes its business model for managing the assets. Any such reclassification is applied prospectively from the reclassification date; prior periods are not restated.

SPPI Test

The SPPI test is performed at the instrument level to determine whether the contractual cash flows represent solely payments of principal and interest. For this purpose, "interest" is defined as consideration for the time value of money, credit risk, and other basic lending risks and costs, along with a profit margin.

Business Model Assessment

The Group's business model refers to how financial assets are managed to generate cash flows—whether through collecting contractual cash flows, selling financial assets, or both. This assessment is determined at a portfolio level and reflects how groups of financial assets are collectively managed to achieve a specific business objective.

iii) De-recognition

A financial asset is derecognised when:

- (a) The contractual rights to receive the cash flows from the asset have expired, or
- (b) The Group has transferred its contractual rights to receive the cash flows from the asset, and either:
 - (i) it has transferred substantially all the risks and rewards of ownership of the asset; or
 - (ii) it has neither transferred nor retained substantially all the risks and rewards of ownership, but has relinquished control of the asset.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the asset continues to be recognised on the balance sheet.

Where the Group neither transfers nor retains substantially all the risks and rewards of ownership but retains control of the transferred asset, the asset is recognised to the extent of the Group's continuing involvement.

Financial Liabilities

i) Initial Recognition and measurement

Financial liabilities are classified at initial recognition as:

- Financial liabilities at fair value through profit or loss (FVTPL),
- Financial liabilities measured at amortised cost (e.g., loans and borrowings, trade and other payables), or
- Derivatives designated as hedging instruments in an effective hedge, where applicable.

All financial liabilities are initially recognised at fair value. In the case of financial liabilities measured at amortised cost, initial recognition includes transaction costs that are directly attributable to the issue. The Group's financial liabilities primarily include trade and other payables, loans and borrowings, including bank overdrafts.

ii) Subsequent measurement

Subsequent to initial recognition, financial liabilities are measured as follows:

(a) Financial Liabilities at Fair Value through Profit or Loss (FVTPL)

This category includes:

- Financial liabilities held for trading (e.g., derivatives not designated as hedging instruments); and
- Financial liabilities designated as FVTPL at initial recognition to eliminate or significantly reduce an accounting mismatch.

Gains and losses on financial liabilities held for trading are recognised in the statement of profit and loss. For designated liabilities, changes in fair value attributable to the Group's own credit risk are recognised in OCI. These amounts are not subsequently reclassified to profit or loss. All other changes in fair value are recognised in profit or loss. The Group has not designated any financial liability as measured at FVTPL.

(b) Financial Liabilities at Amortised Cost

This category includes interest-bearing loans and borrowings that are subsequently measured using the effective interest rate (EIR) method. Gains and losses are recognised in profit or loss upon derecognition or through the amortisation process. Amortised cost is calculated by considering any premium or discount on acquisition and fees or costs that are an integral part of the EIR. The amortisation is recognised under finance costs in the statement of profit and loss.

iii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged, cancelled, or expires. If an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is accounted for as a derecognition of the original liability and recognition of a new one. The difference in the carrying amounts is recognised in profit or loss.

iv) Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if there is a currently and legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v) Compulsorily Convertible Debentures

Compulsorily Convertible Debentures are separated into liability and equity components based on the terms of the instrument in accordance with Ind AS 32. At initial recognition:

- The liability component is measured at the fair value of a comparable instrument without a conversion option and classified as a financial liability measured at amortised cost.
- The residual amount is allocated to the equity component and recognised in equity, provided it meets the "fixed-for-fixed" conversion criterion.

Transaction costs are allocated to liability and equity components in proportion to their respective initial carrying amounts. The conversion option is not remeasured subsequently.

vi) Reclassification of financial Instruments

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. If the Group reclassifies financial assets, it applies the reclassification prospectively.

D. Property, plant and equipment

i) Recognition and measurement

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses, if any. Historical cost includes:

- Purchase price (net of trade discounts and rebates),
- Import duties and non-refundable taxes,
- Directly attributable costs necessary to bring the asset to its intended working condition for its intended use, and
- Estimated costs of dismantling, removing the item, and restoring the site, where an obligation exists (measured at present value in accordance with Ind AS 37).

Freehold land is not depreciated and is carried at historical cost. Where significant components of an item of property, plant and equipment have different useful lives, they are accounted for separately. If an item of PPE is acquired on deferred credit terms (i.e. with a significant financing benefit), it is recognised at its cash price equivalent. The difference between the total payment and cash price is recognised as interest over the deferred period.

ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost can be measured reliably. All other repairs and maintenance are charged to profit or loss as incurred. If a component accounted for separately is replaced, the carrying amount of the replaced component is derecognised.

iii) Depreciation

Depreciation is provided on a straight-line basis over the estimated useful lives of the respective assets. The useful lives are determined in accordance with the manner prescribed under Schedule II to the Companies Act, 2013. Depreciation is charged from the date the asset is available for use and is calculated on a pro-rata basis for assets acquired or disposed of during the year.

The Group, based on technical evaluation and management judgement, has determined useful lives for certain assets that are different from those prescribed in Schedule II. These useful lives reflect the period over which the assets are expected to be used and are reviewed at least annually. Depreciation is not provided on freehold land.

Depreciation on buildings constructed on leasehold land is charged over the shorter of the lease term or the estimated useful life of the building. For leasehold improvements, depreciation is charged over the shorter of the useful life, typically 10 years, or the lease term including expected renewals.

Asset category	Useful life as per Schedule II	Management estimate of useful life
Buildings (Other than factory buildings)	60 years	60 years
Factory buildings	30 years	30 years
Plant and equipment	15 years	10-15 years
Furniture and fixtures	10 years	5-10 years
Motor vehicles	10 years	10 years
Electrically operated vehicles	08 years	08 years
Testing equipment's	10 years	5-10 years
Office equipment's	5 years	5 years
Demo equipment	5 years	5 years
Computers		
- Servers and networks	6 years	6 years
- End user devices such as laptops, etc.	3 years	3-5 years

iv) Capital Work in Progress (CWIP) and Capital advances

Capital Work-in-Progress includes tangible assets that are under construction or development and are not yet ready for their intended use at the balance sheet date. These include

expenditure incurred on assets that are in the course of construction, installation, testing, or commissioning. CWIP is carried at cost, which comprises:

- directly attributable acquisition and construction costs,
- borrowing costs eligible for capitalisation under Ind AS 23, and
- other expenses directly attributable to bringing the asset to its intended use.

No depreciation is charged on such assets until they are available for use. Once the asset is ready for its intended use, the accumulated cost is transferred to the appropriate category of property, plant and equipment and depreciation commences from the date the asset is available for use.

v) Impairment of assets

The Group assesses at each reporting date whether there is any indication that an asset, or a group of assets (cash-generating unit), may be impaired in accordance with Ind AS 36. If such indication exists, the recoverable amount of the asset is estimated. An impairment loss is recognised when the carrying amount exceeds the recoverable amount. The recoverable amount is the higher of:

- Fair value less costs of disposal, and
- Value in use (present value of future expected cash flows).

Impairment losses are recognised in the Profit and Loss Account. Reversal of impairment losses is recognised only if there has been a change in the estimates used to determine the recoverable amount.

vi) Derecognition

An item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising on derecognition is recognised in the Profit and Loss Account in the period of derecognition. The gain or loss is measured as the difference between the net disposal proceeds and the carrying amount of the asset.

E. Intangible assets

i) Recognition and measurement

Intangible assets are recognised only if:

- it is probable that the expected future economic benefits attributable to the asset will flow to the Group, and
- the cost of the asset can be measured reliably.

Intangible assets that are acquired separately are initially measured at cost. The cost comprises the purchase price and any directly attributable cost of preparing the asset for its intended use. Internally generated intangible assets, including research costs, are expensed as incurred, except for development costs which are capitalised if the recognition criteria under Ind AS 38 are met.

ii) Subsequent measurement

After initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Subsequent expenditure is capitalised only when it enhances the future economic benefits embodied in the specific asset. All other expenditure is expensed as incurred.

iii) Amortisation

Amortisation of intangible assets is recognised in the Profit and Loss Account on a straight-line basis over the asset's estimated useful life. The method and useful life are reviewed at each financial year-end and adjusted if necessary.

The estimated useful lives are as follows:

- Software - 3 years

Amortisation begins when the asset is available for use and continues until the asset is derecognised or fully amortised, whichever is earlier.

iv) Derecognition

An intangible asset is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset is recognised in the Profit and Loss account in the period the asset is derecognised.

F. Inventories

Inventories consist of raw materials, stores and spares, work-in-progress and finished goods and are measured at the lower of cost or net realizable value. However raw materials which are used in the process of production are not written down below the cost if the finished goods produced from consumption of such material are sold at or above the cost.

The cost of all categories of inventories is based on the weighted average method. Cost includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

G. Impairment of assets

i) Impairment of financial instruments

The Group recognises loss allowances for expected credit losses (ECLs) on financial assets measured at amortised cost, including trade receivables, in accordance with Ind AS 109 – Financial Instruments. At each reporting date, the Group assesses whether a financial asset is credit-impaired, which is defined as a situation where one or more events have a detrimental impact on the estimated future cash flows of the asset.

Objective evidence of credit impairment includes:

- significant financial difficulty of the borrower or issuer,
- breach of contract (e.g., default or delay in payments),
- high probability of bankruptcy or financial reorganisation of the borrower,

- disappearance of an active market due to financial distress.

ECL measurement

The Group measures expected credit losses (ECLs) on financial assets based on the extent of credit risk at the reporting date. For trade receivables, the Group always recognises loss allowances based on lifetime expected credit losses. This approach does not require tracking changes in credit risk after initial recognition. For other financial assets measured at amortised cost, the Group assesses credit risk at each reporting date and recognises loss allowances based on either:

- 12-month expected credit losses, if there has not been a significant increase in credit risk since initial recognition, or
- Lifetime expected credit losses, if credit risk has increased significantly or if the asset is credit-impaired.

The Group evaluates whether credit risk has increased significantly using reasonable and supportable information, including forward-looking indicators, historic loss patterns, and internal risk ratings.

Measurement of expected credit losses

ECLs are probability-weighted estimates of credit losses, calculated as the present value of expected shortfalls between contractual cash flows and those the Group expects to receive.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

Presentation in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

ii) Impairment of Property, Plant and Equipment, Intangible assets, Goodwill and Right-of-use assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group's assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of

the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the Group operates, or for the market in which the asset is used.

Impairment losses of continuing operations, including provision on inventories, are recognised in the statement of profit and loss, except for properties previously revalued with the revaluation surplus taken to other comprehensive income for such properties, the impairment is recognised in other comprehensive income up to the amount of any previous revaluation surplus.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Goodwill is tested for impairment annually as at 31 March and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

H. Revenue from contracts with customers

Revenue from contracts with customers is recognised when the Group satisfies a performance obligation by transferring control of a promised good or service to the customer. Control is transferred when the customer has the ability to direct the use of and obtain substantially all of the benefits from the good or service.

Revenue from sale of products

Revenue from the sale of products is recognised at a point in time when control of the goods is transferred to the customer, which typically occurs upon delivery in accordance with the terms of the contract. Indicators of transfer of control include, The indicators for transfer of control include:

- the Group has transferred the physical possession of the product;
- the customer has a legal title to the product;
- the customer has accepted the product;
- when the Group has a present right to payment for the product; and
- the significant risks and rewards of ownership of the product has been transferred to the customer.

Revenue is measured at the transaction price, which is the amount of consideration the Group expects to be entitled to in exchange for transferring goods or services.

Multiple performance obligations

In case where the contracts involve multiple performance obligations, the Group allocates the transaction price to each performance obligation on the relative stand-alone selling price basis. In case of a contract, where separate fee for Annual Maintenance Contracts (AMC) or any other separately identifiable component is not stipulated, the Group applies the recognition criteria to separately identifiable components (sale of goods and AMC, etc.) of the transaction and allocates the revenue to those separate components based on stand-alone selling price.

In cases where the AMC or any other separately identifiable component is stipulated and price for the same agreed separately, the Group applies the recognition criteria to separately identified components (sale of goods and installation and commissioning, etc.) of the transaction and allocates the revenue to those separate components based on their stand-alone selling price.

If the stand-alone selling price is not available the Group estimates the stand alone selling price.

Revenue from rendering of services

As outlined above, in cases where contracts include multiple performance obligations, such as the sale of goods and annual maintenance contracts (AMC), the transaction price is allocated to each component based on their relative stand-alone selling prices.

Revenue attributable to AMC services is recognised over time, as the customer simultaneously receives and consumes the benefits of the service throughout the contract period. The Group applies the output method to measure progress towards complete satisfaction of the performance obligation, as the passage of time provides a reliable basis for depicting the transfer of services to the customer.

Contract Balances

Contract Asset:

In a contract, if the entity performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, it shall be presented as a contract

asset, excluding any amounts presented as receivable. A contract asset is an entity's right to consideration in exchange for goods and services that the entity has transferred to the customer.

A Contract asset is initially recognised for revenue earned from AMC services because the receipt of consideration is conditional on successful completion of remaining period of service. Upon completion of the AMC service period and acceptance by the customer, the amount recognised as contract assets is reclassified to trade receivables. Contract assets are subject to impairment assessment. Refer accounting policies on impairment of financial assets in Note G.

Contract Liability:

If a customer pays consideration, or an entity has a right to an amount of consideration that is unconditional (i.e a receivable), before the entity transfers a good or service to the customer, it shall be presented as a contract liability when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the group performs the contract (i.e, transfers control of the related goods or services to the customer).

Measurement of Trade Receivables

Trade receivables arising from such contracts are recognised at the transaction price as determined above, consistent with the Group's accounting policy on financial assets (refer Note C – Financial Instruments).

I. Recognition of Other income

i) Interest income

Interest income is recognized on a time proportion basis considering the carrying amount and the effective interest rate. Interest income is included under the head 'Other income' in the statement of profit and loss.

ii) Export Incentives

The Group receives export incentives in the form of MEIS (Merchandise Exports from India Scheme) scripts which do not fall under the scope of Ind AS 115 and are accounted for in accordance with the provisions of Ind AS 20 considering such incentives as Government Assistance. Accordingly government grant relating to Income is recognised on accrual basis when the relevant expense has been charged to statement of Profit and Loss.

J. Borrowing cost

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition, construction or production of an asset which necessarily take a substantial period of time to get ready for their intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

K. Foreign Currency Transactions and Translation

Transactions in foreign currencies are translated to the functional currency of the Group at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date (closing rate). Non-monetary items denominated in foreign

currencies which are carried at historical cost are reported using the exchange rate at the date of the transaction. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in the statement of profit and loss in the period in which they arise.

The assets and liabilities of the foreign branch are translated into functional currency at the rate of exchange prevailing at the reporting date and their statements of profit and loss are translated at average exchange rates. The exchange differences arising on translation for consolidation are recognised in other comprehensive income.

In case of an asset, expense or income where a monetary advance is paid/received, the date of transaction is the date on which the advance was initially recognized. If there were multiple payments or receipts in advance, multiple dates of transactions are determined for each payment or receipt of advance consideration.

Group Companies

On consolidation, the assets and liabilities of foreign operations are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit and loss.

Any goodwill arising in the acquisition/business combination of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

Any goodwill or fair value adjustments arising in business combinations/acquisitions, which occurred before the date of transition to Ind AS (1 April 2015), are treated as assets and liabilities of the entity rather than as assets and liabilities of the foreign operation. Therefore, those assets and liabilities are non-monetary items already expressed in the functional currency of the parent and no further translation differences occur.

Gain or loss on a subsequent disposal of any foreign operation excludes translation differences that arose before the date of transition but includes only translation differences arising after the transition date.

L. Employee benefits

(i) Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured on an undiscounted basis at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards Government administered provident fund scheme and other funds. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in statement of profit and loss in the periods during which the related services are rendered by employees.

(iii) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The liability or asset recognised in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by a qualified actuary using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

The group recognizes actuarial gains/(losses) on defined benefit plans in the balance sheet with a corresponding debit or credit to other comprehensive income in the period in which they occur.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(iv) Termination benefits

Termination benefits are recognized as an expense when the Group is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the Group has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

(v) Other long-term employee benefits

The Group's net obligation in respect of other long term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognized in the statement of profit and loss in the period in which they arise.

(vi) Employee Share Based Payments**Equity Settled Transactions**

The Group provides share-based payment benefits to employees through stock option plans governed by employee stock option schemes.

Equity-settled share-based payments are accounted for in accordance with Ind AS 102 – Share-Based Payment. The fair value of stock options granted is determined on the grant date using an appropriate option pricing model (such as the Black-Scholes model) and is recognised as an employee benefit expense in the Statement of Profit and Loss over the vesting period, with a corresponding credit to Share-Based Payment Reserve under equity.

The expense is recognised based on the Group's estimate of the number of equity instruments that will ultimately vest. This estimate is revised at each reporting date, and any impact of the revision is recognised in the Statement of Profit and Loss, with a corresponding adjustment to equity.

If the terms of an equity-settled award are modified, the incremental fair value, if any, is recognised over the remaining vesting period. In case of forfeiture (i.e., if the employee leaves before vesting), the cumulative expense recognised is reversed in the Statement of Profit and Loss. If the options lapse or expire unexercised after vesting, the corresponding balance in Share-Based Payment Reserve is transferred within equity (e.g., to Retained Earnings or General Reserve)."

ESOP Trust and Treasury Shares

The Group has formed an Employee Welfare Trust (EWT) for providing share-based payment to its employees. The Group uses EWT as a vehicle for distributing shares to employees under the Employee Stock Option Plan-2021. The EWT purchase shares of the Holding Company from the secondary market, for giving shares to employees. The Group treats EWT as its extension and shares held by EWT are treated as treasury shares.

Own equity instruments that are re-acquired (treasury shares) are recognised at cost and deducted from other equity. No gain or loss is recognised on the purchase, sale, issue, or cancellation of the Group's own equity instruments. Share options whenever exercised, would be settled from such treasury shares. Any difference between the carrying amount and the consideration, if reissued/sold, is recognised in other equity (General Reserve).

M. Income Taxes

Taxes comprises Current Tax, Deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income. The Group recognises interest levied and penalties relating to income tax assessments in interest expenses.

(i) Current tax

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess/

(shortfall) of the Company's income tax obligation for the period are recognised in the Balance Sheet under assets as income tax assets/under current liabilities as current tax liabilities.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and considers whether it is probable that a taxation authority will accept an uncertain tax treatment.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

(ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; and
- temporary differences related to investments in subsidiaries to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences, the carry forwards of unused tax credits and unused tax losses. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Group offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in

which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

N. Provision, contingent liabilities and contingent assets

Provision

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised under finance costs. Expected future operating losses are not provided for. Provision in respect of loss contingencies relating to claims, litigations, assessments, fines and penalties are recognised when it is probable that a liability has been incurred and the amount can be estimated reliably.

Contingent liabilities and contingent assets:

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are not recognised in financial statement. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

Contingent Liabilities/Assets to the extent the Management is aware, are disclosed by way of notes to the financial statements.

O. Government Grants

Grants & Subsidies received from the Governments are recognised only when there is reasonable assurance that:

- a. The Group will comply with the conditions attached to the grant.
- b. There is a reasonable certainty that the grant will be received.

Government grants related to assets are treated as deferred income and are recognized in net profit in the statement of Profit & Loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in net profit in the Statement of Profit & Loss over the periods necessary to match them with the related costs which they are intended to compensate.

When loans or similar assistance are provided by Governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a Government grant. The loan or assistance is initially recognized and measured at fair value and the Government grant is measured as the difference between the fair value of the loan and the proceeds received. It is recognized as deferred income and released to statement of Profit & Loss

in proportionate over the loan tenure and presented within other income. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

P. Earnings per share

Basic Earnings Per Share ('EPS') is computed by dividing the net profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period excluding the treasury shares in accordance with Ind AS 33 Earnings per share.

Diluted earnings per share is computed by dividing the net profit by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and that either reduces earnings per share or increases loss per share are included. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for the share splits.

Q. Statement of cash flow

Cash flows are reported using the indirect method, whereby net profit/(loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Group are segregated. The Group considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

R. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts and Cash Credit that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows. Whereas they are classified as borrowings under current liabilities in the balance sheet.

S. Research and Development Costs (Product Development)

Research expenditure is recognized as an expense when it is incurred. Development expenditure on an individual project are recognised as an intangible asset when the Group can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale.
- Its intention to complete and its ability and intention to use or sell the product.
- How the asset will generate future economic benefits.

- The availability of resources to complete the asset.
- The ability to measure reliably the expenditure during development.

Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognized as an expense when it is incurred.

Items of property, plant and equipment and acquired Intangible Assets utilized for Research and Development are capitalized and depreciated in accordance with the policies stated for Property, Plant and Equipment and Intangible Assets.

T. Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

U. Treasury Shares

The Group has formed an Employee Welfare Trust (EWT) for providing share-based payment to its employees. The Group uses EWT as a vehicle for distributing shares to employees under the Employee Stock Option Plan-2021. The EWT purchase shares of the Holding Group from the secondary market, for giving shares to employees. The Group treats EWT as its extension and shares held by EWT are treated as treasury shares.

Own equity instruments that are re-acquired (treasury shares) are recognised at cost and deducted from other equity. No gain or loss is recognised on the purchase, sale, issue, or cancellation of the Group's own equity instruments. Share options whenever exercised, would be settled from such treasury shares. Any difference between the carrying amount and the consideration, if reissued/sold, is recognised in other equity (General Reserve).

V. Cash Dividend to Equity Holders

The Group recognises a liability to make cash distributions to equity holders of the Group when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in other equity.

W. Errors and Estimates

The Group revises its accounting policies if the change is required due to a change in Ind AS or if the change will provide more relevant and reliable information to the users of the financial statements. Changes in accounting policies are applied retrospectively, unless it is impracticable to apply.

A change in an accounting estimate that results in changes in the carrying amounts of recognised assets or liabilities or to statement of profit and loss is applied prospectively in the period(s) of change.

X. Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

For the year ended 31st March, 2026, the amendments to the standards that are notified by the MCA, but not yet effective, up to the date of issuance of the Group's financial statements are disclosed below. The Group will adopt these amendments to the standards, when they become effective.

Standards notified but not yet effective

The new and amended standards that are notified by the MCA, but not yet effective, up to the date of issuance of the Group's financial statements are disclosed below. The Group will adopt these new and amended standards, when they become effective.

Amendments to Ind AS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants and Ind AS 10 - Events after the Reporting Period.

Ind AS 10 has been amended to remove the previous treatment under which a lender's post reporting date waiver - granted before the financial statements were approved for issue — of a breach of a material covenant in a long-term loan arrangement that occurred on or before the end of the reporting period, resulting in the liability becoming payable on demand at the reporting date, was regarded as an adjusting event.

For annual reporting periods beginning on or after 1st April, 2026, any breach of a covenant — whether material or immaterial — occurring on or before the reporting date will, in accordance with Ind AS 1, require the related liability to be classified as current, unless the lender has granted a waiver of the breach on or before the reporting date and has agreed not to demand repayment for at least 12 months after the reporting date as a consequence of the breach. Such a waiver shall be treated as an adjusting event.

Particulars	31 March 2026	31 March 2025
Contribution to provident fund recognised as expense (Note 30)	319.86	162.49

(b) Defined benefit plan

The Group has a defined benefit gratuity plan. Every employee who has completed five years or more of continuous service is eligible to receive gratuity calculated at 15 days of last drawn basic salary for each completed year of service. The scheme is funded through a qualifying insurance policy.

Effective 21 November 2025, The Government of India has consolidated multiple existing labour legislations into a unified framework comprising four Labour codes collectively referred to as the 'New Labour Codes'. Under Ind AS 19, changes to employee benefit plans arising from legislative amendments constitute a plan amendment, requiring recognition of past service cost immediately in the statement of profit and loss.

The group has assessed the impact of the labour codes on its employee benefit obligations based on the provisions notified and the current employee compensation structure. Based on such assessment, the group has concluded that the implementation of the labour codes does not result in any material impact on the employee benefit obligations or the financial statements for the current reporting period. The group will continue to evaluate the impact of any future amendments, notifications or rules issued under the labour codes and account for the same, if any, in the period in which such changes become effective.

The following table's summarises the components of net benefit expense recognised in the Consolidated Statement of profit and loss and the funded status and amounts recognised in the balance sheet for the gratuity plan:

The principal assumptions used in determining gratuity benefit obligation for the Group's plans are shown below:

Particulars	31 March 2026	31 March 2025
Discount rate (p.a.)	6.59%	6.35%
Salary escalation rate (p.a.)	10.00%	10.00%
Mortality rate	IALM (2012-14) Ult.	IALM (2012-14) Ult.
Disability rate	0.00%	0.00%
Withdrawal rate (Past service (PS))	PS: 0 to 42: 14.89%	PS: 0 to 42: 17.24%
Normal retirement age (in years)	60.00	60.00
Adjusted average future service	5.14	4.42

(All amounts in Indian Rupees in lakhs, unless otherwise stated)

A quantitative analysis for significant assumptions is as shown below:

Particulars	31 March 2026	31 March 2025
Assumptions - Discount rate		
Sensitivity Level (a hypothetical increase/(decrease) by)		
Impact of Increase in 1% on defined benefit obligation	952.03	610.17
Impact of Decrease in 1% on defined benefit obligation	1,080.80	667.36
Assumptions - Salary Escalation rate		
Sensitivity Level (a hypothetical increase/(decrease) by)		
Impact of Increase in 1% on defined benefit obligation	1,062.75	657.06
Impact of Decrease in 1% on defined benefit obligation	965.00	618.08

Notes:

- Liabilities are very sensitive to discount rate, salary inflation and withdrawal rate.
- Liabilities are very less sensitive due to change in mortality assumptions. Hence, sensitivities due to change in mortality are ignored

38. CONTINGENT LIABILITIES AND COMMITMENTS

(a) Contingent liabilities

I) Claims against the Group not acknowledged as debts

- On account of Direct Tax matters - ₹ 1,012.92 lakhs (31 March 2025: ₹ 1012.82 Lakhs)
- On account of Indirect Tax matters - Central Excise Duty - ₹823.42 lakhs (31 March 2025: ₹823.42 lakhs)

The Group is contesting the demands and the management, including its tax advisors, believe that its position will likely be upheld in the appellate process with respect to Direct Tax and Indirect tax matters. No tax expense has been recorded in the consolidated financial statements for the tax demand raised. The Management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Group's financial position and results of operations.

II) Guarantees & Commitments

At 31 March 2026, the Group has capital commitments of ₹663.38 lakhs relating to construction of new factory building and others. (31 March 2025: ₹591.98 lakhs relating to construction of new factory building).

A. Satisfaction of performance obligation

- i) Revenue from the sale of products is recognised at a point in time when control of the goods is transferred to the customer, which typically occurs upon delivery in accordance with the terms of the contract.

Revenue attributable to AMC services is recognised over time, as the customer simultaneously receives and consumes the benefits of the service throughout the contract period.
- ii) Group's Contract normally do not contain significant financial component and any advance payment received and/or amount retained by customer is with intention of protecting either parties to the contract.
- iii) Variable consideration primarily consist of liquidated damages. The amount of revenue recognised in respect of the same is determined based on the methodology specified in the contract . The amount is recognised as revenue based on contractual terms.
- iv) The Group's turnover mainly includes supply of training & counter drone solutions and other operational equipment including Annual Maintenance Contracts (AMC)

Group's activities in marine technology sector includes conducting formal training courses for Upgradation of skills for marine personnel.
- v) Warranties provided are primarily in the nature of performance warranties. If the terms of contract require the Group to provide the customer with a service in addition to the assurance that the product complies with agreed-upon specification the Group accounts for the promised warranty as a performance obligation.
- vi) In case of AMC contracts, output method is used to recognise revenue where passage of time is the criteria for satisfaction of performance obligation.

42. FINANCIAL INSTRUMENTS

A. Measurement of fair values

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Group has established the following fair value hierarchy that categorises the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on Group specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

(All amounts in Indian Rupees in lakhs, unless otherwise stated)

B. Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

Particulars	Notes	31 Mar 2026		31 Mar 2025		Fair value level
		Amortised cost	Fair value	Amortised cost	Fair value	
Financial assets						
Investments	5B	0.06	-	-	-	-
Trade receivables	10	22,400.64	-	41,042.67	-	-
Cash and cash equivalents	11	7,893.72	-	7,415.40	-	-
Other bank balances	12	27,579.45	-	32,648.81	-	-
Loans	13	6.92	-	243.03	-	-
Other financial assets (Current)	6B	69,759.77	-	80,719.17	-	-
Other financial assets (Non current)	6A	32,276.95	-	1,735.30	-	-
Total financial assets		1,59,917.51	-	1,63,804.38	-	-
Financial liabilities						
Borrowings	18&21	338.23	-	5,415.16	-	-

Other financial liabilities	19.3	1,747.54	-	5,670.44	-	-
Total financial liabilities		8,532.14	-	15,987.63	-	-

The fair value of trade receivables, other financial assets, cash and cash equivalents, other bank balances, loans, borrowings, trade payables and other financial liabilities approximate their carrying amount largely due to short-term nature of these instruments.

There have been no transfers among Level 1, Level 2 and Level 3 during the years ended 31 March 2026 and 31 March 2025.

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's primary financial liabilities consist of borrowings, trade and other payables. These liabilities are primarily used to finance the Group's operations. The Group's principal financial assets include trade receivables, other receivables, loans, investments, and cash and cash equivalents, all of which arise directly from its operating activities.

The Group has an integrated financial risk management system that proactively identifies and monitors key risks, while implementing precautionary and mitigatory measures to address them effectively.

The Group is exposed to market risk, credit risk, and liquidity risk. These risks are managed under the supervision of the Board of Directors, which independently evaluates and controls the overall financial risk management framework. The Board of Directors reviews and approves the risk management policies for each category of risk, as summarized below.

i) Market risk

Market risk refers to the potential impact of fluctuations in market prices on the fair value or future cash flows of financial instruments. It encompasses interest rate risk, foreign currency risk and other price risks. Financial instruments subject to market risk include trade receivables and other receivables, borrowings and trade payables. The Group's management is responsible for managing market risk through active oversight of cash positions, foreign currency risk mitigation strategies,

borrowing arrangements, and adherence to internal market risk thresholds.

a. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates

The Group is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings.

1% changes in interest rate will increase/decrease the borrowing cost by ₹ 3.38 Lakhs (Pre Tax).

The Group holds deposits with banks and hence is exposed to interest rate sensitivity. 1% changes in interest rate will increase/decrease interest income by ₹ 1,238.3 Lakhs (31 March 2025: ₹52.20 Lakhs).

b. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows from an asset/liability will fluctuate because of changes in foreign exchange rates. The Group exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency).

(All amounts in Indian Rupees in lakhs, unless otherwise stated)

Any movement in the functional currency of the various operations of the Group against major foreign currencies may impact the Group's revenue in international geographies. The Group evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

Exchange gain of ₹ 930.24 lakhs and ₹ 242.19 lakhs has been recognised in the Consolidated statement of profit and loss for the years ended 31 March 2026 and 31 March 2025 respectively.

ii) Credit Risk

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in financial loss to the Group. Credit risk arises from credit exposures from trade receivables, advances given to suppliers (for procurement of goods, services and capital goods), cash and cash equivalent with banks, security deposits and loans.

Trade Receivables and Other Receivables

The credit risk of the Group is managed at a corporate level by the risk management committee which has established the credit policy norms for its customers. The Group expects to continue to derive most of its revenue from the Indian Defence Forces consequent to which the Group has a negligible credit risk associated with such receivables.

As the Group's debtors are predominantly the Indian Defense Forces where the counter party has sufficient capacity to meet the obligations, the risk of default is considered negligible. Accordingly, impairment on account of expected credit losses is being assessed on a case to case basis in respect of dues outstanding for significant period of time as per the accounting

policy. Further, the management believes that the unimpaired amounts that are due is collectable in full, based on historical payment behaviour and extensive analysis of customer credit risk.

In a few cases credit is extended to customers based on market conditions after assessing the solvency of the customer and the necessary due diligence to determine credit worthiness. Advance payments are made against bank guarantee which safeguards the credit risk associated with such payments. Impairment losses on financial assets have been made after factoring contractual terms and other indicators.

Financial instruments and cash deposits

The cash and cash equivalent with banks are in the form of short term deposits with maturity period of up to 1 year. The Group has a well structured Risk Mitigation Policy whereby there are present limits for each bank based on its net worth and earning capacity which is reviewed on a periodic basis. The Group has not incurred any losses on account of default from banks on deposits.

(All amounts in Indian Rupees in lakhs, unless otherwise stated)

The credit risk in respect of other financial assets is negligible as they are mostly due from government department/other parties.

Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the top management on an annual basis, and may be updated throughout the year subject to approval of the Group's Board of Directors.

The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Refer Note 10 for ageing for Trade Receivables.

iii) Liquidity Risk

Liquidity risk is the risk that the Group will not be able to settle or meet its obligations on time or at a reasonable price

The Group has an established liquidity risk management framework for managing its short term, medium term and long term funding and liquidity management requirements. The Group's exposure to liquidity risk arises primarily from mismatches of the maturities/recovery of financial assets and liabilities. The Group manages the liquidity risk by maintaining adequate funds in cash and cash equivalents. The Group also has adequate credit facilities agreed with banks to ensure that there is sufficient cash to meet all its normal operating commitments in a timely manner.

The table below provides details regarding the remaining contractual maturities of financial liabilities at the reporting date

Particulars	Carrying Value	On demand	< 3 months	3 to 12 months	1 to 5 years	> 5 years
As at 31 March 2026

Other financial liabilities	5,670.44	8.10	4,451.27	1,211.07	-	-

At present, the group does expects to repay all liabilities at their contractual maturity. The operating activity is expected to generate sufficient cash inflows in order to meet such cash commitments.

44. CAPITAL MANAGEMENT

For the purposes of managing capital, the Group considers its equity share capital, securities premium, and other equity reserves attributable to shareholders as components of capital. The key objective of capital management is to enhance long-term shareholder value. The Group actively reviews and adjusts its capital structure in response to evolving economic conditions and compliance with financial covenants. This may involve modifying dividend payouts, returning capital to shareholders, or issuing additional equity. Capital adequacy is monitored through the gearing ratio, calculated as net debt divided by the sum of net debt and total equity. Net debt comprises interest-bearing borrowings, net of cash, cash equivalents, and bank balances.

Particulars	31 March 2026	31 March 2025
Gearing ratio		
Borrowings (non-current and current, including current maturities of non-current borrowings, interest accrued and due, Interest accrued but not due)	338.23	5,415.16

(All amounts in Indian Rupees in lakhs, unless otherwise stated)

44. CAPITAL MANAGEMENT (Contd.)

Particulars	31 March 2026	31 March 2025
Less: Cash and cash equivalents (including balances at bank other than cash and cash equivalents and margin money deposits with banks)	(1,30,641.98)	(1,18,116.39)
Net debt (A)	(1,30,303.76)	(1,12,701.23)
Equity (B)	1,94,908.40	1,73,591.01
Gearing ratio (%) $\{A/(A+B)\}^*$	-	-

Gearing ratio:

The Group monitors capital using gearing ratio, which is net debt divided by total capital plus net debt. The Group's policy is to keep the gearing ratio within 50%. In order to achieve this overall objective, the Group makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Group aims to ensure that it meets the financial covenants attached to the interest bearing loans and borrowings that define the capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowings in the current year.

* Net Gearing Ratio for 31 March 2026 and 31 March 2025 not calculated since net debt is negative.

* No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2026 and 31 March 2025.

45. EMPLOYEE STOCK OPTION SCHEME

The objective of the Employee Stock Option Scheme is to attract and retain talent and align the interest of employees with the Zen Technologies Limited as well as to motivate them to contribute to its growth and profitability. The Group adopts Senior Executive Plan in granting Stock options to its Senior Employees. (Employee Stock Option Plan-2021).

During the Annual General Meeting held on 28th August 2021, Zen Technologies Limited introduced the Employee Stock Option Plan-2021, which was subsequently ratified by the shareholders on 29th September 2022, in accordance with the earlier SEBI (Share Based Employee Benefits) Regulations, 2014. The plan received in-principle approval from the National Stock Exchange of India Limited and BSE Limited to issue a maximum of 40,00,000 equity shares with a face value of Re.1/- each, under the Zen Technologies Limited Employee Stock Option Plan-2021

To facilitate the implementation of the ESOP scheme, the ESOS trust had purchased 4,81,524 shares from the secondary market, for allocation to eligible employees under the ESOS scheme. During the year ended 31 March 2024, ESOS trust borrowed funds of ₹5.75 Crores and utilised such funds to Purchase additional 1,59,876 shares from secondary Market .

As at 31 March 2025, the ESOP Trust purchased in aggregate 6,41,400 shares from secondary market at consideration of ₹1,567.66 lakhs.

During the year ended 31 March 2025 the Nomination and Remuneration Committee had further granted 5,000 options on 4 May 2024 at an exercise price of ₹100 per option; 10,500 options on 28 July 2024 at an exercise price of ₹500 per option; 47,000 options on 14 February 2025 at an exercise price of ₹500 per option; and 1,37,000 options on 28 March 2025 at an exercise price of ₹500 per option. During the year ended 31 March 2026 the Nomination and Remuneration Committee had granted 37,750 options on 25 October 2025 at an exercise price of ₹250 per option and 1,27,500 options on 30 March 2026 at an exercise price of ₹250 per option.

In the standalone financial statements, the Group had adopted the policy of consolidating the ESOP Trust, the related loan and advances appearing in the standalone financial statements of the Group were eliminated and investment in own shares the Group held by the trust is shown as treasury shares in "other equity".

b) The nature and extent of share-based payment arrangements that existed during the period

Summary of options granted under plan:

Particulars	31 March 2026	31 March 2025
Options Outstanding at the beginning of the year	35,18,100	36,16,600
No. of Options Granted during the Year	1,65,250	1,99,500

Loss of Control in AiTuring Technologies Private Limited — Reclassification from Subsidiary to Associate

During the year, AiTuring Technologies Private Limited ("AiTuring"), a subsidiary of the Company, issued 833 fresh equity shares to outside investors at ₹ 4,000 per share. Pursuant to this fresh issue, the total issued share capital of AiTuring increased from 20,409 shares to 21,242 shares. The Company's shareholding in AiTuring, being 10,409 shares, remained unchanged in absolute terms; however, its percentage holding reduced from 51.0% to 49.0%, resulting in loss of control over AiTuring with effect from 18 September 2025. Accordingly, AiTuring has been deconsolidated from this date, and the Company's retained 49% interest is now accounted for as an investment in associate under Ind AS 28 "Investments in Associates and Joint Ventures".

The fair value of the Company's retained 10,409 shares (49% interest) in AiTuring has been determined with reference to the price of ₹ 4,000 per share at which AiTuring issued fresh equity shares to outside investors on September 18, 2025, being an arm's length transaction with an unrelated third party.

a) Calculation of Gain on Loss of Control

Particulars	Total
Fair value of retained interest	416.36
Add: Carrying value of NCI derecognised	131.08
Total (A)	547.44
Less: Carrying value of net assets derecognised	267.30
Less: Goodwill derecognised	185.90
Total (B)	453.20
Gain on loss of control (A - B)	94.24

(All amounts in Indian Rupees in lakhs, unless otherwise stated)

With effect from 18 September 2025, the retained 49% interest in AiTuring is accounted for as an investment in associate under the equity method as per Ind AS 28, whereby the Company's share of AiTuring's profit or loss is recognised in the Consolidated Statement of Profit and Loss and the carrying amount of the investment is adjusted accordingly. The gain of Rs. 94.24 lakhs on loss of control has been disclosed as an exceptional item in the Statement of Profit and Loss for the year.

Revenue, expenses, assets and liabilities of AiTuring are consolidated line-by-line only up to 17 September 2025 and are not consolidated thereafter. Goodwill of Rs. 185.90 lakhs relating to AiTuring, previously carried in the consolidated balance sheet, has been derecognised as it does not qualify for continued recognition once control is lost. The investment in AiTuring is disclosed as "Investment in Associate" under Non-current Investments as at 31 March 2026.
